Facing Facts:

Just the Facts David T.Z. Mindich, 1998-11-01 A superb history of journalism's most respected tenet objectivity and the challenges of achieving it in today's world Christian Science Monitor If American journalism were a religion as it has been called then its supreme deity would be objectivity The high priests of the profession worship the concept while the iconoclasts of advocacy journalism new journalism and cyberjournalism consider objectivity a golden calf Meanwhile a groundswell of tabloids and talk shows and the increasing infringement of market concerns make a renewed discussion of the validity possibility and aim of objectivity a crucial pursuit Despite its position as the orbital sun of journalistic ethics objectivity until now has had no historian David T Z Mindich reaches back to the nineteenth century to recover the lost history and meaning of this central tenet of American journalism His book draws on high profile cases showing the degree to which journalism and its evolving commitment to objectivity altered and in some cases limited the public's understanding of events and issues Mindich devotes each chapter to a particular component of this ethic detachment nonpartisanship the inverted pyramid style facticity and balance Through this combination of history and cultural criticism he provides a profound meditation on the structure promise and limits of objectivity in the age of digital media There is a growing unhappiness about the direction of news coverage Readers and viewers want objectivity back The first step toward doing that is to understand where objective journalism came from in the first place Just the Facts is a good place to begin The Washington Monthly

Moving Images David Buckingham, 1996 Concerns about the effects of television on young children are a recurrent focus of public controversy Yet amid all the anxiety children's voices are rarely heard In this book one of Britain's leading television researchers investigates children's own perspectives on what they find frightening moving and upsetting From Nightmare on Elm Street to My Girl from The Colour Purple to The News at Ten what children find upsetting is often difficult to predict

David Blackburn gives a detailed insight into children's responses to horror films to weepies and soap operas to news and to reality programmes. He looks at how they learn to cope with their feelings about such material and how their parents help or hinder them in doing so. This study offers a new approach to studying the role of television in children's lives and should be of interest to parents and teachers as well as policy makers and educationalists. **Knowledge, Language and Logic A.**

Orenstein, P. Kotatko, 2001-11-30 Quine is one of the twentieth century's most important and influential philosophers. The essays in this collection are by some of the leading figures in their fields and they touch on the most recent turnings in Quine's work. The book also features an essay by Quine himself and his replies to each of the papers. Questions are raised concerning Quine's views on knowledge, observation, holism, truth, naturalized epistemology, about language, meaning, the indeterminacy of translation, conjecture, and about the philosophy of logic, ontology, singular terms, vagueness, identity, and intensional contexts. Given Quine's preeminent position, this book must be of interest to students of philosophy in general, Quine aficionados, and most particularly to those working in the areas of epistemology, ontology, philosophies of language, of logic, and of science. **In Tune with Him Daily**

Inyang Ukot, 2020-07-16 This devotional is the product of a deep-seated desire to place in the hands of readers a unique material that meets the needs of youths, middle-aged, and the elderly. This book meets your needs today; it is entirely practical just as it is entirely scriptural. In terms of arrangement, it starts by reminding the reader of the Lord's Prayer. Unlike most devotionals, it has a table of contents that tells the reader the topics, dates, and pages where the subjects are treated for the entire year; the reader can go to a topic of interest and read it before or after the date. Moreover, there is no assigned year, making it valid any year. You can purchase it on any day of the year, start using it, and get back to that date the following year. Topics are taken from Genesis to Revelation. Bible passages, averagely, stay within fifteen verses with depth of contents, even when just one verse is studied. The icing on the cake consists of four feature articles and ten word search puzzles. The titles of the feature articles include The Youth, The Errors of Rachel, Trust and Challenges, and Fulfilment of The Elderly. They cover interesting areas on youths, women, children, and the elderly, respectively. The ten puzzles are for your exercise. Even readers completely unfamiliar with the Bible are welcome, as this study devotional meets everyone's heartfelt needs. **Memory, Consciousness and Temporality**

Gianfranco Dalla Barba, 2012-12-06 Memory, Consciousness and Temporality presents the argument that current memory theories are undermined by two false assumptions: the memory trace paradox and the fallacy of the homunculus. In these pages, Gianfranco Dalla Barba introduces a hypothesis, the Memory, Consciousness and Temporality (MCT) hypothesis, on the relationship between memory and consciousness that is not undermined by these assumptions and further demonstrates how MCT can account for a variety of memory disorders and phenomena. With a unique approach intended to conjugate phenomenological analysis and recent neuropsychological data, the author makes an important contribution to our understanding of the central issues in current cognitive science and cognitive neuroscience. *Monthly Catalog of United States Government*
