Faithful Dissent:

Faithful Dissent Charles E. Curran, 1986 Curran provides historical record and interpretation of his controversy with the Congregation for the Doctrine of the Faith over the legitimacy of theological and practical dissent from noninfallible hierarchical teachings on a number of issues primarily in sexual ethics Intro **Sensus Fidelium** Daniel J. Finucane, 2016-02-19 Daniel J. Finucane's original work assesses the long history of the understanding and use of the concept of *sensus fidelium* and develops criteria from its history and the teachings of Vatican II to critique the postconciliar use of the concept This is a comprehensive work in both its scope of history and its treatment of contemporary theologies of the concept as well as suggesting a significant role for hermeneutical issues The variety of views on the *sensus fidelium* challenges the traditional understanding of the concept In this study criteria are offered here for reassessing the *sensus fidelium* in the light of Vatican II's teaching and the concept's history Major theological perspectives on this topic since Vatican II are surveyed and explicated Among the theologians and philosophers discussed are Newman Congar Rahner John Coulson Jean Guitton Guenter Biemer Samuel D. Femia John C. Ford Beinert Schmaus Granfield and others *Discipline, Devotion, and Dissent* Graham P. McDonough, Nadeem A. Memon, Avi I. Mintz, 2013-09-03 The education provided by Canada's faith-based schools is a subject of public political and scholarly controversy As the population becomes more religiously diverse the continued establishment and support of faith-based schools has reignited debates about whether they should be funded publicly and to what extent they threaten social cohesion These discussions tend to occur without considering a fundamental question How do faith-based schools envision and enact their educational missions *Discipline Devotion and Dissent* offers responses to that question by examining a selection of Canada's Jewish Catholic and Islamic schools The daily reality of these schools is illuminated through essays that address the aims and practices that characterize these schools how they prepare their students to become citizens of a multicultural Canada and how they respond to dissent in the classroom The essays in this book reveal that Canada's faith-based schools sometimes succeed and sometimes struggle in bridging the demands of the faith and the need to create participating citizens of a multicultural society Discussion surrounding faith-based schools in Canada would be enriched by a better understanding of the aims and practices of these schools and this book provides a gateway to the subject *Defining the Truth About Contraception* Michael C. McGuckian S.J., 2021-03-22 This book proposes to offer a solution to the tension in the Church around the teaching of Pope Paul VI in *Humanae Vitae* that continues to this day The book covers the dissent that began immediately and develops a theology of magisterium that justifies dissent from non-infallible teaching in the Church The book then goes on to examine the encyclical and reaches the conclusion that Pope Paul was correct in his judgment on the substantive issue but that there is a flaw in the reasoning of the encyclical that explains at least in part the ongoing dissent *Dissenting Church* Judith Gruber, Michael Schüssler, Ryszard Bobrowicz, 2024-05-17 This book challenges the prevailing notion of stability cohesiveness and uniformity within Christian

communities inviting readers to view contestation and disagreement as integral to theological reflection and church identity While the volume focuses predominantly on the Roman Catholic Church as a case study various chapters broaden the exploration across other Christian and non Christian traditions Beginning with the philosophical and theological foundations of conflict contestation and community the book subsequently focuses on four main conflict fields liturgy canon law gender and sexuality as well as race and postcolonial critical theory The book finishes with a constructive proposal on how to think theologically about identity and antagonisms as well as how to construct an ecclesiology of dissent Contributors employ diverse methodological perspectives to offer constructive theological reflections enhancing both understanding and practice of theology in the context of polarised public debates This is an open access book **Different Repetitions** Andreas Bandak, Simon Coleman, 2021-03-31 This book takes the concept of repetition beyond older anthropological debates over habit structure or cultural continuity and demonstrates its value in attempts to comprehend the temporal spatial and ideological fields in which contemporary social scientists must operate Repetition has an ambiguous value in human societies It may contribute to desired social and cultural reproduction or equally represent experiences of being trapped in cycles of routine and stasis In this book six anthropologists demonstrate the capacity of repetition to open up fertile areas of comparative ethnographic and historical work Focusing on religious case studies drawn from around the world contributors ask when and how repetition is observed by interlocutors or fieldworkers In the process they explore the ethical political and experiential dimensions of repetition as it operates at numerous scales of activity ranging from intimate ritual to forms of religious dissent to haunting forms of historical recurrence The chapters in this book were originally published as a special issue of *History and Anthropology* , Corrective Vision Richard A. McCormick, 1994 Essays linking Roman Catholic tradition and American cultural moral issues in the last fifty years *Magisterium* Francis A. Sullivan, 2002-09-30 A striking series of events of the past two decades have tended to raise questions about the exercise of teaching authority in the Catholic Church The Second Vatican Council the Encyclical *Humanae Vitae* the controversy over Hans K ng s book on infallibility and the subsequent declaration of Rome that he could no longer teach as a Catholic theologian the colloquium to which Edward Schillebeeckx was summoned by the Vatican the pastoral letter of the American bishops on the question of nuclear warfare have all stimulated a lively discussion of the claims of the Catholic hierarchy to authoritative magisterium With all the abundance of literature on the subject a book was still needed that would offer an up to date systematic presentation of Catholic thinking about the nature and function of this magisterium This is what the present volume sets out to provide It takes as its point of departure the belief which a great many Christians besides Catholics share namely that the Church of Christ is maintained in the truth of the Gospel by the Holy Spirit It then examines the various ministries by which the Gospel has been handed on and interpreted for each generation of believers looking especially to the role of the bishops and among them of the Bishop of Rome in settling disputes about the faith Questions concerning papal infallibility the

response called for by papal encyclicals the critical role of Catholic theologians vis a vis the magisterium are treated in the light of current theological literature with the non specialist reader in mind Social Ethics in the Making Gary

Dorrien,2011-04-06 In the early 1880s proponents of what came to be called the social gospel founded what is now known as social ethics This ambitious and magisterial book describes the tradition of social ethics one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice Charts the story of social ethics the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy church and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self styled public intellectuals through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award *The Textual Culture of English Protestant Dissent 1720-1800* Tessa

Whitehouse,2015-12-17 Religious dissenters and their literary and social heritage are the principal subjects of this book At its heart is a group of English men whose activities were local transcontinental and circum Atlantic Drawing on letters lecture notes manuscript accounts of academies and a range of printed texts and paratexts *The Textual Culture of English Protestant Dissent 1720 1800* explores the connections between dissent education and publishing in the eighteenth century By considering Isaac Watts and Philip Doddridge in relation to their mentors students friends and readers it emphasizes the importance they and their associates attached to personal relationships in their private interactions and in print It argues that this contributed to a distinctive literary style as well as particular modes of textual production for moderate orthodox dissenters which reached beyond their own community to address and influence global discourses about education enlightenment and history The book s focus on textual culture foregrounds relationships between forms as well as considering texts as they existed in one form or another In examining textual culture this book emphasises adaptation transformation fluidity and communality it approaches the human relationships that make texts including friendships reading communities intellectual exchange and business arrangements with as much care as the content of the texts themselves The book demonstrates that models of family and social authorship among Romantic era dissenters advanced by Michelle Levy Daniel White and Felicity James were rooted in the domestic culture at earlier academies and in the example of members of the Watts Doddridge circle *The Coup at Catholic University* Peter M. Mitchell,2015 1968 witnessed perhaps the greatest revolution in the history of the Catholic Church in the United States It was led by Fr Charles Curran professor of Theology at the Catholic University of America in Washington with more than 500 theologians who signed a Statement of Dissent that declared Catholics were not bound in conscience to follow the Church s teaching in the encyclical of Pope Paul VI *Humanae Vitae* that artificial contraception is morally wrong because it is destructive of the good of Christian marriage The battle at

Catholic University centered on the major question in Catholic higher education during the turbulent years after the Second Vatican Council What is the meaning of academic freedom at a Catholic university Curran and the dissenting theologians maintained they needed to be free to teach without constraint by any outside authority including the bishops The bishops maintained that the American tradition of religious freedom guaranteed the right of religiously affiliated schools to require their professors to teach in accord with the authority of their church This clash over the authority of the Magisterium of the Church within its own academic institutions was at the heart of the dramatic clash which unfolded at CUA This book uses never before published material from the personal papers of the key players at CUA to tell the inside story of the dramatic events that unfolded there in the late 1960 s Beginning with the 1967 faculty led strike in support of Curran this book reveals the content of the internal discussions between the key bishops on the CUA Board of Trustees Incorporating personal interviews with Curran the author presents a balanced account of the deep frustration and anger against the institutional authority of the Church which played into the hands of the dissenting theologians This work attempts to disprove both the standard liberal and conservative interpretation of the events of 1968 suggesting that the culture of dissent was a direct fruit of the excessive legalism and authoritarianism which marked the Church in the United States during the years preceding Vatican II Because the polarization in 1968 has continued to define the experience of many American Catholics and has had an ongoing effect on Catholic education this work should be extremely interesting to those who wish to understand the recent past so as to move forward into the 21st century with a greater awareness of the strengths and weaknesses of Catholic education in the United States

Catholicism and Citizenship Massimo Faggioli, 2017-03-29 The beginning of the twenty first century has provided abundant evidence of the necessity to reexamine the relationship between Catholicism and the modern global world This book tries to proceed on this path with a focus on the meaning legacy and reception in today s world of the ecclesiology of Vatican II starting with Gaudium et Spes This council exhorts Christians as citizens of two cities to strive to discharge their earthly duties conscientiously and in response to the Gospel spirit Catholicism and Citizenship is a call for a rediscovery of the moral and political imagination of Vatican II for the Church and the world of our time

Democracy in the Christian Church , 2012-04-12 A survey of historical theological and philosophical arguments for a democratization of the Christian church

Religious Education from a Critical Realist Perspective Johnny C. Go, 2018-12-14 This book examines the possibility and necessity of critical thinking in religious education through the lenses of critical realism and the Christian doctrine of *sensus fidei* sense of faith Drawing on Bhaskar s original critical realism and data from a survey of over a thousand teachers in the Philippines the author argues for a view of critical thinking based on components of disposition and competence As such critical thinking becomes the expression of a commitment to judgemental rationality and in a Christian religious education is guided by the individual s *sensus fidei* A philosophical and theological discussion of the process of coming to know in the religious domain Religious Education from a Critical Realist Perspective

also offers concrete recommendations on how to promote the practice of religious critical thinking in confessional religious education classrooms As such it will appeal to scholars of philosophy theology and pedagogy with interests in religious education and curriculum development Catholic Moral Theology in the United States Charles E. Curran, 2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of *Humanae vitae* Pope Paul VI's encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran's perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States A Progressive Voice in the Catholic Church in the United States Arthur J. McDonald, 2019-10-29 In the summer of 1966 one year after the conclusion of the Second Vatican Council a group of nineteen Roman Catholic priests met clandestinely in a church hall in a suburb of Pittsburgh to discuss forming an independent group of ordained clergy Fearful that meeting publicly might be viewed as a threat to the authority of the local bishop thus potentially risking sanctioning from him they used numbers not names when circulating the minutes of the first two meetings Once the word spread among the local clergy that such a group was meeting and they realized there was widespread interest they went public and invited all of Pittsburgh's Catholic clergy including the bishop to their third meeting They chose a name the Association of Pittsburgh Priests APP and the group was launched Shortly after forming and with interest from among over two hundred clergy APP began advocating for major church renewal and involvement in any number of social justice issues Regarding church renewal they grounded themselves in the documents of Vatican II most especially *Gaudium et Spes* Church in the Modern World and soon lobbied for optional celibacy and married priesthood women's ordination lay empowerment including the promotion of the early church notion of the priesthood and prophethood of all believers To this day APP remains a force for change in the church and in society ever true to its initial intuition to fully implement the renewal of church and society called for by the bishops at Vatican II The Catholic Moral Tradition Today Charles E. Curran, 1999-04-05 The Catholic tradition has always tried to explain its theology in a coherent and systematic way but the great changes and tensions existing within Catholic moral theology today have made it difficult to develop systematic approaches to what was once called fundamental moral theology Now a leading scholar active in this field for forty years offers a synthesis of Catholic moral theology set in the context of the broader Catholic tradition and the significant developments that have occurred since the Second Vatican Council Charles E Curran's

succinct coherent account of his wide ranging work in Catholic moral theology points out agreements disagreements and changes in significant aspects of the Catholic moral tradition His systematic approach explores major topics in a logical development the ecclesiological foundation and stance of moral theology the person as moral subject and agent virtues principles and norms conscience and decision making and the role of the church as a teacher of morality Curran s work condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its rich history Of great interest to theologians for its broad synthetic scope this book is also a thorough introduction to the Catholic moral tradition for students and interested readers including non Catholics

Does God Love the Coronavirus? Stephen Bevens, Clemens Sedmak, 2021-10-14 This book is a correspondence between two theologians and friends during the COVID 19 pandemic in 2020 21 In it the authors reflect on the nature of God the efficacy of prayer the value of experience the nature of theology itself the importance of Christian hope and many other topics The style is familiar and light rich and full of wisdom
