and Young People's Worlds Martin Robb, Heather Montgomery, 2018-07-11 This textbook for advanced and post graduate students sets out the contexts of children's and young people's lives and encourages students to explore their complexities and contexts. This new edition has been substantially updated to discuss and analyse new topics and issues that have emerged over the last ten years including developments in the way that children and young people's lives have been theorised and understood, their engagement in all aspects of contemporary cultures including the spiritual as well as the digital, the impact of recent political, economic and social change. Drawing on insights from psychology, cultural studies, sociology, anthropology, geography and education, each chapter challenges students' assumptions and examines crucial issues in the field such as participation, race, rights, law, transnational childhoods and sexuality. These different perspectives, drawing on different bodies of work, form a holistic picture of the multi-faceted lives of children and young people today. 101 Playground Games Thérèse Hoyle, 2021-06-06 101 Playground Games is a collection of active and engaging school playground games that will encourage active learning and social development among children at playtime. This second edition has been updated to include a wealth of new games from around the world. The school playground plays a crucial role in developing all aspects of children's behaviour and interpersonal learning, and yet there is a growing awareness that children today do not play in the same sociable ways as previous generations. Encouraging children to play games can be hugely beneficial, not only for their physical health but also for their social, emotional and mental health. This brilliant resource includes a practical toolkit of photocopiable and downloadable materials along with clear instructions for adults on how to organise a range of different types of games including traditional games, chasing and catching games, singing and dancing games, skipping games and rhymes, parachute games, quiet games, co-operative games. Ideal for teachers, lunchtime supervisors, breakfast and after school club leaders as well as group leaders for organisations such as scouts or guides to promote lively and enjoyable games, this book is particularly suited to children aged 5-11 years but can easily be adapted for older children. 101 Playground Games is a book that will make any playtime a richer experience for all. **Young People's Understandings of Men's Violence Against Women** Nancy Lombard, 2016-03-09 Globally, nationally and locally, men's violence against women is an endemic social problem and an enduring human rights issue. Unlike men who are most likely to be victims of stranger assaults, and violence, official data shows that women are most likely to be attacked, beaten, raped and killed by men known to them, either partners or family members. Research has maintained that to challenge and prevent men's violence against women, changing the attitudes and behaviour of young people is essential. This ground-breaking book presents the first investigation into what younger people think about men's violence against women. It does this by locating their constructions and understandings within the temporal and spatial location of childhood. Through challenging the perception that young people are too young to know about violence or to offer opinions on it, Nancy Lombard demonstrates the ways to talk to younger people about men's violence. Through confronting preconceptions of younger people's existing

knowledge capabilities and understanding she demonstrates that this is a subject which young people can confidently discuss
