## **Limits Of Idealism When Good Intentions Go Bad:**

The Limits of Idealism Melvyn L. Fein, 2007-08-28 If the truth be known I am only a partially reformed idealist In the secret depths of my soul I still wish to make the world a better place and sometimes fantasize about heroically eradicating its faults When I encounter its limitations it is consequently with deep regret and continued surprise How I ask myself is it possible that that which seems so fight can be a chimera And why I wonder aren't people as courageous smart or nice as I would like The pain of realizing these things is sometimes so intense that I want to close my eyes and lose myself in the kinds of daydreams that comforted me as a youngster One thing is clear my need to come to grips with my idealism had its origin in a lifetime of naiveté From the beginning I wanted to be a good person Often when life was most treacherous I retreated into a corner from whence I escaped into reveries of moral glory When I was very young my faith was in religion In Hebrew school I took my lessons seriously and tried to apply them at home By my teen years this had been replaced by an allegiance to socialism In the Brooklyn where I grew up my teachers and relatives made this seem the natural course When I reached my twenties however and was obliged to confront a series of personal deficiencies psychotherapy shouldered its way to the fore

**Post-Liberalism** Melvyn L. Fein, 2017-09-08 Liberalism is dying despite its superficial appearance of vigor Most of its adherents still believe it is the wave of the future but they are clinging to a sinking dream So says Melvyn L. Fein who argues that liberalism has made countless promises almost none of which have come true Under its auspices poverty was not eliminated crime did not diminish the family was not strengthened education was not improved nor was universal peace established These failures were not accidental they flow directly from liberal contradictions In Post Liberalism Fein demonstrates why this is the case Fein contends that an inverse force rule dictates that small communities are united by strong forces such as personal relationships and face to face hierarchies while large scale societies are integrated by weak forces such as technology and social roles As we become a more complex techno commercial society the weak forces become more dominant This necessitates greater decentralization in direct opposition to the centralization that liberals celebrate Paradoxically this suggests that liberalism as an ideology is regressive rather than progressive If so it must fail Liberals assume that some day under their tutelage these trends will be reversed but this contradicts human nature and history's lessons According to Fein we as a species are incapable of eliminating hierarchy or of loving all other humans with equal intensity Neither as per Emile Durkheim are we able to live in harmony without appropriate forms of social cohesion

**Evolution Versus Revolution** Melvyn L. Fein, 2017-07-05 Revolutionary and evolutionary theorists have very different views about change Fein writes in favour of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally control the direction that significant alterations take Fein

explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force rule dictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a classical revolution is in our future

*Voices of Diversity* Mary C. Sengstock, 2009-03-05 The 21st century sees an increasing number of cultural minorities in the United States Particularly the rise in multi cultural or mixed heritage families is on the rise As with many trends just as the amount of diversity increases so does the level of resistance in groups that oppose this diversity While this problem exists through life for persons from multicultural backgrounds the tension is particularly acute for children whose identities and socialization experiences are still in formation With parents from different cultural backgrounds as well as school and community experiences giving that might question their diverse heritage children are likely to experience distressing confusion How can they come to terms with this conflict and how can family and community help them to resolve it Combining case studies and interviews this work particularly focuses on multi cultural families as a yet untapped source of information about inter culture contact *Voices of Diversity* Multiculturalism in America will be both a resource for researchers and practitioners as well as a practical guide to families dealing with these issues every day

**The Importance of Ideals** Wibren van der Burg, Sanne Taekema, 2004 Ideals are important in social reality but they have been neglected in theories of law politics and morality This book has the role of ideals as its central theme More specifically it argues that ideals are necessary to understand pluralism that they are key elements in controversy and debate and that they enable development It combines theoretical analysis of the concept of ideals with discussion of concrete debates and cases including philosophical debates about politics and equality sociological studies of the diverse interpretations of the rule of law and accounts of the development of environmental law and privacy law Thus the functioning of ideals is critically examined showing the merits and limitations of an ideal oriented approach

*Trust and the Health of Organizations* John G. Bruhn, 2012-12-06 Leaders are usually held responsible for the trust health and success of an organization but it is the culture of organizations that provides the true foundation for these important factors The leader s personality and skills influence how a trustful environment and working relationship is created but the organization has a culture tradition and experience of its own which influences the leader s success The level of trust in an organization s culture will ultimately determine whether or not it is trustful healthy and successful Based on the interview of current and former chief executive officers from profit and non profit organizations to record their experiences in creating trust in their environment and their perceptions of the health of their organizations The collected data reveals The qualities

of a trusted leader How they created trust or How trust was destroyed in organizations How leaders worked in distrustful environments How to create a more healthy organization This timely work will be of interest to organizations and occupational sociologists human resource workers social psychologists and students of management courses

*International Clinical Sociology* Jan Marie Fritz, 2007-11-03 Clinical sociology is a multidisciplinary field that seeks to improve life situations for individuals and groups This book showcases the art and science of clinical sociology from around the world It is the first book to present basic clinical sociology diagrams and models in addition to detailed histories of clinical sociology in the United States Quebec France and Japan A range of interventions are discussed in light of a region's economic social political and disciplinary history The book presents illustrative case studies from leaders in the field and it serves the need of graduate level courses from around the world      **Idol Worship in Chinese Society** Xiaodong

Yue, Chau-kiu Cheung, 2018-10-17 This book introduces psychosocial studies of idol worship in Chinese societies It reviews how idol worship is perceived in Chinese culture history and philosophy as well as how it differs from the concept of celebrity worship that is more dominant in Western literature Using a pioneering hexagonal model of idol worship this book explains how idol worship is affected by various demographic and dispositional variables as well as the cognitive and social functions of idols and idol worship Finally it discusses idol worship from a contemporary Chinese perspective including emotional interpersonal and social learning aspects and ends with a discussion of moral development perspective      **The Partnership**

**Model in Human Services** Rosalyn Benjamin Darling, 2000-06-30 Students and practitioners are provided with a theoretical and methodological foundation for implementing client and family centred partnership approaches in human services The author integrates the principles and practice of sociology with applied work in the helping professions      *Redefining Higher*

*Education* Melvyn L. Fein, 2022-02-26 Higher education is in trouble Commentators of all stripes bemoan escalating costs and diminishing quality Solutions have been offered from all quarters but tend to be piecemeal and all too often ideological In this tough minded look at the history current climate and future of university education in the United States Melvyn L Fein re examines the mission of higher education and outlines what institutions can do to better prepare students for an ever more complex techno commercial society Fein argues that students must have the opportunity to explore and discover what works for them and that the most important tool for institutions of higher education is self direction Professors must be allowed to teach in their own ways bringing their own experience into the classroom Since university missions differ both universities and professors need the freedom to make decisions independently The imminent need is for a democratic elite consisting of self directed leaders who possess technical and social expertise as well as personal motivation The tools for change are appropriate curricula communities of learners and a genuine marketplace of ideas While there is no magic bullet Fein contends that we can and should build on the achievements of the past so as to evolve more responsive educational institutions those that promote merit responsibility and universalism      **The British National Bibliography** Arthur James

Wells,2003 *The Social Construction of Trust* Linda R. Weber,Allison I. Carter,2003 Based on in depth interviews designed to determine what trust is how it is built and how it is destroyed this important new resource provides extensive insight into the fundamental process of interpersonal trust in the day to day lives of average people It furnishes qualitative data analysis and offers a detailed definition of trust in a sociological context This unique text is a valuable reference for sociologists social and clinical psychologists and students in these disciplines **American Book Publishing Record** ,2000 Race and Morality Melvyn L. Fein,2012-12-06 After I had finished my presentation a colleague and I sat rocking on the hotel porch to discuss its merits It was a picture perfect fall day in Jekyll Island Georgia and he was a friend Yes he explained what I was saying seemed to be true And yes it probably needed to be said but why did I want to be the one to say it Wasn t I after all a tenured professor who didn t need to make a fuss in order to retain his job Didn t it make sense to just kick back and enjoy the easy life I had earned The topic of our tete a tete was my speculations about race relations and he was certain that too much honesty could only get me in trouble Given my lack of political correct ness people were sure to assume that I was a racist and not give me a fair hearing This was a prospect I had previously contemplated Long before embarking on this volume I had often asked myself why I wanted to write it The ideological fervor that dominates our public dialogue on race guaran teed that some people would perceive me as a dangerous scoundrel who had to be put in his place *Sociological Abstracts* Leo P. Chall,2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Sociological Practice** John G. Bruhn,Howard Rebach,2007-11-15 This second edition of a classic text in the field has been revisited by its authors and extensively reworked It incorporates new case studies based on the authors experiences as well as one completely new chapter The first edition of Clinical Sociology was published in 1996 Its goal was to explore various approaches to problem solving at the micro meso and macro levels of social complexity **On Loss and Losing** Melvyn L. Fein,2017-09-08 All people suffer instances of personal loss that cause distress All too often their discomfort is treated as a medical issue requiring treatment usually through medication Melvyn L Fein argues for a broader understanding of loss and losing that offers another approach which he characterizes as resocialization Indeed how a person thinks feels and acts may all need to be reorganized if personal distress is to be overcome Fein urges that we distinguish between the loss of something we once possessed and losing something that never came to fruition Thus it is possible never to achieve vital social roles social statuses and or personal bonds despite our individual efforts While some of these losses are not necessarily problematic others are extremely painful Unfortunately rather than investigate the source of this discomfort distraught individuals frequently seek refuge in simplistic solutions As a consequence one of the reasons the medical model remains dominant is that the alternative is imperfectly understood Fein presents a compelling case for a

sociological interpretation of personal distress Although he acknowledges that some personal suffering derives from biological sources and that mental illnesses can spill over to cause social dysfunctions he argues that it is important to recognize the social causes of human suffering In thereby recognizing the limitations of the human condition most of us can do better than blindly accept an inherited dedication to the medical model On Loss and Losing offers a legitimate option without denying the reality of human suffering      **Bosnian Refugees in America** Reed Coughlan, Judith

Owens-Manley, 2006-08-02 In April of 1992 war began in Bosnia Sarajevo site of the 1984 Winter Olympics and we were told one of the most beautiful cities in the world became a city under siege For all of the people of Bosnia life shifted in unimaginable ways in a matter of hours days or weeks An immediate exodus began from Bosnia and people who had never anticipated leaving their country became refugees dependent upon a world system of resettlement for displaced persons This book relates the experiences of a hundred Bosnian families who came to Utica a town in upstate New York Bosnians in Utica came here as refugees ginning in 1993 having ed from the wars of succession in the former Yugoslavia Our study evolved over several years as a result of our interests in the war in Bosnia and the massive ow of refugees that it precipitated We began work on the project in the late 1990s as we set out to learn about the war and to explore refugee experiences of displacement transit and resettlement Our intent is to portray the experience of Bosnian refugees in one American city and to capture in their words in as much detail as possible their adjustment to a new community and a new culture      *The Child*

*Savers* Anthony M. Platt, 1977-06-15 Anthony Platt s study a chronicle of the child saving movement and the juvenile court explodes myth after myth about the benign character of both The movement is described not as an effort to liberate and dignify youth but as a punitive romantic and intrusive effort to control the lives of lower class urban adolescents and to maintain their dependent status In so doing Platt analyzes early views of criminal behavior the origins of the reformatory system the social values of middle class reformers and the handling of youthful offenders before and after the creation of separate juvenile jurisdictions In this second enlarged edition of *The Child Savers* the author has added a new introduction and postscript in which he critically reflects upon his original analysis suggests new ways of thinking about the child saving movement and summarizes recent developments in the juvenile justice system      *Madmen, Intellectuals, and Academic*

*Scribblers* Edward J. López, Wayne A. Leighton, 2012-11-21 *Madmen Intellectuals and Academic Scribblers* presents a simple economic framework for understanding the systematic causes of political change Wayne A Leighton and Edward J L pez take up three interrelated questions Why do democracies generate policies that impose net costs on society Why do such policies persist over long periods of time even if they are known to be socially wasteful and better alternatives exist And why do certain wasteful policies eventually get repealed while others endure The authors examine these questions through familiar policies in contemporary American politics but also draw on examples from around the world and throughout history Assuming that incentives drive people s decisions the book matches up three key ingredients ideas rules and incentives with

the characters who make political waves madmen in authority such as Franklin Delano Roosevelt and Margaret Thatcher intellectuals like Jon Stewart and George Will and academic scribblers in the vein of Friedrich Hayek and John Maynard Keynes Political change happens when these characters notice holes in the structure of ideas institutions and incentives and then act as entrepreneurs to shake up the status quo
