Lewis was also a prolific poet essayist novelist and Christian writer His most famous work The Lion the Witch and the Wardrobe while known as a children's book is often read as a Christian allegory and remains to this day one of his best loved works But Lewis was prolific in a number of areas including poetry Christian writing literary criticism letters memoir autobiography sermons and more This set written by experts guides readers to a better understanding and appreciation of this important and influential writer Clive Staples Lewis was born on November 29 1898 in Belfast Northern Ireland His mother died when he was young leaving his father to

raise him and his older brother Warren. He fought and was wounded in World War I and later became immersed in the spiritual life of Christianity. While he delved into the world of Christian writing, he did not limit himself to one genre and produced a remarkable oeuvre that continues to be widely read, taught, and adored at all levels. As part of the circle known as the Inklings, which consisted of writers and intellectuals and included J. R. R. Tolkien, Charles Williams, and others, he developed and honed his skills and continued to put out extensive writings. Many different groups now claim him as their own, spanning genres from science fiction to Christian literature, from nonfiction to children's stories. His output remains among the most popular and complex. Here, experts in the field of Lewis studies examine all his works along with the details of his life and the culture in which he lived to give readers the fullest, complete picture of the man, the writer, and the husband alongside his works, his legacy, and his place in English letters.

The Face on Film Noa Steimatsky, 2017-01-03 The human face was said to be rediscovered with the advent of motion pictures, in which it is often viewed as expressive locus, as figure, and even as essence of the cinema. But how has the modern technological mass circulating art revealed the face in ways that are also distinct from any other medium? How has it altered our perception of this quintessential incarnation of the person? The archaic powers of masks and icons, the fashioning of the individual in the humanist portrait, the modernist anxieties of fragmentation and de-figuration, these are among the cultural precedents informing our experience in the movie theatre. Yet the moving image also offers radical new confrontations with the face: Dreyer's *Passion of Joan of Arc*, Donen's *Funny Face*, Hitchcock's *The Wrong Man*, Bresson's enigmatic *Au hasard*, Balthazar, Antonioni's *Screen Test*, Warhol's filmic portraits of celebrity and anonymity are among the key works explored in this book. In different ways, these intense encounters manifest a desire for transparency and plenitude, but especially in post-classical cinema, they also betray a profound ambiguity that haunts the human countenance as it wavers between image and language, between what we see and what we know. The spectacular impact of the cinematic face is uncannily bound up with an opacity, a reticence. But is it not for this very reason that like faces in the world, it still entralls us?

The Divine Face in Four Writers Maurice Hunt, 2017-06-29 A comparative study that explores the influence of Christian and Classical ideas about the divine face in the writing of four major writers in Western literature.
