Reference Guide to Russian Literature Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public **Literary Exorcisms of Stalinism** Margaret Ziolkowski, 1998 A study of the cultural implications of portraits of Stalin and his era since his death in 1953 This work explores the cultural implications of prominent images in Russian thought and literature devoted to the Stalin era since the dictator's death in 1953 Author of the works discussed include some of the most important Russian writers of the past four decades Solzhenitsyn Vasilii Grossman Vladimir Voinovich Anatolii Rybackov among others **Dostoevskii - Stat'i i Materialy**, 1988 **Mythe et récit poétique**, 1998 **New Directions in Soviet Literature** Sheelagh Duffin Graham, 1992-12-13 This is a selection of papers on Russian literature of the Soviet period presented at the IVth World Congress for Soviet and East European Studies in 1990 The ten articles range from the experimental prose and drama of the 1920s to studies of work by younger writers of the 1980s The articles include analyses of works by individual writers and examinations of general phenomena for example village prose or the way Stalin is presented in literature of the glasnost era **Stalin and Mao** Lucien Bianco, 2018-03-15 China's ascent to the ranks of the world's second largest economic power has given its revolution a better image than that of its Russian counterpart Yet the two have a great deal in common Indeed the Chinese revolution was a carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third world country Yet instead of correcting that model Mao decided to go further and faster in the same direction The aftershock of an earthquake may be weaker but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union It was conceived with an idealistic end but failed to take all the possibilities into account China's development only took off after and thanks to Mao's death once the country turned its back on the revolution Lucien Bianco's original comparative study highlights the similarities the all powerful bureaucracy the over exploitation of the peasantry which triggered two of the worst famines of the 20th century control over writers and artists repression and labor camps The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin and he quotes the observation by a Chinese historian that If at all possible it is best to avoid revolutions altogether **Iurii Dombrovskii** Peter Doyle, 2000 Conscience is the writer's production tool If he has not got that he has not got anything All the artistic fabric crumbles and frays at the first touch Iurii Dombrovskii Iurii Dombrovskii 1909-1978 was a Soviet writer of immense courage and integrity whose life and literary career were repeatedly disrupted by unjust arrests and long periods of imprisonment Born and educated in Moscow he was first detained in 1932 and spent a total of twenty three years in exile in Alma Alata and in Siberian labour camps Even after his rehabilitation in 1956 he was never free from surveillance and harassment by Soviet authorities Only able to publish infrequently he was

forced to eke out a meagre existence yet produced original works of high quality This book is the first full length monograph on Iurii Dombrovskii widely acclaimed in recent years as a writer of major importance and interest following the publication in Russia and the West of his last novel The Faculty of Unnecessary Things The book is based on a thorough study of published materials by and about Dombrovskii and on research into unpublished archive sources to which no previous Western scholar has had access Iurii Dombrovskii Freedom under Totalitarianism provides a detailed overview of the writer and lays the foundations for further research Peter Doyle gives the most substantive account of Dombrovskii s biography yet written along with detailed interpretive studies of his main prose works an assessment of his little known poetry and a comprehensive bibliography The Faculty of Unnecessary Things The book is based on a thorough study of published materials by and about Dombrovskii and on research into unpublished archive sources to which no previous Western scholar has had access Iurii Dombrovskii Freedom under Totalitarianism provides a detailed overview of the writer and lays the foundations for further research Peter Doyle gives the most substantive account of Dombrovskii s biography yet written along with detailed interpretive studies of his main prose works an assessment of his little known poetry and a comprehensive bibliography
