Stares, 2017-12-19 The United States faces an increasingly turbulent world The risk of violent conflict and other threats to international order presents a vexing dilemma should the United States remain the principal guarantor of global peace and security with all its considerable commitments and potential pitfalls not least new and costly military entanglements that over time diminish its capacity and commitment to play this vital role or alternatively should it pull back from the world in the interests of conserving U S power but at the possible cost of even greater threats emerging in the future Paul B Stares proposes an innovative and timely strategy preventive engagement to resolve America's predicament This approach entails pursuing three complementary courses of action promoting policies known to lessen the risk of violent conflict over the long term anticipating and averting those crises likely to lead to costly military commitments in the medium term and managing ongoing conflicts in the short term before they escalate further and exert pressure on the United States to intervene In each of these efforts forging preventive partnerships with a variety of international actors including the United Nations regional organizations nongovernmental organizations and the business community is essential The need to think and act ahead that lies at the heart of a preventive engagement strategy requires the United States to become less shortsighted and reactive Drawing on successful strategies in other areas Preventive Engagement provides a detailed and comprehensive blueprint for the United States to shape the future and reduce the potential dangers ahead **Feminist Engagements** Kathleen

The Engagement of Domestic Courts with International Law Eleni Methymaki, 2024-03-20 The relationship between domestic courts and international law is usually defined by the frameworks of monism and dualism The Engagement of Domestic Courts with International Law advances and develops a new paradigm for describing assessing and understanding the role of domestic courts in the international legal order Two trends are examined in parallel in this volume The traditional dividing lines between national and international law norms and institutions have become increasingly blurred However the practice of domestic courts can less and less be understood by reference to a formal approach that dictates how national legal orders receive international law The solutions that courts reach are often based on a variety of other considerations that are not captured by the classical formal models The aim of the book is to bring together the wide variety of types of engagement as an important step towards a better understanding of what courts do and eventually towards a normative exercise of

articulating principles or guidelines for the engagement of domestic courts with international law To bring together the pragmatic approaches of domestic courts the International Law Association Study Group on Principles on the Engagement of Domestic Courts with International Law engaged in studies with experts from a variety of backgrounds On the basis of the Study Group s Final Report the editors of this book continued to work with experts from different jurisdictions to collect and analyse alternate pragmatic forms of engagement from domestic courts This publication contains the outcome of this process

Stage, Page, Scandals, and Vandals David L. Rinear,2004 *The Birth of Solidarity* François Ewald,2020-05-08 Fran ois Ewald s landmark *The Birth of Solidarity* first published in French in 1986 revised in 1996 with the revised edition appearing here in English for the first time is one of the most important historical and philosophical studies of the rise of the welfare

state Theorizing the origins of social insurance Ewald shows how the growing problem of industrial accidents in France throughout the nineteenth century tested the limits of classical liberalism and its notions of individual responsibility As workers and capitalists confronted each other over the problem of workplace accidents they transformed the older practice of commercial insurance into an instrument of state intervention thereby creating an entirely new conception of law the state and social solidarity What emerged was a new system of social insurance guaranteed by the state The Birth of Solidarity is a classic work of social and political theory that will appeal to all those interested in labor power the making and dismantling of the welfare state and Foucauldian notions of governmentality security risk and the limits of liberalism The End of Strategic Stability? Lawrence Rubin,Adam N. Stulberg,2018-09-03 During the Cold War many believed that the superpowers shared a conception of strategic stability a coexistence where both sides would compete for global influence but would be deterred from using nuclear weapons In actuality both sides understood strategic stability and deterrence quite differently Today s international system is further complicated by more nuclear powers regional rivalries and nonstate actors who punch above their weight but the United States and other nuclear powers still cling to old conceptions of strategic stability The purpose of this book is to unpack and examine how different states in different regions view strategic stability the use or non use of nuclear weapons and whether or not strategic stability is still a prevailing concept The contributors to this volume explore policies of current and potential nuclear powers including the United States Russia China India Iran Israel Pakistan and Saudi Arabia This volume makes an important contribution toward understanding how nuclear weapons will impact the international system in the twenty first century and will be useful to students scholars and practitioners of nuclear weapons policy *South Korean Engagement Policies and North Korea* Key-young Son,2006-11-22 A fresh historical and theoretical exploration of the much debated but still elusive question of the Korean divide In contrast to much of the literature on the divide which deals with state building on the two sides of the Demilitarized Zone this book sheds light on the slow but steady process of homogenization between the two estranged peoples as accelerated after the end of the Cold War and especially after the inauguration of President Kim Dae jung in 1998 Providing immense empirical detail as well as theoretical debate on the ideas in policy shaping in South Korea the book presents a rich history of enemies and covers issues including an overview of the structural shift and the rise and fall of identity groups in South Korea history of enemy making and peace building North Korea s external relations with the US Japan and Europe Hyundai s groundbreaking cross border tourism and other economic cooperation projects the lingering nuclear weapons crises By focusing on the question of identities the book presents a new approach on one of the most important legacies of the Cold War and threat to peace in the contemporary world the divided Korean peninsula As such it fills a major gap in the literature utilizing new theoretical and empirical frameworks to deal with the Korean division and its future implications in East Asia *Acts of Ghana* Ghana,1960 Framing Civic Engagement, Political Participation and Active Citizenship in Europe Cristiano Bee,Roberta

Guerrina,2017-12-22 This book evaluates the role that civic engagement political participation and active citizenship can play in promoting the establishment of a European polity The chapters included here examine how the practice of active citizenship is managed and constructed in the context of a European drive to increase civic engagement and political participation in three member states Portugal Italy and the UK and one accession country Turkey Looking at both processes and policies promoting active citizenship at the European and national levels this book uncovers current discourses as well as political priorities and values that surround the activities of non governmental organizations NGOs Of particular interest are debates about the nature and level of civic and political participation and engagement of marginal groups women youths migrants and minorities as they are particularly vulnerable to social exclusion The book focuses on the interaction between institutions and civil society actors addressing a number of questions related to their reciprocal role in influencing shaping criticising or disregarding certain political priorities This book was published as a special issue of the Journal of Civil Society
