Faith And Public Policy:

Personal Faith, Public Policy Harry R, Jr. Jackson, 2012-10-30 Harry Jackson and Tony Perkins believe that America stands at a crossroads. As a nation we must choose God's blessings or His destruction of our society. The Religious Right as it has been termed often looks to the world as its enemy and many Christians have seen themselves as combatants in war against anti-God forces. In *Personal Faith Public Policy* Jackson and Perkins take a radical new position stating that the Christian church must lead morally and impact the culture with personal spiritual power and unified Christian public policy demonstrating how a unified church can tackle each one of the seven major problems of our culture. Achieving victories in each of the seven areas presented will result in vanquishing the big problem facing our country: moral decay. Show Less

Faith and Public Policy James R. Wilburn, 2002-01-01 *Faith and Public Policy* turns the spotlight on the role of faith in the public square and the spiritual consequences of public policymaking. The work brings together fourteen of America's most respected writers on the intersection of faith and public policy to discuss the changing roles of government, church, education, and the family. Chapters investigate such issues as inner city programs, the secularization of faith-based programs, the impact of tax policy on the family, and the status of school vouchers. Contributions by Steve Forbes and William E. Simon illustrate the deep personal faith that informs and fuels the public leadership of America's leading thinkers and political figures. Readers will find *Faith and Public Policy* a timely and vigorous conversation on the commingling of government and religion in America, a country eager to return to the Founding Generation's idea of a nation in covenant with God. **Faith,**

Social Justice, and Public Policy Gary Maring, 2012-06-01 Gary Maring, a progressive person of faith, discusses key social justice policy issues of the day such as economic inequality, poverty, homelessness, human rights, health care, peacemaking, and environmental stewardship, which need support from the progressive faith, spiritual, and secular communities. He says we need to rediscover a passion and a moral call to action among these communities. Otherwise we let the Religious Right and their political supporters dominate the media and move our country backward on social justice issues. Finally, he says we need a call to compassion and justice, the common tenets of most religious traditions. Mr. Maring brings significant credibility on social justice issues as one of the founders of N Street Village, a comprehensive transition home for homeless women now serving more than 60 percent of the population of homeless women in D.C. As a founder and a current Board member of N Street Village, Gary Maring shares the experience of seeking biblical justice in an urban congregation's challenged community. Opening the doors to the homeless by his DC church, Luther Place, came to be seen by many as the essence of faith-based response to the critical needs of the community. The diverse interreligious and secular base of supporters continues to this day, helping to live out the concepts of hospitality and shalom, peace with justice, in service at N Street Village. Mr. Maring makes the important observation that churches are the largest beneficiary of charitable giving and they have tremendous property and other financial resources which can be pooled with government and private resources to

create community social justice programs on a significant scale as was done with N Street Village a 20 million public private partnership development Mr Maring also offers an extensive bibliography of progressive theologians and shares their insight regarding the biblical call for social justice the transformation occurring in institutional religion and the role of faith in public policy

Law, Religion, and Public Policy Julia K. Stronks, 2002-08-20 Differing definitions of religion are fundamental determinant of the debate over religious freedom in the United States argues Stronks political science Whitworth College Looking at 200 years of judicial interpretation she discusses how judges have defined religion in relation to the provisions of the First Amendment of the Constitution She then turns to the effect the differing definitions have on judicial rulings about the policy areas of religion in public schools regulation of employment decisions by religious institutions and public aid to private institutions such as President Bush's faith based initiative She argues that confusion over the parameters of religious freedom stem from the failure of theorists to carefully define the nature of religion Annotation copyrighted by Book News Inc Portland OR

The Role of Religion in Public Policy Eamon Doyle, 2018-12-15 One of the fundamental rights granted in the United States is religious freedom but does this mean that religion should be entirely removed from politics or that all religious voices should be considered equally The separation of church and state was established in the Constitution but the fact that as of 2015 84 percent of Americans hold some sort of religious belief means that this is easier said than done Religious morality frequently colors debates surrounding various policy issues ranging from reproductive
