Facial Surgery Plastic And Reconstructive:

Facial Surgery Mack L. Cheney, Tessa A. Hadlock, 2014-12-02 *Facial Surgery Plastic and Reconstructive* covers the full range of aesthetic and reconstructive techniques in facial plastic surgery. Now presented in two volumes, the set represents the evolution and significant expansion of Dr. Cheney's earlier work that was widely hailed as the first comprehensive resource for facial plastic surgeons. In this new version, Dr. Cheney has teamed up with Dr. Tessa Hadlock as a co-editor. Together they have expanded the scope of the book and the number of contributors to include a global network of world-renowned experts from facial plastic surgery, otolaryngology, and dermatology. Providing the foundation for the chapters that follow, the first part of the book supplies beautiful anatomic descriptions and important information on facial aging, flap reconstruction, and applied skin physiology. The next chapters include detailed step-by-step illustrations documenting the latest techniques for aesthetic and reconstructive procedures of the eyelids, nose, ears, face, and head and neck. Another section focuses on conditions such as craniofacial syndromes which affect multiple areas of the face. The final part is devoted to new and exciting developments such as facial transplantation. This book provides a resource of basic knowledge in facial plastic surgery for residents as well as experienced practitioners. With detailed descriptions of the latest surgical techniques, it captures and highlights meaningful new surgical methods with a deliberate emphasis on evidence-based medicine. The beautifully illustrated text is supplemented by three DVDs containing operative videos.

Rhinoplasty: What Every Patient Needs to Know Brenton B. Koch M.D., Brenton B., Brenton Koch, 2013-01-03 Your purchase of this book is the first step in having a confident and clear understanding of the cosmetic surgery you may be considering. The questions, expectations, and recommendations contained in this book will be vital to your outcome. This book will give insight into the realities of cosmetic surgery: reasons you may or may not choose to have surgery at all and secrets for a successful recovery. The decision to have cosmetic surgery is a serious one and should not be made hastily. Review this book a number of times. Highlight sections or dog ear pages and take this along to your consultation so you can remember all the questions you want to ask your surgeon. Remember the more information you have, the more prepared both you and your surgeon will be prior to surgery. Every year, half a million people who are interested in improving the appearance of their noses seek consultation with facial plastic surgeons. Some are unhappy with the noses they were born with, and some with the way aging has changed their nose. For others, an injury may have distorted the nose, or the goal may be improved breathing. But one fact is clear: Nothing has a greater impact on how a person looks than the size and shape of the nose. Because the nose is the most defining characteristic of the face, even a slight alteration can greatly improve one's appearance. The definition of rhinoplasty is literally reshaping the nose. The etymology of the English word rhinoplasty is derived from the Greek prefix *rhino* meaning nose and *plasty* defined as a surgical procedure for the repair or restoration of a body part. If you have wondered how nose surgery or rhinoplasty could improve your looks, self-confidence, or health, you need to know how rhinoplasty is performed and

what you can expect No book can allay all your concerns but this one can provide answers for many of the questions you may have Successful facial plastic surgery is a result of good rapport between patient and surgeon Trust based on realistic expectations and exacting medical expertise develops in the consulting stages before surgery Your surgeon can answer and should be willing to specific questions about your unique needs Brenton B Koch MD FACS is a double board certified facial plastic and reconstructive surgeon He is certified by the American Board of Facial Plastic and Reconstructive Surgery as well as the American Board of Otolaryngology Head and Neck Surgery and has earned the designation of Fellow in the American College of Surgeons Dr Koch specializes exclusively in plastic and reconstructive surgery of the face with an emphasis in rhinoplasty and cosmetic facial rejuvenation Each year his team of professionals prepares for and performs hundreds of facial surgeries treating problems relating to appearance accident or disease He resides in Des Moines Iowa with his wife Heidi M Koch MD and their four children For more information visit www.kochmd.com Congratulations for taking this significant step toward improved health and well being
