Raymond Strom,2019-02-12 A stunning debut novel set in the late 1990s a powerful depiction of the currency of intolerance and addiction in one small town Kirkus Reviews about an androgynous youth who arrives in Minnesota searching for the mother who abandoned him as a child On a clear morning in the summer of 1997 Shane Stephenson arrives in Holm Minnesota with only a few changes of clothes an old Nintendo and a few dollars to his name Reeling from the death of his father Shane wants to find the mother who abandoned him as an adolescent hoping to reconnect but also to better understand himself Against the backdrop of Minnesota s rugged wilderness and a town littered with shuttered shops graffiti and crumbling infrastructure Holm feels wild and dangerous Holm s residents too are wary of outsiders and Shane s long blonde hair and androgynous looks draw attention from a violent and bigoted contingent in town including the unhinged Sven Svenson He is drawn in by a group of sympathetic friends in their teens and early twenties all similarly lost the reckless charming J and his girlfriend Mary Jenny a brilliant and beautiful artist who dreams of escaping Holm and the mysterious loner Russell to whom Shane against his better judgment feels a strange attraction As Sven s threats of violence escalate Shane is forced to choose between his search for his mother the first true friendships he s ever had and a desire to leave both his past and present behind entirely A cross between two of the greats in those categories *The Outsiders* by S E Hinton and *Jesus Son* by Denis Johnson Star Tribune Minneapolis Raymond Strom s *Northern Lights* presents an unforgettable world and an experience often overlooked with a new kind of hero to admire

**The Foie Gras Wars** Mark Caro,2009-03-10 In announcing that he had stopped serving the fattened livers of force fed ducks and geese at his world renowned restaurant influential chef Charlie Trotter heaved a grenade into a simmering food fight and the Foie Gras Wars erupted He said his morally minded menu revision was meant merely to raise consciousness but what was he thinking when he also suggested to Chicago Tribune reporter Mark Caro that a rival four star chef s liver be eaten as a little treat The reaction to Caro s subsequent front page story was explosive as Trotter s sizable hometown moved to ban the ancient delicacy known as foie gras while an international array of activists farmers chefs and politicians clashed forcefully and sometimes violently over whether fattening birds for the sake of scrumptious livers amounts to ethical agriculture or torture Take a dish with a funny French name add ducks top it all off with celebrity chefs eating each other s livers and that s entertainment Caro writes Yet as absurd as battling over bloated waterfowl organs might seem the controversy struck a serious chord even among those who had never tasted the stuff Reporting from the front lines of this passionate dining debate Caro explores the questions we too often avoid What is an acceptable amount of suffering for an animal that winds up on our plate Is a duck that lives

comfortably for twelve weeks before enduring a few weeks of periodic force feedings worse off than a supermarket broiler chicken that never sees the light of day over its six to seven weeks on earth Why is the animal rights movement picking on such a rarefied dish when so many more chickens pigs and cows are being processed on factory farms Then again how could the treatment of other animals possibly justify the practice of feeding a duck through a metal tube down its throat In his relentless yet good humored pursuit of clarity Caro takes us to the streets where activists use bullhorns spray paint Superglue and or lawsuits as their weapons the government chambers where politicians weigh the ducks interests against their own the restaurants and outlaw dining clubs where haute cuisine preparations coexist with Foie lipops and the U S and French farms whose operators maintain that they are honoring tradition not abusing animals Can foie gras survive after 5 000 years Are we on the verge of a more enlightened era of eating Can both answers be yes Our appetites hang in the balance
