Thinking Globally Acting Locally Peter Mittler,2010 This unusual book is more than just the memoir of a distinguished career It is a history of the twentieth century reflected in the life and work of one individual It begins in 1938

with a year in the life of an eight year old Viennese Jewish boy as he experiences the worst and best of humanity from Nazi persecution to rescue by strangers through the Kindertransports It tells of his encounters with an English schooling system at its worst and best and of his formative years But this is not a story of one person s liberation That little refugee boy grew up to contribute to the liberation of hundreds of thousands of people world wide Influenced by his own early experiences Peter Mittler has spent a lifetime committed to the human rights of people with intellectual disabilities From their liberation from the big institutions left over from the nineteenth century to their inclusion in shaping the 2008 United Nations Convention on the Rights of Persons with Disabilities it tells the story of a dynamic and powerful human rights movement It is perhaps the last great untold story the story of how persons with intellectual disabilities finally gained the right to respect value and autonomy and of the long struggle for schooling access to work and their own front door key This memoir weaves professional memories and accounts of collaboration across the global village with anecdotes and travellers tales to reflect a global perspective from someone who was there at every twist and turn working with families teachers researchers governments and self advocates for over 60 years to influence legislation and drive lasting reform
