## **Galen On The Properties Of Foodstuffs:**

**Galen: On the Properties of Foodstuffs** Galen, 2003-01-16 This book presents a translation of and detailed commentary on Galen's *De alimentorum facultatibus* his major work on the dynamics and kinetics of various foods It is thus primarily a physiological treatise rather than a *materia medica* or a work on pathology Galen commences with a short section on the epistemology of medicine with a discussion on the attainment through *apodeixis* or demonstration of scientific truth a discussion which reveals the Aristotelian roots of his thinking The text then covers a wide range of foods both common and exotic Some such as cereals legumes dairy products and the grape receive an emphasis that reflects their importance at the time others are treated more cursorily Dr Powell an expert in gastroenterology discusses Galen's terminology and the background to his views on physiology and pathology in his introduction while John Wilkins foreword concentrates on the structural and cultural aspects of the work

**Galen on the Properties of Foodstuffs** Galen, 2003 This work lucidly describes the ways in which foods were thought to affect the body and were in turn affected by it and contains revealing snippets of social comment This book provides a full translation together with the first ever detailed introduction commentary and discussion of terminology

**Taste and the Ancient Senses** Kelli C. Rudolph, 2017-07-31 Olives bread meat and wine it is deceptively easy to evoke ancient Greece and Rome through a few items of food and drink But how were their tastes different from ours How did they understand the sense of taste itself in relation to their own bodies and to other modes of sensory experience This volume the first of its kind to explore the ancient sense of taste draws on the literature philosophy history and archaeology of Greco Roman antiquity to provide answers to these central questions By surveying and probing the literary and material remains from the Archaic period to late antiquity contributors investigate the cultural and intellectual development towards attitudes and theories about taste These specially commissioned chapters also open a window onto ancient thinking about perception and the body Importantly these authors go beyond exploring the functional significance of taste to uncover its value and meaning in the actions thoughts and words of the Greeks and Romans *Taste and the Ancient Senses* presents a full range of interpretative approaches to the gustatory sense and provides an indispensable resource for students and scholars of classical antiquity and sensory studies

**Food and Drink in Antiquity: A Sourcebook** John F. Donahue, 2014-11-20 Amid growing interest in food and drink as an academic discipline in recent years this volume is the first to provide insight into eating and drinking by focusing on what the ancients themselves actually had to say about this important topic A thorough and varied sourcebook it is structured thematically and is a unique asset to any course on food and foodways The chronological scope of the material extends from Greece of the 8th century BCE to the Late Roman Empire of the 4th century CE Each chapter consists of an introduction along with a concluding bibliography of suggested readings The excerpts themselves rendered in clear and readable English that remains faithful to the original Latin or Greek are set in their proper social and historical context with the author of each passage fully identified An unparalleled compilation of essential source material for Classics courses and with a wide range of evidence drawing upon literary inscriptional legal and religious testimony Food and Drink in Antiquity will also be particularly well suited to the interdisciplinary focus of modern food studies

A Cultural History of Medicine in Antiquity Laurence Totelin, 2023-02-09 Patient disease and physician were the three corners of the medical triangle according to one of the texts attributed to Hippocrates a famous ancient Greek doctor This volume covering a period from roughly 800 BCE to 800 CE examines and deconstructs these three aspects of ancient medicine in the Mediterranean world It shows that while physicians sought to assert themselves as experts in the medical art they had to contend with numerous other healers whose methods remedies and tools patients often favoured It explores the ways in which civic entities cities kingdoms and empires and their officials directly and indirectly shaped medical encounters and discoveries It examines the interaction between medicine and the environment non human animals and plants To attempt a cultural history of medicine in antiquity requires bringing together a wealth of sources the texts attributed to Hippocrates Galen and other medical authors are not neglected but they are studied alongside other literary and historical works letters on papyri funerary inscriptions celebrating healers surgical tools and bioarchaeological remains While discussing the enduring cultural impact of classical Greek and Roman medicine in the West through texts such as the Hippocratic Oath or names of diseases and types of medicines this volume reveals the various ways in which health disease and medical treatments were experienced diversely in the ancient world according to gender socio economic class and ethnicity

Food and Foodways of Medieval Cairenes Paulina Lewicka, 2011-08-25 As a corpus based study which aims at profiling the food culture of medieval Cairo the book is an attempt to reconstruct the menu of Cairenes as well as their various daily practices customs and habits related to food and eating

**The Necessity of Nature** Mónica García-Salmones Rovira, 2023-02-23 A study of the natural law ideas of the

seventeenth century Scientific Revolution and their impact on the philosophy of law      The Oxford Handbook of Science and Medicine in the Classical World Paul Keyser, with John Scarborough, 2018-06-26 With a focus on science in the ancient societies of Greece and Rome including glimpses into Egypt Mesopotamia India and China The Oxford Handbook of Science and Medicine in the Classical World offers an in depth synthesis of science and medicine circa 650 BCE to 650 CE The Handbook comprises five sections each with a specific focus on ancient science and medicine The second section covers the early Greek era up through Plato and the mid fourth century bce The third section covers the long Hellenistic era from Aristotle through the end of the Roman Republic acknowledging that the political shift does not mark a sharp intellectual break The fourth section covers the Roman era from the late Republic through the transition to Late Antiquity The final section covers the era of Late Antiquity including the early Byzantine centuries The Handbook provides through each of its approximately four dozen essays a synthesis and synopsis of the concepts and models of the various ancient natural sciences covering the early Greek era through the fall of the Roman Republic including essays that explore topics such as music theory ancient philosophers astrology and alchemy The Oxford Handbook of Science and Medicine in the Classical World guides the reader to further exploration of the concepts and models of the ancient sciences how they evolved and changed over time and how they relate to one another and to their antecedents There are a total of four dozen or so topical essays in the five sections each of which takes as its focus the primary texts explaining what is now known as well as indicating what future generations of scholars may come to know Contributors suggest the ranges of scholarly disagreements and have been free to advocate their own positions Readers are led into further literature both primary and secondary through the comprehensive and extensive bibliographies provided with each chapter      *Ancient Jewish Food in Its Geographical and Cultural Contexts* Susan Weingarten, 2025-03-25 This book is the first in depth study of food in talmudic literature in its geographical and cultural contexts It demonstrates the sharing of foods and foodways between Jews and their non Jewish neighbours in the Near East in Late Antiquity Using both ancient written sources and archaeological evidence this book sets the foods of the Mishnah and Palestinian Talmud in their Graeco Roman context and the foods of the Babylonian Talmud and the ge onim in their Persian and Arab contexts It explores practices of food preparation and their contribution to the ancient diet as well as analysing the relationships between food status and culture The rabbinical authors of talmudic literature were more concerned with everyday food than were aristocratic Classical authors by examining both talmudic sources and archaeological finds this book paints a new picture of the diet lifestyle and culture of ordinary people *Ancient Jewish Food in Its Geographical and Cultural Contexts* will interest Food Historians as well as students and scholars of Jewish Studies particularly the period of the Mishnah and Talmud as well as those dealing with the wider social and cultural history of the Ancient Near East      **Paul and Economics** Thomas R. Blanton IV, Raymond Pickett, 2017-06-15 The social context of Paul's mission and congregations has been the study of intense investigation for decades but only in recent years have questions of

economic realities and the relationship between rich and poor come to the forefront In Paul and Economics leading scholars address a variety of topics in contemporary discussion including an overview of the Roman economy the economic profile of Paul and of his communities and stratification within them architectural considerations regarding where they met food and drink idol meat and the Lord s Supper material conditions of urban poverty patronage slavery travel gender and status the collection for Jerusalem and the role of Marxist theory and the question of political economy in Paul scholarship **Raised on Christian Milk** John David Penniman,2017-01-01 Same essence same food nourishment formation and education in early Christianity The symbolic power of food in the Greco Roman world Mother s milk as ethno religious essence in ancient Judaism Ruminating on Paul s food in the second century Animal vegetable milk Origen s dietary system Gregory of Nyssa at the breast of the bridegroom Milk without growth Augustine and the limits of formation Conclusion **Tome 1: Manuscripts. ›Codices, Texts, Science and Medicine** Steven M. Oberhelman,2025-07-21 This three volume set of essays is dedicated to Alain Touwaide known for his far reaching investigations in fields such as ancient medicine botany pharmacy texts and manuscripts the classical tradition translation the history of science ethnopharmacology and plant therapies The essays penned by 80 international scholars and researchers and written in six languages are grouped into three broad categories Manuscripts Plants and Remedies to reflect Alain s main areas of research Each category is broken into subgroups such as manuscripts texts and science botany gardens materia medica pharmacy drugs archaeology medical traditions and continuity of scientific knowledge in the East and West The papers reach across many fields of scholarship science and medicine and are necessarily and fundamentally trans disciplinary trans chronological and trans geographic These volumes are not so much a Festschrift as an approach to Alain s work through many disciplines and methods a discussion of the current status of each field and an opening into new perspectives *The Path to Salvation in Luke's Gospel* MiJa Wi,2019-05-23 This book investigates Luke s message of salvation in relation to socio economic issues and thus concerns salvation of the rich as well as the poor With a narrative reading of Luke s Gospel built on careful examination of its socio economic context it demonstrates that Luke s message of salvation is best understood as 1 Divine mercy which champions the cause of the poor and redresses the injustice of the world 2 Its human embodiment and 3 Divine reward promised to those who enact mercy Wi argues that Luke s question of what must we do juxtaposes salvation with doing posing interesting questions with respect to the salvation of the rich This volume highlights good news to the poor in terms of divine mercy and justice shows that the reception of divine mercy calls for practices which embody it and above all clarifies Luke s notion of salvation of the rich which will happen as participation in the salvation of the poor Wi s conclusion challenges its readers by asking the question along with Luke s audience What must we do Ancient Botany Gavin Hardy,Laurence Totelin,2015-10-05 Gavin Hardy and Laurence Totelin have brought together their botanical and historical knowledge to produce this unique overview of ancient botany It examines all the founding texts of botanical science such as Theophrastus

Enquiry into Plants Dioscorides Materia Medica Pliny the Elder's Natural History Nicolaus of Damascus On Plants and Galen On Simple Remedies but also includes lesser known texts ranging from the sixth century BCE to the seventh century CE as well as some material evidence The authors adopt a thematic approach rather than a chronological one considering important issues such as the definition of a plant nomenclature classifications physiology the link between plants and their environment and the numerous usages of plants in the ancient world The book also takes care to place ancient botany in its historical social and economic context The authors have explained all technical botanical terms and ancient history notions and as a result this work will appeal to historians of ancient science medicine and technology classicists and botanists interested in the history of their discipline

**Harvesting the Sea** Annalisa Marzano, 2013-08 Marzano explores the exploitation of marine resources in the Roman world and its role within the economy Bringing together literary epigraphic archaeological and legal sources she shows that these marine resources were an important feature of the Roman economy and paralleled phenomena taking place in the Roman agricultural economy on land

**Gluttony and Gratitude** Emily E. Stelzer, 2020-08-04 Despite the persistence and popularity of addressing the theme of eating in Paradise Lost the tradition of Adam and Eve's sin as one of gluttony and the evidence for Milton's adaptation of this tradition has been either unnoticed or suppressed Emily Stelzer provides the first book length work on the philosophical significance of gluttony in this poem arguing that a complex understanding of gluttony and of ideal grateful and gracious eating informs the content of Milton's writing Working with contextual material in the fields of physiology philosophy theology and literature and building on recent scholarship on Milton's experience of and knowledge about matter and the body Stelzer draws connections between Milton's work and both underexamined textual influences including for example Gower's Confessio Amantis and well recognized ones such as Augustine's City of God and Galen's On the Natural Faculties
