Let's Talk About Death Steve Gordon, Irene Kacandes, 2015-11-10 Experts in end of life care tell us that we should talk about death and dying with relatives and friends but how do we get such conversations off the ground in a society that historically has avoided the topic This book provides one example of such a conversation The coauthors take up challenging questions about pain caregiving grief and what comes after death Their unlikely collaboration is itself connected to death the murders of two of Irene's closest friends and Steve's support in perpetuating memories of those friends' lives and not just their violent ends The authors share the results of a no holds barred discussion they conducted for several years over email Readers can consider a range of views on complicated issues to which there are no right answers Letting ourselves pose certain questions has the potential to profoundly change the way we think about death how we choose to die and just as importantly the way we live Honest probing sensitive and even humorous at times the completely open discussions in this book will help readers deal with a topic that most of us try to avoid but that everyone will face eventually
