Facets Of Hellenic Life:

Facets of Hellenic Life John Scarborough,1976 Technical report United States. Department of Health, Education, and Welfare. Commission on the Control of Huntington's Disease and its Consequences,1977 *The Virgin Goddess* Stephen Benko,2004 The contemporary search for the feminine face of God requires a re examination of the relationship of Christianity to the pagan world in which it was born This study inquires into extra biblical sources of Marian piety belief and doctrine This publication has also been published in hardback please click here for details **Jefferson's Secrets** Andrew Burstein,2006-03-21 Thomas Jefferson died on July 4 1826 leaving behind a series of mysteries that captured the imaginations of historical investigators an interest rekindled by the recent revelation that he fathered a child by Sally Hemmings a woman he legally owned yet there is still surprisingly little known about him as a man In Jefferson s Secrets Andrew Burstein focuses on Jefferson s last days to create an emotionally powerful portrait of the uncensored private citizen who was also a giant of a man Drawing on sources previous biographers have glossed over or missed entirely Burstein uncovers first and foremost how Jefferson confronted his own mortality and in doing so he reveals how he viewed his sexual choices Delving into Jefferson s soul Burstein lays bare the president s thoughts about his own legacy his predictions for American democracy and his feelings regarding women and religion The result is a moving and surprising work of history that sets a new standard post DNA for the next generation s reassessment of the most evocative and provocative of this country s founders **History, Culture, and Religion of the Hellenistic Age** Helmut Koester,2020-05-18 No detailed description available for History Culture and Religion of the Hellenistic Age **Humanities** National Endowment for the Humanities,1973 **Humanities** ,1970 **Magika Hiera** Christopher A. Faraone,Dirk Obbink,1997-02-13 This collection challenges the tendency among scholars of ancient Greece to see magical and religious ritual as mutually exclusive and to ignore magical practices in Greek religion The contributors survey specific bodies of archaeological epigraphical and papyrological evidence for magical practices in the Greek world and in each case determine whether the traditional dichotomy between magic and religion helps in any way to conceptualize the objective features of the evidence examined Contributors include Christopher A Faraone J H M Strubbe H S Versnel Roy Kotansky John Scarborough Samuel Eitrem Fritz Graf John J Winkler Hans Dieter Betz and C R Phillips Report United States. Commission for the Control of Huntington's Disease and Its Consequences,1977 **Herbs and Healers from the Ancient Mediterranean through the Medieval West** Anne Van Arsdall,Timothy Graham,2016-04-22 Herbs and Healers from the Ancient Mediterranean through the Medieval West brings together eleven papers by leading scholars in ancient and medieval medicine and pharmacy Fittingly the volume honors Professor John M Riddle one of today s most respected medieval historians whose career has been devoted to decoding the complexities of early medicine and pharmacy Herbs in the title generally connotes drugs in ancient and medieval times the essays here discuss interesting aspects of the challenges scholars face as they translate and interpret

texts in several older languages Some of the healers in the volume are named such as Philotas of Amphissa Gariopontus and Constantine the African many are anonymous and known only from their treatises on drugs and or medicine The volume s scope demonstrates the breadth of current research being undertaken in the field examining both practical medical arts and medical theory from the ancient world into early modern times It also includes a paper about a cutting edge Internet based system for ongoing academic collaboration The essays in this volume reveal insightful research approaches and highlight new discoveries that will be of interest to the international academic community of classicists medievalists and early modernists because of the scarcity of publications objectively evaluating long lived traditions that have their origin in the world of the ancient Mediterranean

Sculptors and Physicians in Fifth-Century Greece Guy P. R. Métraux,1995 Greek sculpture changed radically in the early classical period becoming much more lifelike At the same time physicians such as Hippocrates were developing new ideas about human life and health and philosophers were rethinking their attitudes about nature Sculptors and Physicians in Fifth Century Greece is an investigation of how sculptors physicians and philosophers interacted at a time crucial to the formation of classical art
