Bletchley Park and the Pigeon Spies Bernard O'Connor, 2018-02-05 Over 15 000 pigeons were dropped into occupied Europe during WW2 Some were used by secret agents to send messages back to headquarters Others were dropped by parachute into France Belgium Holland and Denmark in the hope that people would complete the attached questionnaire and provided military political economic or other intelligence of value for the Allies Photographic negatives could be sent Bletchley Park had its own loft for its pigeon spies This book investigates the work of MI14 known as the Colomba Service

and for the first time sheds light on conditions in Occupied Europe described by extremely brave men and women who risked execution if found in possession of a pigeon MI14 staff decoded or translated messages and forwarded copies to SOE SIS MI19 RAF RN Ministry of Economic Warfare BBC Churchill de Gaulle and President Benes of Czechoslovakia **Bletchley Park and the Belgian Pigeon Service** Bernard O'Connor, 2018-04-06 During the Second World War the British Royal Air Force's Special Duties Squadrons parachuted thousands of pigeons into Belgium Bletchley Park the nerve centre of the British Intelligence Service had its own pigeon loft from where birds were sent on intelligence gathering missions A secret organisation MI14 d was created to organise a pigeon service to occupied Europe Those who found the pigeons were expected to supply military economic and political intelligence for the Allies This book includes the messages sent back from Belgium In particular it investigates the roles played by Josef Raskin and Jean Ceysens the British Intelligence Services the RAF and the brave individuals who despite the possibility of imprisonment sent messages to Britain in the hope it would help liberate their country **Combat Support in Korea** John G. Westover, 1955 Covers the participation in the Korean War of these arms and services of the United States Army Corps of Engineers Transportation Corps Chemical Corps Signal Corps Medical Corps Ordnance Corps Quartermaster Corps Security Combat Morale Public Power, Private Interests and Where Do We Fit In? Edmund F. Byrne, 1998 All over the world the statues of Mary are miraculously crying In the meantime a journalist in Washington D C is diverted away from her own personal demons when she takes it upon herself to question why the Vatican is not declaring these occurrences as miracles after witnessing the unexplainable phenomena herself The journalist suspects her nightly barrage of haunting nightmares about the violent murders of countless women from five thousand year old priestesses to women accused of being witches in the seventeenth century may have something to do with the answer as she investigates the biggest story of her life Women all over the world in the 21st century are feeling the awakening as the discovery of ancient artifacts are disproving the beliefs set forth by patriarchal religions for thousands of years When the journalist receives a visitation from a beautiful Goddess who at first appears to be the Virgin Mary she suddenly realizes that an ancient religious and political cover up has grossly distorted some very important historical truths As the journalist investigates and begins to publicly write about what she has uncovered death threats and terror follow next as powerful members of the world's patriarchal religions and the age old male run organizations that support them fight viciously to keep one of the world's oldest and most deceptive societal form of control against women hidden from the world But as intimidation and threats increase so too do the miracles and visitations from the real Sleeping Goddess as she awakens once again to bless and protect the world while igniting the hearts and souls of oppressed women everywhere

Combat Support in Korea Cpt. John G. Westover, 2017-01-12 One of the cherished beliefs of those who do not know is that the logistical services of the Army lead a safe and boring life even in the combat zone The Combat Engineers and the Signal Corps began to cloud this belief in World War I The Medical Corps the Chemical Corps and the Bomb Disposal squads

of the Ordnance Corps began to demand respect as dangerous assignments in World War II In Korea all the services won the right to be shot at War becomes increasingly a matter of logistics The thin cutting edge of infantry armor and artillery still contains the larger proportion of heroes dead and alive but these combat arms depend more and more on the services to provide them not only with the traditional beans and bullets but with gasoline transportation medical service concealing smoke communications equipment graves registration potable water laundry service the list is endless Here are some true accounts that tell how the services fulfilled their missions in a tough and dirty little war There are tales of devotion to duty that match those of any combat arm There are roles of technical proficiency combined with the foresight to seize opportunities as they arose But because these are true stories there are descriptions of actions whose only value is to indicate what should not be done what lack of preparedness means in lives and dollars Here is an honest book one that had to be honest because it was conceived to tell the whole truth for the education of our army This is a book for every soldier every youth who might become a soldier every parent of every such youth He succeeded and the fruit of his labors is here
