

# GRIEF VS. GRIEVING

The natural response to loss

The collection of emotions that come with loss, such as: sorrow, anger, jealousy, nostalgia, or a whole host of other feelings

Can be triggered by death, the end of a relationship, moving far away, a diagnosis, leaving a job, or some other big change

Not something you can cure, but something you can cope with

There is no right or wrong way to feel grief

The process of coming to terms with loss

The process of exploring your feelings and adjusting to life without the person or thing you've lost

There are many ways to grieve. Some examples are: crying in the arms of a loved one, drawing a picture of the person we miss, making a special food, or going for a long walk to think

We might grieve for the rest of our lives as we continue to process our feelings

There is no right or wrong way to grieve

## **Face To Face With Grief:**

**The New Face of Grief** Katie Rössler, 2021-10-05 It's time to change how we understand grief. Grief is not only a reaction to death and loss but also a natural part of life. Once embraced, it can help you transform into a more powerful version of yourself. By leaning in to the transformative process of grief, Katie Rössler normalizes a topic society doesn't discuss enough. One that when ignored can lead to addiction, disconnection from loved ones, and increased stress. Within these pages, Katie provides indispensable tools of support. On your grief journey, learn to turn pain into empowerment. Discover why it's time to upgrade the definition of grief. How to break the old rules of grief and create your own. What the phases of grief can offer you. Ways to heal and to use grief to help you grow. Stories of women from around the world sharing their grief experiences. Mental health issues are on the rise worldwide. Katie's easy-to-follow steps and guidance will help you heal from your past and lead you to live a healthier and happier life. Praise for *The New Face of Grief* *The New Face of Grief* by Katie Rössler arrives at a time when grief is enveloping so many of us in so many different aspects of our lives. Through the relating of her own experiences in life and her work with countless clients, Katie presents an accessible narrative that outlines how we can re-imagine grief as a starting anew. I didn't expect to be pulled in so deeply nor to connect with how unresolved and hidden grief can so powerfully weave their way through our day to day. This book provides a framework to reflect upon those experiences, create space to process, absorb, feel, pull apart, and then put back together the emotions of grief in a growth-focused manner, one that breaks down the unhealthy messages many of us have internalized around this universal aspect of life and provides us with healthy and empowering alternatives. An absolute must share with my clients, my counselor, in training, students, and supervisees, and of course, family and friends. Thank you, Katie, for the powerful and authentic stories, metaphors, and supports shared. Dr. Carrie Lynn Bailey, LPC, NCC, Clinical Mental Health Counseling Faculty, Walden University. In *The New Face of Grief*, we have a fresh look at the often mysterious grief dynamics that are universal to the human experience. Katie Rössler offers us personal anecdotes, nuggets of research, finding, and poignant sharing by other grievers, all woven together with senses of humanity and humor. Drawing from Kubler-Ross's stages of grief (1969), Katie breathes new life and adds depth and modern application, including concrete strategies and exercises. Ultimately, we all grieve. Here, we have illumination for the path. This book offers us hope through normalizing experiences and utilizing them for transformation and growth. Dr. Johnston Brendel, LPC, LMFT, Clinical Associate Professor, The College of William Mary.
