

Facies Models (Geoscience Canada, Reprint Series 1)

Walker, Roger G., editor

Facies Models Second Edition Geoscience Canada Reprint Series 1

Juergen Reinhardt, Wayne R. Sigleo

Facies Models Second Edition Geoscience Canada Reprint Series 1:

Facies Models, Second Edition Roger G. Walker, 1984 **Stratigraphy: A Modern Synthesis** Andrew D. Miall, 2022-03-02 The updated textbook is intended to serve as an advanced and detailed treatment of the evolution of the subject of stratigraphy from its disparate beginnings as separate studies of sedimentology lithostratigraphy chronostratigraphy etc into a modern integrated discipline in which all components are necessary There is a historical introduction which now includes information about the timeline of the evolution of the components of modern stratigraphy The elements of the various components facies analysis sequence stratigraphy mapping methods chronostratigraphic methods etc are outlined and a chapter discussing the modern synthesis is included near the end of the book which closes with a discussion of future research trends in the study of time as preserved in the stratigraphic record *Geological Survey of Canada, Open File 2659* , *The Sedimentary Basins of the United States and Canada* Andrew Miall, 2019-04-20 The Sedimentary Basins of the United States and Canada Second Edition focuses on the large regional sedimentary accumulations in Canada and the United States Each chapter provides a succinct summary of the tectonic setting and structural and paleogeographic evolution of the basin it covers with details on structure and stratigraphy The book features four new chapters that cover the sedimentary basins of Alaska and the Canadian Arctic In addition to sedimentary geologists this updated reference is relevant for basin analysis regional geology stratigraphy and for those working in the hydrocarbon exploration industry Features updates to existing chapters along with new chapters on sedimentary basins in Alaska and Arctic Canada Includes nearly 300 detailed full color paleogeographic maps Written for general geological audiences and individuals working in the resources sector particularly those in the fossil fuel industry Principles of Sedimentary Basin Analysis Andrew D. Miall, 2013-03-09 Review of the second edition For geologists and geophysicists studying sedimentary fill of basins this volume is a valuable addition to their shelves The book is packed with information includes numerous lists of references and is up to date As a source volume this book is second to none It is clear and well organized GEOPHYSICS **Geoscience Canada** , 1998 **Glacial-Marine Sedimentation** Bruce F. Molnia, 2012-12-06 This volume of 18 papers describes the glacial marine sedimentary environment in a variety of temporal and spatial settings The volume s primary emphasis is the characteri zation of Quaternary glacial marine sedimentation to show 1 the significant differences that exist between glacial marine environments in different geographic settings and 2 their resulting glacial marine deposits and facies Addi tionally papers describing ancient glacial marine environ ments are also presented to illustrate lithified analogs of the Quaternary deposits With the Doctrine of Uniformitarianism in mind the present is the key to the past it is hoped that this volume will serve to expand the horizons of geologists working on the rock record especially those whose primary criteria for recognition of ancient glacial marine environments is the presence of dropstones in a finer grained matrix As the papers presented here show diamictite is only one of many types of deposits that form in the glacial marine sedimentary

environment Papers presented in this volume examine the Quaternary glacial marine sedimentary picture in subarctic Alaska Antarctica the Arctic Ocean the Kane Basin Baffin Island the Puget Fraser Lowland of Washington and British Columbia and the North Atlantic Ocean Ancient glacial marine deposits described are the Neogene Yakataga Formation of southern Alaska the Late Paleozoic Dwyka Formation of the Karoo Basin of South Africa and the Precambrian Mineral Fork Formation of Utah For continuity a paper summarizing the temporal and spatial occurrences of glacial marine deposits is also presented U.S. Geological Survey Bulletin, 1983 *Geology by Design* Carl R. Froede, Jr., Carl R. Froede, 2007 A study peeling back the layers of biblical geology Aquifer Characterization Techniques Robert G. Maliva, 2016-05-26 This book presents an overview of techniques that are available to characterize sedimentary aquifers Groundwater flow and solute transport are strongly affected by aquifer heterogeneity Improved aquifer characterization can allow for a better conceptual understanding of aquifer systems which can lead to more accurate groundwater models and successful water management solutions such as contaminant remediation and managed aquifer recharge systems This book has an applied perspective in that it considers the practicality of techniques for actual groundwater management and development projects in terms of costs technical resources and expertise required and investigation time A discussion of the geological causes types and scales of aquifer heterogeneity is first provided Aquifer characterization methods are then discussed followed by chapters on data upscaling groundwater modelling and geostatistics This book is a must for every practitioner graduate student or researcher dealing with aquifer characterization Report of Investigations - Minnesota Geological Survey, 1963 *Facies Analysis, Genetic Sequences, and Paleogeography of the Lower Part of the Minturn Formation (Middle Pennsylvanian), Southeastern Eagle Basin, Colorado* John A. Karachewski, 1992 *Pliocene Carbonates and Related Facies Flanking the Gulf of California, Baja California, Mexico* Mark E. Johnson, Jorge Ledesma-Vázquez, 1997-01-01 **Clastic Hydrocarbon Reservoir Sedimentology** Xinghe Yu, Shengli Li, Shunli Li, 2018-04-03 This book presents a comprehensive assessment of clastic sedimentology and its application to reservoir geology It covers the theoretical foundations of the topic and its use for scientists as well as professionals in the field Further it addresses all aspects of reservoir sedimentology clastic sequence stratigraphy sedimentation reservoir diagenesis and heterogeneity as well as depositional systems alluvial fluvial lacustrine delta sandy coast neritic deep water in detail The research team responsible for this book has been investigating clastic sedimentology for more than three decades and consists of highly published and cited authors The Chinese edition of this book has been a great success and is popular among sedimentologists and petroleum geologists alike *Paleosols and weathering through geologic time* Juergen Reinhardt, Wayne R. Sigleo, 1988 Geological Survey of Canada, Open File 3119, *Geo-log (Geological Association of Canada)*, 1993 **Petroleum Sedimentology** Winfried Zimmerle, H. Zimmerle, 1995-04-30 Knowledge of the principles and methods of petroleum sedimentology is essential for oil and gas exploration and exploitation This book is designed as an introductory text for students in petroleum geology and applied

sedimentology as well as a useful companion for advanced technicians explorationists geophysicists and petroleum engineers Source rock lithology and type of trap define the quality of a hydrocarbon accumulation This interrelationship is exemplified by seven case histories worldwide NW Europe Saudi Arabia U S A Mexico CIS China Moreover successful exploitation and enhanced oil recovery often depend on an adequate knowledge of the sedimentology of a reservoir Photographs illustrate macroscopic and microscopic aspects of source rocks as well as reservoir sandstones and limestones that are most important for hydrocarbon exploration A comprehensive list of references encourages further study

Depositional Environments for Strata of Composite Section of Frontier Formation, Madison Range, Southwestern Montana Russell G.

Tysdal, Geological Survey (U.S.), 1991 **U.S. Geological Survey Bulletin** Carl W. Stover, Craig Nicholson, Linda Busby McCollum, Lucy McCartan, Russell G. Tysdal, David MacArthur Miller, Lindie Brewer, Mark E. Gettings, Robert L. Wesson, 1983 This publication summarizes data for earthquakes that occurred in the 50 states and Puerto Rico during 1985 Descriptions of individual earthquakes include hypocenters magnitudes intensities and damages The report also contains results from regional networks and data recorded by strong motion seismographs
