**Gallic Salt** Robert Ligon Harrison, 1974 Bodytalk E. Jane Burns, 1993-03 In Bodytalk E Jane Burns contends that female protagonists in medieval texts authored by men can be heard to talk back against the stereotyped and codified roles that their fictive anatomy is designed to convey

*The Comic Text* Brian J. Levy, 2021-11-01 This book offers a close analysis of the Old French fabliaux that medieval corpus of short comic tales in narrative verse celebrated sometimes notorious for their irreverence and sexual content It picks out certain key images such as gambling illness and damnation which develop into themes and motifs running through all the texts and which add layers

of ironic patterning to the essential subject matter and narrative of each fabliau. These elements in many respects the small print of the joke furnish the comic text with many rhythms and echoes all contributing to the ludic adversarial nature of the text. They are extremely flexible serving as a rhetoric of depiction that extends from broad comic motif to the lightest triggering of a mocking smile. This volume will be of interest to all students of medieval culture. Old French literature and the development of the short or comic narrative. A New History of French Literature Denis Hollier, 1998-08-19. This splendid introduction to French literature from 842 A.D. to the present decade is the most imaginative single volume guide to the French literary tradition available in English. *Chaucer's Fabliaux as Analogues* Erik Hertog, 1991. The presence of so many fabliaux in Chaucer's *Canterbury Tales* is intriguing in its own right given the fact that there are no real fabliaux in Middle English before Chaucer. But these stories are also interesting as instances of a concept and practice that has received little critical attention so far, namely analogy: the writing and above all recognition of similar stories. How to account for the literary practice that enables us to perceive stories as similar or analogous. This original study sets out to explore this phenomenon first tentatively via other terms and practices: Translation, Borrowing, Adaptation, Version, and then in the major part of the book in a pragmatic structuralist analysis of four salient components of narrative: Plot, Character, Thematics, and Genre, each illustrated with examples taken from Chaucer's fabliaux and their analogues in various European languages. In each of the four chapters the key issue is Categorisation, and Hertog traces its evolution and usefulness as a concept from Wittgenstein's family resemblances and Zadeh's fuzzy set theory to E. Rosch's Prototype theory. The conclusion draws attention to two aspects which set Chaucer's fabliaux very much apart from the other analogues: their contextuality within the polylogue of the *Canterbury Tales*, and secondly their explicit intertextuality which invites us to look anew at the assumptions of traditional source criticism. The study ends with some theoretical reflections on analogy and an attempt at definition. The book will interest not only Chaucerians and other medievalists but also scholars in literary theory and interpretation. Lu Hsün's Vision of Reality William A. Lyell, William A. Lyell, 1976-01-01. Body and Spirit in the Middle Ages Gaia Gubbini, 2020-08-10. A crucial question throughout the Middle Ages: the relationship between body and spirit cannot be understood without an interdisciplinary approach combining literature, philosophy, and medicine. Gathering contributions by leading international scholars from these disciplines, the collected volume explores themes such as lovesickness, the five senses, the role of memory and passions in order to shed new light on the complex nature of the medieval Self. *Rural Space in the Middle Ages and Early Modern Age* Albrecht Classen, 2012-05-29. Older research on the premodern world limited its focus on the Church, the court, and more recently on urban space. The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches. While previous scholars examined the figure of the peasant in the premodern world, the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with

the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic

**Affections of the Mind** Emma Lipton,2011-08-15 *Affections of the Mind* argues that a politicized negotiation of issues of authority in the institution of marriage can be found in late medieval England where an emergent middle class of society used a sacramental model of marriage to exploit contradictions within medieval theology and social hierarchy Emma Lipton traces the unprecedented popularity of marriage as a literary topic and the tensions between different models of marriage in the literature of the later fourteenth and fifteenth centuries by analyzing such texts as Chaucer's *Franklin's Tale* *The Book of Margery Kempe* and the *N Town* plays *Affections of the Mind* focuses on marriage as a fluid and contested category rather than one with a fixed meaning and argues that the late medieval literature of sacramental marriage subverted aristocratic and clerical traditions of love and marriage in order to promote the values of the lay middle strata of society This book will be of value to a broad range of scholars in medieval studies

**Difference and Identity in Francia and Medieval France** Meredith Cohen,2010 *Difference in medieval France* was not solely a marker for social exclusion provoking feelings of disgust and disaffection but it could also create solidarity and sympathy among groups Contributors to this volume address inclusion and exclusion from a variety of perspectives presenting a fresh intriguing perspective on the notion of belonging in the medieval world

**Ringleaders of Redemption** Kathryn Dickason,2021 In popular thought Christianity is often figured as being opposed to dance Throughout the medieval era the Latin Church denounced and prohibited dancing often aligning it with demonic intervention lust pride and sacrilege However *Ringleaders of Redemption* reveals how the historical sources including biblical commentaries sermons saints' lives ecclesiastical statutes mystical treatises vernacular literature and iconography from France Italy Germany England Spain and beyond tell a different story During the High and Late Middle Ages Western theologians liturgists and mystics not only tolerated dance they transformed it into a dynamic component of religious thought and practice

**Medieval Romance and the Construction of Heterosexuality** L. Sylvester,2007-12-25 This book interrogates our ideas about heterosexuality through examination of medieval romance narratives Familiar configurations of romantic fiction such as male desire overwhelming feminine reluctance and the aloof masculine hero undone by love derive from this period This book tests current theories of language and desire through stylistic analysis examining transitivity choices and speech acts in sexual encounters and conversations in medieval romances In the context of current preoccupations with gender and sexuality and consent in rape cases this study is of interest to scholars investigating

language and sexuality as well as those researching and teaching medieval literature and culture      *Queerly Phrased* Anna Livia, Kira Hall, 1997-11-20 This pioneering collection of previously unpublished articles on lesbian gay bisexual and transgender language combines queer theory and feminist theory with the latest thinking on language and gender The book expands the field well beyond the study of gay slang to consider gay dialects such as Polari in England early modern discourse on gay practices and late twentieth century descriptions of homosexuality These essays examine the conversational patterns of queer speakers in a wide variety of settings from women's friendship groups to university rap groups and electronic mail postings Taking a global rather than regional approach the contributors herein study the language usage of sexually liminal communities in a variety of linguistic and cultural contexts such as lesbian speakers of American Sign Language Japanese gay male couples Hindi speaking hijras eunuchs in North India Hausa speaking yan daudu feminine men in Nigeria and French and Yiddish gay groups The most accessible and diverse collection of its kind *Queerly Phrased* Language Gender and Sexuality sets a new standard in the study of language's impact on the construction of sexuality

Alcohol, Sex and Gender in Late Medieval and Early Modern Europe L. Martin, 2001-01-19 This book examines drinking and attitudes to alcohol consumption in late medieval and early modern England France and Italy especially as they related to sexual and violent behavior and to gender relations According to widespread beliefs the consumption of alcohol led to increased sexual activity among both men and women and it also led to disorderly conduct among women and violent conduct among men Dr Lynn shows how alcohol was a fundamental part of the diets of most people including women resulting in daily drinking of large amounts of ale beer or wine This study offers an intimate insight into both the altered states induced by alcohol and by opposition into normal relations in family community and society      *A Cultural History of Comedy in the Middle Ages* Martha Bayless, 2021-12-30 Comedy and humor flourished in manifold forms in the Middle Ages This volume covering the period from 1000 to 1400 CE examines the themes practice and effects of medieval comedy from the caustic morality of principled satire to the exuberant improprieties of many wildly popular tales of sex and trickery The analysis includes the most influential authors of the age such as Chaucer Boccaccio Juan Ruiz and Hrothswitha of Gandersheim as well as lesser known works and genres such as songs of insult nonsense texts satirical church paintings topical jokes and obscene pilgrim badges The analysis touches on most of the literatures of medieval Europe including a discussion of the formal attitudes toward humor in Christian Jewish and Islamic traditions The volume demonstrates the many ways in which medieval humor could be playful casual sophisticated important subversive and even dangerous Each chapter takes a different theme as its focus from theory praxis identities the body politics and power laughter and ethics

The Profession of Widowhood Katherine Clark Walter, 2018-09-21 The Profession of Widowhood explores how the idea of true widowhood was central to pre modern ideas concerning marriage and of female identity more generally The medieval figure of the Christian *vere vidua* or good widow evolved from and reinforced ancient social and religious sensibilities of

chastity loyalty and grief as gendered work The ideal widow was a virtuous woman who mourned her dead husband in chastity solitude and most importantly in perpetuity marking her as a widow indeed 1 Tim 5 5 The widow who failed to display adequate grief fulfilled the stereotype of the merry widow who forgot her departed spouse and abused her sexual and social freedom Stereotypes of widows good and bad served highly charged ideological functions in pre modern culture and have remained durable even in modern times even as Western secular society now focuses more on a woman s recovery from grief and possible re coupling than the expectation that she remain forever widowed The widow represented not only the powerful bond created by love and marriage but also embodied the conventions of grief that ordered the response when those bonds were broken by premature death This notion of the widow as both a passive memorial to her husband and as an active rememberer was rooted in ancient traditions and appropriated by early Christian and medieval authors who used good widowhood to describe the varieties of female celibacy and to define the social and gender order A tradition of widowhood characterized by chastity solitude and permanent bereavement affirmed both the sexual mores and political agenda of the medieval Church Medieval widows both holy women recognized as saints and ordinary women in medieval daily life recognized this tradition of professed chastity in widowhood not only as a valuable strategy for avoiding remarriage and protecting their independence but as a state with inherent dignity that afforded opportunities for spiritual development in this world and eternal merit in the next
