Lincoln Castle:

Lincoln Castle Revealed Jonathan Clark, Justin Garner-Lahire, Cecily Spall, Nicola Toop, 2021-08-04 This book tells a new story of the royal castle of Lincoln in the north of England how it was imposed on the late Anglo Saxon town and how it developed over the next 900 years in the hands of the English king or his aristocratic associates leaving us a surviving monument of three great towers each with its own biography Led by FAS Heritage archaeologists architectural historians and a large cohort of the general public have combined to produce a revealing and accessible account of the story of Lincoln Castle and a reborn historical attraction for the city of Lincoln *The English Castle* A. Hamilton Thompson, 2013-04-10 Once a seat of government as well as the private residence of its owners the medieval castle was also a military base and stronghold for the surrounding geographical area The development of these sturdy fortifications in England during the Middle Ages is carefully examined in this profusely illustrated book From early chapters dealing with primitive earthworks and Roman stations the text goes on to explore the construction of the English castle following the Norman Conquest the beginnings of the stone castle and the Norman keep bastions of the thirteenth century military architecture fortified towns in the later Middle Ages and more Students of architecture military history and medieval studies as well as anyone interested in the evolution of castle construction will find this work a fascinating and valuable reference Lincoln Castle Sheila Sancha, 1985 **Ladies of Magna Carta** Sharon Bennett Connolly, 2020-05-30 An innovative take on Magna Carta history that examines the impact and influence of women 39 No man shall be taken imprisoned outlawed banished or in any way destroyed nor will we proceed against or prosecute him except by the lawful judgment of his peers or by the law of the land This clause in Magna Carta was in response to the appalling imprisonment and starvation of Matilda de Braose the wife of one of King John's barons Matilda was not the only woman who influenced or was influenced by the 1215 Charter of Liberties now known as Magna Carta Women from many of the great families of England were affected by the far reaching legacy of Magna Carta from their experiences in the civil war and as hostages to calling on its use to protect their property and rights as widows Ladies of Magna Carta looks into the relationships through marriage and blood of the various noble families and how they were affected by the Barons Wars Magna Carta and its aftermath the bonds that were formed and those that were broken Including the royal families of England and Scotland the Marshals the Warennes the Braoses and more Ladies of Magna Carta focuses on the roles played by the women of the great families whose influences and experiences have reached far beyond the thirteenth century *Ferries Across the Humber* Kirk Martin, 2014-10-30 Starting with an introduction about discovering the coal burning paddle steamers of the Humber in the early 1970s the book continues with a brief history of the ferries of the Humber Estuary the coming of the first paddle steamer the Caledonia in 1814 and the rapid expansion of steamers operating on the estuary It includes personal memories of those who worked on used and loved the Humber ferries It especially looks at the paddle steamers Tattershall Castle Wingfield Castle and Lincoln Castle which became the last coal

burning paddle steamers operating a regular service in the United Kingdom An appendix lists over 80 paddle steamers from the Caledonia of 1814 to the last of the line the Lincoln Castle identified as working on the Humber Estuary from published and archive sources It includes the diesel powered paddle vessel Farringford which saw out the service in 1981 and also other vessels associated with the Hull to New Holland ferry

Castles in Medieval Society Charles Coulson, 2004 In this challenging new book Charles Coulson overturns many of the traditional assumptions about the nature and purpose of castle building in the middle ages He demolishes the traditional belief that castles were overwhelmingly military in their function showing how this was simply one aspect of a more complicated whole He sets out to recreate the medieval understanding of castles as symbolically fortified places of all kinds from ancient walled post Roman towns and prestigious religious enclaves to transitory campaign forts Going back to the original sources Dr Coulson proposes a new and more subtle understanding of the function and symbolism of castles as well as vivid insights into the lives of the people who inhabited them Fortresses were only occasionally caught up in war but constantly were central to the ordinary life of all classes of the nobility and gentry of widows and heiresses of prelates and clergy of peasantry and townspeople alike Castles in Medieval Society presents and explores this broad social panorama

Attired in Deepest Mourning Malcolm Moyes, 2022-08-23 Between 1844 and 1868 three women were tried and found guilty of the brutal murder of members of their family by poison at the Lincoln Assizes

Two of them Eliza Joyce and Priscilla Biggadike were hanged the third Mary Ann Milner committed suicide in her cell hours before she was due to be executed Drawing upon archive sources and the many divergent accounts in the popular press at the time *Attired in Deepest Mourning* is the first comprehensive study of all three cases It analyses in forensic detail the information misinformation and fake news which defined the lives and deaths of three Lincolnshire women both at the time and subsequently In addition it presents hitherto unpublished material which takes the reader beyond the hackneyed narrative of the monstrous female poisoner to a more sympathetic understanding of the pressures and circumstances in which the women lived and died *Attired in Deepest Mourning* is a local study which provides a valuable contribution to a full understanding of crime and punishment in mid Victorian Britain *Lists and Indexes* Great Britain. Public Record Office,1970 Second Catalogue of the Library of the Peabody Institute of the City of Baltimore, Including the Additions Made Since 1882 George Peabody Library,1901 King John's Right Hand Lady Sharon Bennett Connolly,2023-07-30 In a time when men fought and women stayed home Nicholaa de la Haye held Lincoln Castle against all comers Not once but three times earning herself the ironic praise that she acted manfully Nicholaa gained prominence in the First Baron's War the civil war that followed the sealing of Magna Carta in 1215 Although recently widowed and in her 60s in 1217 Nicholaa endured a siege that lasted over three months resisting the English rebel barons and their French allies The siege ended in the battle known as the Lincoln Fair when 70 year old William Marshal the Greatest Knight in Christendom spurred on by the chivalrous need to rescue a lady in distress came to Nicholaa's aid Nicholaa de la Haye was a staunch supporter of King John remaining loyal to the very end even after most of his knights and barons had deserted him A truly remarkable lady Nicholaa was the first woman to be appointed sheriff in her own right Her strength and tenacity saved England at one of the lowest points in its history Nicholaa de la Haye is one woman in English history whose story needs to be told **The Walker's Guide to the Castles of Britain** Julia Goodfellow-Smith,2025-03-13 Castles often sit in spectacular landscapes that also offer exceptional walking opportunities and some of the best views of castles are from a distance where they can be seen in the context of the landscape The Walker's Guide to the Castles of Britain will inspire both keen walkers to visit castles and castle visitors to explore the surrounding area by describing 60 of the best and most popular castles in Great Britain and an accompanying delightful short walk from each Each chapter describes the castle itself its history and architectural features and how those relate to the landscape that surrounds it followed by an easy to navigate description of the walk itself This absorbing text is accompanied by brilliant photography of the castle and the sights you will see on your walk and a useful map to guide you on your way From the well known and popular castles such as St Michael's Mount Tintagel Castle Corfe Castle and Edinburgh Castle to the lesser known gems like Kidwelly Castle Castle Stalker and Framlingham Castle The Walker's Guide to the Castles of Britain will show you how to better enjoy the castles you already know and love and discover some new ones to add to your favourites list *Architecture and Justice* Jonathan Simon,2016-04-15 Bringing together

leading scholars in the fields of criminology international law philosophy and architectural history and theory this book examines the interrelationships between architecture and justice highlighting the provocative and curiously ambiguous juncture between the two Illustrated by a range of disparate and diverse case studies it draws out the formal language of justice and extends the effects that architecture has on both the place of and the individuals subject to justice With its multi disciplinary perspective the study serves as a platform on which to debate the relationships between the ceremonial legalistic administrative and penal aspects of justice and the spaces that constitute their settings The structure of the book develops from the particular to the universal from local situations to the larger city and thereby examines the role that architecture and urban space play in the deliberations of justice At the same time contributors to the volume remind us of the potential impact the built environment can have in undermining the proper juridical processes of a socio political system Hence the book provides both wise counsel and warnings of the role of public civic space in affirming our sense of a just or unjust society

The Knight Who Saved England Richard Brooks,2014-04-20 The life and times of the greatest knight of the high middle ages who saved England from the French In 1217 England was facing her darkest hour with foreign troops pillaging the country and defeat close at hand But at the battle of Lincoln the seventy year old William Marshal led his men to a victory that would secure the future of his nation Earl of Pembroke right hand man to three kings and regent for a fourth Marshal was one of the most celebrated men in Europe yet is virtually unknown today his impact and influence largely forgotten In this vivid account Richard Brooks blends colourful contemporary source material with new insights to uncover the tale of this unheralded icon He traces the rise of Marshal from penniless younger son to renowned knight national hero and defender of the Magna Carta What emerges is a fascinating story of a man negotiating the brutal realities of medieval warfare and the conflicting demands of chivalric ideals and who against the odds defeated the joint French and rebel forces in arguably the most important battle in medieval English history overshadowing even Agincourt
