

A young girl with dark, curly hair is looking directly at the camera with a thoughtful expression. She is wearing a light-colored, possibly white, shirt. The background is slightly blurred, showing what appears to be a bookshelf or a similar indoor setting. The entire image is framed by a thick red border.

Fair Shares For God:

Fair Shares for God L. S. W. Weller, 1978-03 **The Lockean Theory of Rights** A. John Simmons, 2020-11-10 John Locke's political theory has been the subject of many detailed treatments by philosophers and political scientists But *The Lockean Theory of Rights* is the first systematic full length study of Locke's theory of rights and of its potential for making genuine contributions to contemporary debates about rights and their place in political philosophy Given that the rights of persons are the central moral concept at work in Locke's and Lockean political philosophy such a study is long overdue

Secularism and the Pursuit of Transcendence, Volume I Stanley E. Porter, Wendy J. Porter, 2025-02-20 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent's pursuit of us God's Beauty Patrick T. McCormick, 2012 What if we began our study of Christian ethics not with an examination of our moral duties but with an exploration of the call of beauty For like justice beauty generates a call to a larger more generous self In *God's Beauty* Patrick McCormick asks How does the beauty of the righteous community manifest the glory of God How can we imitate and improve this beauty by reforming our own societies What fundamental need and right do all of us especially the poor have to experience and create beauty in our lives and communities Why is it also essential to our own humanity that we recognize and treasure the beauty of the stranger alien and foe and resist every effort to render these unrecognized neighbors ugly McCormick offers a fresh positive approach to moral arguments calling us to work for social justice Instead of laying out the evils of failing to work for justice protect human rights overcome alienation and hostility or tend to the earth *God's Beauty* focuses on the calling of divine beauty summoning us to be tenders and creators of beauty **Worship and Festivals** Gwyneth Windsor, 1990 One of a series for lower secondary pupils which aims to provide a foundation for GCSE and Standard Grade work It uses an active learning approach to help students to develop an understanding of all aspects of the Christian faith This book covers worship and the Christian festivals **The Word for All God's Family** Leslie J. Francis, Marian Carter, 1996 A World United or a World Exploited?

Peter Price,2014-09-01 The processes of globalisation are reshaping our world dramatically and rapidly The great issues of our day emphasise that we are all in this together startling inequalities pressures on the environment continuing hunger and poverty climate change economic integration mass migrations instant communications and recurring armed conflicts

Using God's Resources Wisely Walter Brueggemann,1993-08-01 New and different readings of biblical texts are one consequence of a growing awareness of the environmental crisis and how it relates to social relations especially in urban settings Walter Brueggemann explores readings from Isaiah and how they relate to the environment and urban crisis He approaches the readings as an artistic theological history of the city of Jerusalem a case study of urban environmental crisis that resulted from a lost sense of covenantal neighborliness Reflecting on Jerusalem its failure demise and prospect Brueggemann uncovers some alarming parallels in today s urban cities and offers a demanding but hopeful challenge to faith

Coopers International Journal ,1916 Vols 27 no 5 May 1918 include a section in German the section from Feb 1903 May 1918 has title Die Internationale K fer Zeitung **Only God Will Save Us** Simon Cuff,2020-04-30 God s being gives meaning to God s action So said Gustavo Guti rrez If we grasp what it means to say that God is just we learn what justice really looks like If we understand how divine anger works we understand how we can be fruitfully angry Understanding who God is is not an ivory tower activity but one which helps us to better grasp of both Christian worship and Christian action An accessible introduction to the doctrine of God Only God Will Save Us demonstrates for students ordinands and Christian practitioners how a theological articulation of the nature of God can drive and refine Christian action in the world *Word for All God's Family* Leslie J. Francis,Diane Drayson,1997-09 Money Talks Albert Franklin McGarrah,1922 Economics and God'S Truth Are Not Rocket Science Jim Fulkrod,2016-05-05 This book was written to help people understand that economics is a behavioral science and there are reasons for some economic policy working and other failing The book is not meant to be a text book but only give the reader what they need to ask the questions they need to find the answers they need to be a more informed voter These questions are how will people acting in their own best interest respond and how is force being used We often try to make thing more complicated then they need to be With any behavioral science it is simply people acting in their own best interest or the rational man concept that we need to focus on Many things may sound good but will they work *True Leaders... Are God's Representative on Earth for Good Works* Dennis Ufot Ph. D,2022-02-17 Leaders lead people administer and manage resources to their benefits but are not to lord over them Men are ordained to lead their families from creation Leaders are responsible and accountable as God s representatives for good works in families organizations and nations Dr Ufot examines the qualities of true leaders He explains that circumstantial dynamics in leadership requires adaptability in type style and form for sustainability This implies that true leaders must go through a process of making apprenticeship and training to qualify to lead This is how they learn to fight solve problems and succeed True leaders are predestined called ordained equipped and empowered to lead and fulfill their calling Leading however is not

a time to experiment but to execute a God given vision God's grace is sufficient in wisdom knowledge and understanding to apply leadership tools in all situations All you have to do is look to the Bible and study leaders that succeeded or failed and why This book reveals the why who and how of true leadership and the skills to make leaders to triumph It is a must read to those seeking to allow God to lead through them **God'S Plan for Abundant Living** David R. Finch,2015-07-31 This book is a presentation of five fundamental and biblical based principles by which God would have us live our lives They are not original to me only discovered by me They came out of a nine hour seminar that had been developed in the 1980s It is organized by each individual principle along with several chapters which illustrate how these principles can be applied to our financial circumstances To illustrate these principles they are likened to the building of a house Each principle represents a step in the process of building a house At the end of each principle as well as each chapter there is a personal application which I hope will help people apply that principle chapter to their personal lives The book is organized from start to finish on the concept that we are human beings created by a God who have given us a plan by which to live our lives a plan that goes beyond the materialistic focus of most people in the world today It is a book for persons who are willing to discover how God can direct their financial lives to be fulfilled according to His plan which in turn will provide them with a level of fulfillment that can only be found by following His plan **Ancient Wine, New Wineskins** Jon L. Berquist,2006-03-15 This trailblazing volume juxtaposes traditions of faith from the Old Testament with themes of communion in the early church to produce rich new understandings of the Eucharist for today's worshipers In a vivid and inviting style Jon Berquist moves from the elements of the meal to the people who partake to the God who invites producing fresh perspectives all along the way Clergy and laity alike can enlarge their interpretation of communion by including motifs from the Old Testament **The Debunker** Ted Lenney,2013-08-09 Many of the modern theories are viewed as facts when in actuality they are just educated guesses from times more technologically challenged People assume that the theories are a given and should be accepted by all Its considered politically unacceptable to disagree with their assumptions when in actuality its unhealthy to always agree and become close minded In the book The Debunker I use logic to disprove several popular theories Sometimes do to modern day prejudices my views may seem controversial at first but with careful consideration you will see that it is really the politically correct stance that is controversial The Theories of Einstein and Darwin along with ones in the fields of geology psychology anthropology and theology along with several other theories many that are not considered controversial and are considered to be facts are debunked with basic logic I have also included witty phrases and sensible advice on how to live a good life Its just a little book that I wrote to help people live more heavenly enlightened lives I hope you enjoy it and prosper from it too
