*Hunger and Homelessness* United States. Congress. House. Select Committee on Hunger, 1987 *Homelessness in Rural America* Paula A. Rollinson, John T. Pardeck, 2019-03-19 This book deals with the rural homeless about whom little is known Offered here are some important insights into the unique problems facing the homeless in rural areas this population lacks adequate housing many live below the poverty level many lack basic services such as health care families are typically female headed substance abuse is a major problem and many of the rural homeless have emotional disabilities The finding that was unexpected is the history of family violence that most of the rural homeless have experienced throughout both childhood and adulthood More than 50 percent of the case records analyzed in this study show a history of family violence from murder to sexual abuse The data suggest that these rates of family violence are much higher than those reported for the urban homeless First published in 2006 Routledge is an imprint of Taylor Francis an informa company

*Tackling Youth Unemployment* Francesca Fazio, Anthony Forsyth, 2014-03-17 Youth have always had higher unemployment rates about twice or more than the average as they are usually the last to be hired in an expansion and the first to be let go in a recession In addition young people engage in extensive job searching in their early years and this can imply considerable job churning as both youth and employers look for a good match This highlights the importance of facilitating the school to work transition and having early interventions to assist such youth before negative conditions set in It also highlights the potential importance of determining those young people most at risk of long term unemployment and of targeting or streaming them into programmes that will yield the largest incremental net benefits given their characteristics Unemployed youth without previous work experience often are not eligible for unemployment insurance benefits when they first enter the labour market When they do receive job search assistance they often face a bewildering array of programmes that are available to assist them often with little guidance to help them select the programs that best meet their needs Consequently ensuring that today's youth do not become a lost generation is an urgent matter George Bernard Shaw once said that it is too bad that youth is wasted on the young implying that youth do not realize the opportunities they have as youth and only see them as they get older There is a danger however that many of today's youth may be never have those opportunities and hence not even see them with hindsight This book and others in the ADAPT Labour Studies Book Series are intended to deal with these challenges to make sure that youth is not wasted on the young
