Multispecies Discourse Analysis Gavin Lamb, 2024-04-04 This book explores how language and communication shape the increasingly entangled lives of people and sea turtles at the nexus of sea turtle conservation and ecotourism. Here new ecocultural identities are taking shape as people strive to make sense of their shifting multispecies landscape and as sea turtles gradually reclaim beaches after decades of absence. The book offers researchers in ecolinguistics and related ecologically engaged fields in discourse analysis an integrative theoretical and methodological approach to empirically investigate the human and more than human discourses and practices shaping problematic human-wildlife interaction. Containing short vignettes in each chapter covering the biology and behaviours of sea turtles this book suggests how discourse analysts might contribute to a life-sustaining multispecies ethics in an uncertain socio-ecological time increasingly being referred to as the Anthropocene.

Statistical Digest, 1973 *Hawaii Fisheries, Annual Summary*, 1960 Detours Hokulani K. Aikau, Vernadette Vicuña Gonzalez, 2019-11-08 Many people first encounter Hawai'i through the imagination a postcard picture of hula girls, lu'aus, and plenty of sun, surf, and sea. While Hawai'i is indeed beautiful, Native Hawaiians struggle with the problems brought about by colonialism, military occupation, tourism, food insecurity, high costs of living, and climate change. In this brilliant reinvention of the travel guide, artists, activists, and scholars redirect readers from the fantasy of Hawai'i as a tropical paradise and tourist destination toward a multilayered and holistic engagement with Hawai'i's culture and complex history. The essays, stories, artworks, maps, and tour itineraries in Detours create decolonial narratives in ways that will forever change how readers think about and move throughout Hawai'i.
