

Faces Of Right Wing Extremism

SJ Ball

Faces Of Right Wing Extremism:

Faces of Right Wing Extremism Kathy Marks,1996 Catalogues and portrays the right wing movement as it evolved in the past 25 years Encyclopedia of Right-Wing Extremism in Modern American History Stephen E. Atkins,2011-09-13 This encyclopedia covers American right wing extremist groups and extremism from the 1930s to the present day including neo Nazis the Ku Klux Klan and various anti government organizations Right wing extremism in America has had an established presence from the 1930s through the present day The election of America s first African American president and the resuscitation of big government policymaking have stimulated a reaction from and a reemergence of right wing extremists Neo Nazis racist skinheads and white supremacists Unfortunately it seems Americans are still living in an age of extremism The Encyclopedia of Right Wing Extremism in Modern American History provides useful authoritative information about these groups and their histories covering conservative extremism from the 1930s onward such as white supremacist groups and neo Nazis Christian Identity and other right wing religious movements and anti American government extremists An introductory overview insightful conclusion chapter and useful up to date bibliography are also included **Right-Wing Radicalism Today** Sabine von Mering,Timothy Wyman McCarty,2013-06-19 This book highlights recent developments in the radical right providing comparative analysis of current extremist activity in Eastern and Western Europe and the United States It reveals the growing amount of connections and continuities of rightwing movements and ideologies across national borders Subjects covered include Who joins radical right parties and why Recent developments in parties in Eastern Western Europe The transatlantic cross fertilisation of ideological perspectives How the US extreme right has changed since the emergence of the Tea Party movement This will be essential reading for all students and scholars within an interest in the contemporary radical right and extremism Right-wing Extremism in the Twenty-first Century Peter H. Merkl,Leonard Weinberg,2003 Dialogos encompasses Greek language and literature Greek history and archaeology Greek culture and thought present and past a territory of distinctive richness and unsurpassed influence It seeks to foster critical awareness and informed debate about the ideas events and achievements that make up this territory by redefining their qualities by exploring their interconnections and by reinterpreting their significance within Western culture and beyond **Right Face** Niels Bjerre-Poulsen,2002 Right Face tells the compelling story of how the American conservative movement in the two decades following World War II managed to move from obscurity to the center stage of national politics When Dwight D Eisenhower in 1952 defeated the conservative champion Robert Taft and won the Republican presidential nomination many on the American right felt that they had become homeless within the established party system The brand of liberalism which permeated the nation s intellectual life had also become bipartisan political doctrine The feeling of cultural and political ostracism triggered a quest for an independent conservative network of organizations with the hope of either taking back the Republican Party or creating a viable alternative The first part of Right Face recounts the often bitter struggle to define the

meaning of conservatism in modern America Part two concerns the search for influential national outlets for conservative opinion whereas part three focuses on the movement's actual plunge into electoral politics not least on its well planned takeover of the Republican Party machinery in 1964 and the resulting presidential nomination of Senator Barry Goldwater An epilogue attempts to trace main currents in the evolution of American conservatism since the 1960s as well as to assess the extent to which American conservatives have managed to create the Counter Establishment they set out to create more than half a century ago In a sense the conservatives actually set out on two different quests One was for intellectual respectability The other was for political power As this study reveals the two goals were not always compatible Based on extensive archival sources *Right Face* provides an incisive analysis of the conservative movement and the forces that shaped it With its blending of intellectual and organizational developments it adds an important chapter to the history of American political culture in the 20th century

A Research Agenda for Far-Right Violence and Extremism Rohan Gunaratna, Katalin Pethö-Kiss, 2024-04-12 This prescient Research Agenda offers an in depth understanding of the increasing trend of far right inspired political violence As domestic extremism becomes a critical priority for governments worldwide editors Rohan Gunaratna and Katalin Peth Kiss scrutinize the threat landscape and analyze far right groups in countries of the greatest concern

Blood in the Face (revised new edition) James Ridgeway, 2025-01-14 In 1990 BLOOD IN THE FACE The Ku Klux Klan Aryan Nations Nazi Skinheads and the Rise of a New White Culture was the first book to uncover the contours beliefs leaders and wider influence of the American racist far right movement It told their story from the inside out complete with interviews recruiting pamphlets cartoons rants sermons threats police reports and more The accompanying analysis by veteran investigative reporter James Ridgeway detailed the movement's volatile history and its expansion beginning in the 1980s insisting that the groups making up this fringe culture were too powerful and too much a part of American culture to be ignored or dismissed When the book's prescience about the dangers of the racist far right became manifest in the Oklahoma City bombing of 1995 a second edition of BLOOD IN THE FACE was released with a new introduction charting the rise of the Militia Movement to which Timothy McVeigh and his co conspirators were connected Since then both the book and the documentary film that accompanied its release also titled BLOOD IN THE FACE have earned cult followings In the past 25 years Ridgeway's final warning that the fringe was becoming part of the fabric of American politics and culture have come to chilling fruition in the rise of the Tea Party the racist backlash against the presidency of Barack Obama the resurgence of anti immigrant Nativism the growth of racist far right media and the election of Donald Trump with the thunderous support of white nationalists

The Far-Right in International and European Law Natalie Alkiviadou, 2019-04-18 Since the Second World War the international community has sought to prevent the repetition of destructive far right forces by establishing institutions such as the United Nations and by adopting documents such as the Universal Declaration of Human Rights Jurisprudence and conventions directly prohibit far right speech and expression

Nevertheless recently violent far right entities such as Golden Dawn of Greece have received unprecedented electoral support xenophobic parties have done spectacularly well in elections and countries such as Hungary and Poland are being led by right wing populists who are bringing constitutional upheaval and violating basic elements of doctrines such as the rule of law In light of this current reality this book critically assesses the international and European tools available for States to regulate the far right It conducts the analysis through a militant democracy lens This doctrine has been considered in several arenas as a concept more generally in the sphere of the European Convention on Human Rights in relation to particular freedoms such as that of association and as a tool for challenging the far right movement through the spectrum of political science However this doctrine has not yet been applied within a legal assessment of challenging the far right as a single entity After analysing the aims objectives scope and possibility of shortcomings in international and European law the book looks at what state obligations arise from these laws It then assesses how freedom of opinion and expression freedom of association and freedom of assembly are provided for in international and European law and explores what limitation grounds exist which are directly relevant to the regulation of the far right The issue of the far right is a pressing one on the agenda of politicians academics civil society and other groups in Europe and beyond As such this book will appeal to those with an interest in International European or Human rights Law and political science

A Fortified Far Right? Katalin Petho-Kiss, Rohan Gunaratna, 2024-04-30 Petho Kiss and Gunaratna understand the nature of the threat posed by the far right because of their findings and they propose effective provisions and mechanisms for detecting and countering it The book undertakes a consistent procession and empirical examination of available information to arrive at the recognition that in order to dissolve the complexity of the associated threat we need to scrutinize the functioning of far right threat groups In depth and consistent analysis on their mode of operation and mindset enables us to identify ways to detect and counter their malicious efforts and activities The theoretical framework for the analysis lies upon the concept of wave theory The main question that this book examines is whether far right terrorism constitutes a new wave of global terrorism One question emerges from this statement that requires further elaboration Is far right terrorism a novel wave of terrorism If yes how is it novel and what are the novelties or developments in it This book is for scholars as well as practitioners in the counter terrorism CT and the prevention countering violent extremism PCVE field Through specific case studies students studying CT and or PCVE could gain insight into the operational functionalities of far right threat groups This may help them to get a more accurate understanding of the threat posed by these entities Examining the recruitment funding communication practices and modus operandi of worrisome threat actors equips us to design the most effective countermeasures and identify the hiatuses in applicable legislative regimes

The Many Faces of Populism, 2024-12-02 Today more than ever it is easy to understand how populism has become such a contested word in contemporary politics Despite its relatively short history the term follows a rather volatile trajectory in terms of its historical development and presence as a political practice

When we look at its political and moral impact one can see that despite its often strict national commitments and narratives populism is rather a global political phenomenon As embodiment of anti establishment narratives polarizing attitudes and emancipatory appeal we can follow its occurrence from Central and Eastern Europe Latin America the USA and UK the Middle East all the way to China and India This edited volume helps fill a gap in the existing literature on Critical Theory broadly construed and populism focusing on the multiple dimensions of historical and contemporary contexts for today s rising populist movements and their often but not necessarily hostile relations towards cosmopolitanism globalization environmentalism and general notions of inclusion and justice Contributors are Emilia Barna Ronald Beiner Dustin J Byrd Samir Gandesha Carlos Antonio Giovinazzo J nior Mlado Ivanovic Yonathan Listik Grigoris Markou Jeremiah Morelock Felipe Ziotti Narita gnes Patakfalvi Czirj k Maria Cristina Dancham Sim es and Hassan Zaheer

The Faces of Contemporary Populism in Western Europe and the US Karine Tournier-Sol,Marie Gayte,2021-01-04 This edited book aims to contribute to the political science scholarship on populism by focusing on the contemporary manifestations of populism in light of the current context Populism has gone global with populist parties gaining considerable ground particularly in the last decade populists are now in government in almost every part of the globe In so doing this book not only takes stock of the previous work on populism but also builds upon it to further deepen our understanding of the phenomenon and take research forward The authors explore different facets of the most recent manifestations of populism trying to engage in new avenues as suggested by recent and authoritative academic work The approach is comparative and multi dimensional with a cross regional focus on Western Europe and the USA The 12 contributions gathered in this book address a wide spectrum of aspects many of which are largely understudied

Face of Research on European Social Development Arno Heimgartner,2006

The Prevent Strategy and Right-wing Extremism Craig J.J. McCann,2019-04-05 In 2011 the U K Government reviewed its counter terrorism Prevent Strategy to include all forms of extremism with an emphasis on right wing extremism This book written by the former Head of Strategy and Policy at the Office of the National Coordinator for Prevent provides the most detailed assessment yet of this shift in emphasis It explores how the inclusion of right wing extremism within the counter terrorism Prevent Strategy impacted local responses to the English Defence League This is explored through numerous interviews and several case studies which were carried out by the author while he was serving as a senior police officer within the Counter Terrorism Command of the Metropolitan Police Service The book balances empirical research with practical recommendations for policymakers and practitioners from a unique insider perspective This book will be of appeal to an array of audiences including scholars and students of Terrorism Studies professionals working in the areas of counter terrorism public order policing and the promotion of community cohesion and to those who have an interest in wider non political responses to right wing extremism

The New Face of Terrorism Nadine Gurr,Benjamin Cole,2004-12-17 Anthrax smallpox sarin blister blood and choking agents the list of potential weapons of mass destruction is

enormous and varied It was once thought that technological problems would prevent terrorists developing these weapons whilst moral issues would stop them using them That has now changed The technical and organizational sophistication of the attacks on 11th September 2001 heralds a new era in the age old war against terrorism After these attacks attention focused on the activities and capacities of Islamic extremist groups such as Osama bin Laden s al Qa eda organisation but the reality is that terrorist threats could come from almost any quarter This revised edition is the comprehensive and sobering account of the possibilities technological and political

Right-Wing Extremism in Canada and the United States Barbara Perry, Jeff Gruenewald, Ryan Scrivens, 2022-06-29 This book is the first collection of scholarship featuring both Canadian and American scholarship on the resurgent right wing extremist movement in the two countries It is particularly timely given the recent rise in political populism that has engendered renewed activism from extreme right contingents Trump s right wing populist and white nationalist political campaign has galvanized Canadian and American white supremacist ideologies identities movements and practices Leading Canadian and American scholars are brought together to explore a contemporary array of current dynamics patterns and characteristics associated with the movement in each country Split into four sections it provides an introduction to extremism in the 21st century it examines studying extremism forms of extremist activity and violence and the responses The collection allows comparisons to be drawn out from the distinct treatments of each country It speaks to students as well as scholars in social sciences departments including criminology sociology social justice and terrorism peace and security studies and political violence related programs

Right-Wing Extremism in Canada Barbara Perry, Ryan Scrivens, 2019-08-19 This book comprehensively examines right wing extremism RWE in Canada discussing the lengthy history of violence and distribution ideological bases actions organizational capacity and connectivity of these extremist groups It explores the current landscape the factors that give rise to and minimise these extremist groups strategies for countering these groups and the emergence of the Alt Right It draws on interviews with law enforcement officials community activists and current and former right wing activists to inform and offer practical advice paired with analyses of open source intelligence on the state of the RWE movement in Canada The historical and contemporary contours of right wing extremism in Canada are situated within the social political and cultural landscape that has shaped the movement It will be of particular interest to students and researchers of criminology sociology social justice terrorism and political violence

From Bundesrepublik to Deutschland Michael G. Huelshoff, Andrei S. Markovits, Simon Reich, 1993 Analyzes Germany s new role in world politics

Lone Wolf Terror and the Rise of Leaderless Resistance George Michael, 2012 The most dangerous enemy One person with a grudge and a plan *To Shake Their Guns in the Tyrant's Face* Robert H Churchill, 2011-01-24 After the bombings of Oklahoma City in 1995 most Americans were shocked to discover that tens of thousands of their fellow citizens had banded together in homegrown militias Within the next few years numerous studies and media reports appeared revealing the unseen world of the American

militia movement a loose alliance of groups with widely divergent views Not surprisingly it was the movement's most extreme voices that attracted the lion's share of attention In reality the militia movement was neither as irrational nor as new as it was portrayed in the press Robert Churchill writes What bound the movement together was the shared belief that citizens have a right even a duty to take up arms against wanton exercise of unconstitutional power by the federal government Many were motivated to join the movement by what they saw as a rise in state violence illustrated by the government assaults at Ruby Ridge Idaho in 1992 and Waco Texas in 1993 It was this perception and the determination to deter future state violence Churchill argues that played the greatest role in the growth of the American militia movement Churchill uses three case studies to illustrate the origin of some of the core values of the modern militia movement Fries Rebellion in Pennsylvania at the end of the eighteenth century the Sons of Liberty Conspiracy in Civil War era Indiana and Illinois and the Black Legion in Michigan and Ohio during the Depression Building on extensive interviews with militia members the author places the contemporary militia movement in the context of these earlier insurrectionary movements that animated by a libertarian interpretation of the American Revolution used force to resist the authority of the federal government A historian of early America Robert H Churchill has published numerous articles on American political violence and the right to keep and bear arms He is currently Associate Professor of History at the University of Hartford This book is about how we think about the past how cultural memories are formed and evolve and how these memories then come to impact current understandings of issues Churchill provides an enlightening analysis of the ideology structure and purpose of the militia movement Where much scholarship has categorized it as a cohesive single movement Churchill begins the process of unraveling its complexity Steve Chermak Michigan State University To Shake Their Guns in the Tyrant's Face addresses an area the relationship of American political violence to American ideology that is of growing importance and that is commanding an ever increasing audience and it does so in a way like nothing else in the field David Williams Indiana University Bloomington

The Radical Right During Crisis Eviane Leidig, 2021-09-21 While the COVID 19 pandemic overshadowed all else and would quickly have a lasting impact on our daily lives other events related to the radical right in 2020 soon surfaced From terrorist attacks in Germany and India to anti mask protests across the U S and Europe radical right violence escalated in the midst of circulating conspiracy theories and disinformation The yearbook draws upon insightful analyses from an international network of scholars policymakers and practitioners who explore the dynamics and impact of the radical right It explores a wide range of topics including reflections on authoritarianism and fascism the role of ideology and counter intellectuals and radical right responses to the pandemic and calls for police reform in the height of the Black Lives Matter protests It ends with important assessments on best approaches towards countering the radical right both online and offline This timely overview provides a broad examination of the global radical right in 2020 which will be useful for scholars students policymakers journalists and the public
