Letter Form And The French Enlightenment:

The Letter Form and the French Enlightenment John W. Howland, 1991 One of the most striking developments of the eighteenth century in France is the emergence of the epistolary form as a dominant vehicle for cultural and literary expression Almost any kind of narrative can be found in letter form during the Enlightenment by the century's second half the letter has become an all purpose literary omnibus and serves moreover as the basic structural component of many of the period's most widely read novels This work explores the implications of the letter's popularity in terms of the eighteenth century's intellectual climate and concludes that the epistolary form is particularly well suited to an expression of the Enlightenment's ideological concerns *Approaching Jonathan Edwards* Carol Ball, 2016-03-09 Exploring the inner

motivations of one of America's greatest religious thinkers this book analyses the ways in which Jonathan Edwards intense personal piety and deep experience of divine sovereignty drove an introverted intellectual along a course that would eventually develop into a mature and respected public intellectual Throughout his life the tension between his innately contemplative nature and the active demands of public office was a constant source of internal and public strife for Edwards *Approaching Jonathan Edwards* offers a new theoretical approach to the study of Edwards with an emphasis on his writing activity as the key strategy in shaping his legacy Tracing Edwards strategic self fashioning of his persona through the many conflicts in which he was engaged the critical turning points in his life and his strategies for managing conflicts and crises Carol Ball concludes that Edwards found his place as a superlative contemplative apologist and theorist of experiential spirituality

Romanticism and the Letter Madeleine Callaghan, Anthony Howe, 2020-01-29 Romanticism and the Letter is a collection of essays that explore various aspects of letter writing in the Romantic period of British Literature Although the correspondence of the Romantics constitutes a major literary achievement in its own right it has received relatively little critical attention Essays focus on the letters of major poets including Wordsworth Byron Shelley and Keats novelists and prose writers including Jane Austen Leigh Hunt and Charles Lamb and lesser known writers such as Melesina Trench and Mary Leadbeater Moving from theories of letter writing through the period's diverse epistolary culture to essays on individual writers the collection opens new perspectives for students and scholars of the Romantic period **Approaching**

Jonathan Edwards Dr Carol Ball, 2015-02-28 *Approaching Jonathan Edwards* offers a new theoretical approach to the study of Edwards with an emphasis on his writing activity as the key strategy in shaping his legacy This book analyses the ways in which Jonathan Edwards intense personal piety and deep experience of divine sovereignty drove an introverted intellectual along a course that would eventually develop into a mature and respected public intellectual *Epistolary Fiction in Europe, 1500-1850* Thomas O. Beebe, 1999-03-28 This book explores epistolary fiction as a major phenomenon across Europe from

the Renaissance to the nineteenth century **British and American Letter Manuals, 1680-1810, Volume 1** Eve Tavor Bannet, 2017-09-29 During the 18th century letter manuals became the most popular form of conduct literature They were

marketed to and used by a wide spectrum of society from maidservants and apprentices through military officers and merchants to gentlemen parents and children This work presents the most influential manuals from both sides of the Atlantic

Empire of Letters Eve Tavor Bannet, 2005 Among the most frequently reprinted books of the long eighteenth century English Scottish and American letter manuals spread norms of polite conduct and communication which helped to connect and unify different regions of the British Atlantic world even as they fostered and helped to create very different local and regional cultures and values By teaching secret writing they also enabled transatlantic correspondents to communicate what they needed despite interception censorship and the practice of reading private letters in company Eve Tavor Bannet uncovers what people knew then about letters that we have forgotten and revolutionises our understanding of eighteenth century letters novels periodicals and other kinds of writing in manuscript and print which used the letter form This lively interdisciplinary book will change the way we read and interpret eighteenth century letters and think about the book in the Atlantic world

Edinburgh Companion to Nineteenth-Century American Letters and Letter-Writing Celeste-Marie Bernier, 2016-02-15 Provides a wide ranging entry point and intervention into scholarship on nineteenth century American letter writing This comprehensive study by leading scholars in an important new field the history of letters and letter writing is essential reading for anyone interested in nineteenth century American politics history or literature Because of its mass literacy population mobility and extensive postal system nineteenth century America is a crucial site for the exploration of letters and their meanings whether they be written by presidents and statesmen scientists and philosophers novelists and poets feminists and reformers immigrants Native Americans or African Americans This book breaks new ground by mapping the voluminous correspondence of these figures and other important American writers and thinkers Rather than treating the letter as a spontaneous private document the contributors understand it as a self conscious artefact circulating between friends and strangers and across multiple genres in ways that both make and break social ties Key Features Draws together different emphases on the intellectual literary and social uses of letter writing Provides students and researchers with a means to situate letters in their wider theoretical and historical contexts Methodologically expansive intellectually interrogative chapters based on original research by leading academics Offers new insights into the lives and careers of Louisa May Alcott Charles Brockden Brown Emily Dickinson Frederick Douglass Margaret Fuller Henry James Thomas Jefferson Abraham Lincoln Herman Melville Harriet Beecher Stowe and Edgar Allan Poe among many others

Petitioning in the Atlantic World, c. 1500-1840 Miguel Dantas da Cruz, 2022-10-27 This book deals with one of the most pervasive ways by which people have addressed authority throughout history petitioning The book explores traditional practices and institutions as well as the transformation of petitions as vehicles of popular politics The ability or the right to petition was also a crucial element for the development and operation of early modern empires playing a major role on the negotiated patterns of the Atlantic World This book shows how petitions were used in Europe America and Africa by the governors and

the governed by the rich and the poor by the colonists and the colonised and by the liberal and the reactionary groups Broken down into three thematic parts encompassing both in chronological and geographical scope the book deepens our understanding of petitioning and its relation with ideas of consent and subjecthood nationality and citizenship political participation and democracy This book provides a rare comparative platform for the study of a subject that has been receiving growing interest

Letters, Postcards, Email Esther Milne, 2012-02-27 In this original study Milne moves between close readings of letters postcards and emails and investigations of the material technological infrastructures of these forms to answer the question How does presence function as an aesthetic and rhetorical strategy within networked communication practices As her work reveals the relation between old and new communication systems is more complex than allowed in much contemporary media theory Although the correspondents of letters postcards and emails are not usually present to one another as they write and read their exchanges this does not necessarily inhibit affective communication Indeed this study demonstrates how physical absence may in some instances provide correspondents with intense intimacy and a spiritual almost telepathic sense of the other's presence While corresponding by letter postcard or email readers construe an imaginary incorporeal body for their correspondents that in turn reworks their interlocutor's self presentation In this regard the fantasy of presence reveals a key paradox of cultural communication namely that material signifiers can be used to produce the experience of incorporeal presence

Conjectures of Order Michael O'Brien, 2004-03-01 In this magisterial history of intellectual life Michael O'Brien analyzes the lives and works of antebellum Southern thinkers and reintegrates the South into the larger tradition of American and European intellectual history O'Brien finds that the evolution of Southern intellectual life paralleled and modified developments across the Atlantic by moving from a late Enlightenment

sensibility to Romanticism and lastly to an early form of realism Volume 1 describes the social underpinnings of the Southern intellect by examining patterns of travel and migration the formation of ideas on race gender ethnicity locality and class and the structures of discourse expressed in manuscripts and print culture In Volume 2 O'Brien looks at the genres that became characteristic of Southern thought Throughout he pays careful attention to the many individuals who fashioned the Southern mind including John C Calhoun Louisa McCord James Henley Thornwell and George Fitzhugh Placing the South in the larger tradition of American and European intellectual history while recovering the contributions of numerous influential thinkers and writers O'Brien's masterwork demonstrates the sophistication and complexity of Southern intellectual life before 1860

Matters of Engagement Daniela Hacke, Claudia Jarzebowski, Hannes Ziegler, 2020-11-05 By drawing on a broad range of disciplinary and cross disciplinary expertise this study addresses the history of emotions in relation to cross cultural movement exchange contact and changing connections in the later medieval and early modern periods All essays in this volume focus on the performance and negotiation of identity in situations of cultural contact with particular emphasis on emotional practices They cover a wide range of thematic and disciplinary areas and are organized around the primary sources on which they are based The edited volume brings together two major areas in contemporary humanities the study of how emotions were understood expressed and performed in shaping premodern transcultural relations and the study of premodern cultural movements contacts exchanges and understandings as emotionally charged encounters In discussing these hitherto separated historiographies together this study sheds new light on the role of emotions within Europe and amongst non Europeans and Europeans between 1100 and 1800 The discussion of emotions in a wide range of sources including letters images material culture travel writing and literary accounts makes *Matters of Engagement* an invaluable source for both scholars and students concerned with the history of premodern emotions

Literacy in Everyday Life Jeroen Blaak, 2009-07-31 Until recently historians of reading have concentrated on book ownership and trying to map out a history of who read what The reading experience has been a subject more difficult to research As has been pointed out before egodocuments can be valuable sources in this case Following this lead *Literacy in Everyday Life* focuses upon four early modern Dutch diaries in which readers document their daily life and in which they recount their reading In the analysis other ways in which these four readers communicated are also addressed especially speech and writing This book therefore provides an insight into the possible uses of literacy and the interaction between the printed written and spoken word in the early modern Dutch Republic

Self-presentation and Social Identification Toon van Houdt, 2002

Reading Sidonius' Epistles M. P. Hanaghan, 2019-02-14 Sidonius Apollinaris letters offer a vivid series of glimpses into an otherwise sparsely documented period His rich anecdotes feature the events characters and moments that defined his life ranging from the treason trial of Arvandus to the Visigothic raiding of Clermont from the corrupt and vile Seronatus to the holy widow Eutropia and the day to day incidents that confronted a Gallo Roman poet aristocrat and bishop as the Late Roman West

transitioned into the barbarian successor kingdoms Like any good storyteller Sidonius exploited a wide array of narratological tools manipulating temporality for dramatic effect sketching his heroes and villains in vivid detail and recreating witty dialogue in a collection that is highly organised and carefully strategised This book provides a fuller understanding of his contribution to Latin literature as a careful arranger of his self image a perceptive exploiter of narrative dynamics and an influential figure in Late Antique Gaul

Catherine the Great: Selected Letters Catherine The Great, 2018-07-19 Your Majesty may find it extraordinary that I should answer with a shipment of fruit your letter of 6 August in which you inform me that you are sending the plan for a treaty and that of the 8 September in which you are so good as to share with me equally important intelligence Things big and small often come from the same source my watermelons derive from the same principles as our planned alliance To Frederick the Great Catherine the Great's letters present a vivid picture of Russia in a momentous age They also offer a unique account of her personal development and intimate life her strategic acumen as a diplomat and military commander and her political skills at the Russian court and in handling foreign monarchs Born a German princess Catherine married into the Russian royal family and came to the throne after a coup As absolute ruler for 34 years she presided over the expansion of the Russian empire legislated actively to reform the country in keeping with the principles of the Enlightenment actively promoted the arts and sciences and in her correspondence engaged with the most renowned minds in Europe among them Diderot and Voltaire Her letters are her literary masterpiece written to a wide circle of associates and friends not least her most celebrated lover and ally Potemkin Combining her wit charm and quick eye for detail they entertain and tell the gripping story of a self made woman and legendary ruler This edition of the letters offers a taste of Catherine's entire writing career with biographies of Catherine's addressees a thorough overview of her reign and an analysis of Catherine's literary skill as a letter writer Organized chronologically and thematically into six periods each section also features an introduction to the domestic personal and foreign policy contexts out of which her letters emerge
