The Roots of Hermeneutics in Kant's Reflective-Teleological Judgment Horst Ruthrof,2022-11-28 This book challenges the standard view that modern hermeneutics begins with Friedrich Ast and Friedrich Schleiermacher arguing instead that it is the dialectic of reflective and teleological reason in Kant s Critique of Judgment that provides the actual proto hermeneutic foundation It is revolutionary in doing so by replacing interpretive truth claims by the more appropriate claim of rendering opaque contexts intelligible Taking Gadamer s comprehensive analysis of hermeneutics in Truth and Method 1960 as its point of departure the book turns to Kant s Critiques reviewing his major concepts as a coherent system in relation to his sensus communis At the heart of the book is the interaction between reflective bottom up search and teleological top down interpretative projection as provided in Part II of the third Critique This text contends that Kant s broad definition of nature invites the liberation of the reflective teleological judgment from its biological exemplifications and so permits us to establish its generalised status as a path breaking methodological tool Kant s dialectic of reflective search and meaning bestowing stipulated teleology is asserted to anticipate a series of motifs commonly associated with hermeneutics Figures covered include Dilthey Husserl Ingarden Heidegger Gadamer Apel

Habermas Ricoeur Derrida Foucault Lyotard Deleuze Vattimo Nancy and Caputo Their collective contributions to interpretation allow for a review of the evolution of hermeneutics from the perspective of the Kantian critique of the limitations of human cognition The book is written for the informed general reader but will likewise appeal to advanced undergraduate and graduate students as well as researchers in the humanities and social sciences The Lyotard Reader and Guide Jean-François Lyotard, 2006 The Lyotard Reader and Guide is a one stop companion to Lyotard's thought It covers the full range of his works from his three main books Discours figure Libidinal Economy and The Differend and up to his influential essays in The Inhuman and Postmodern Fables The readings are organized into sections on philosophy politics art and literature Several have never before been translated into English Detailed introductions to each section by two leading Lyotard scholars explain the philosopher's key ideas and provide crucial social political aesthetic and philosophical context As a sourcebook and guide this is the most up to date and comprehensive volume on Lyotard It is indispensable to students and scholars in philosophy literature the arts and politics

Order and Disorder Jonathan Dunsby, 2004 Order and Disorder is the result of the first International Orpheus Academy for Music Theory held in 2003 Its theme was 20th century music and theory especially after the 1950s Five guest lecturers discussed theoretical historical and philosophical aspects of this theme in six articles In Music Analytical Trends of the Twentieth Century Jonathan Dunsby discusses key features in the development of music analysis from prestructuralist to postmodern times Joseph N Straus describes different ways in which intervallic and motivic ideas of the musical surface in atonal music are projected over larger spans Yves Knockaert investigates the controllability of non intention in Cage's work the compositional approach of Morton Feldman's floating thoughts and the raw state of Wolfgang Rihm's music of the 1980s In Nature and the Sublime the Politics of Order and Disorder in Twentieth Century Music Max Paddison exposes a history of the concept of nature in relation to music with some references to literature and the visual arts Konrad Boehmer analyses several aspects of the political economy of music in Music and Politics In Towards a Terza Prattica he focuses on the perspectives of the paradigmatic change which electric music has caused

Kierkegaard, Religion and the Nineteenth-Century Crisis of Culture George Pattison, 2002-07-04 Kierkegaard is often viewed in the history of ideas solely within the academic traditions of philosophy and theology The secondary literature generally ignores the fact that he also took an active role in the public debate about the significance of the modern age that was taking shape in the flourishing feuilleton literature during the period of his authorship Through a series of sharply focussed studies George Pattison contextualises Kierkegaard's religious thought in relation to the debates about religion culture and society carried on in the newspapers and journals read by the whole educated stratum of Danish society Pattison brings Kierkegaard into relation to not only high art and literature but also to the ephemera of his contemporary culture This has important implications for our understanding of Kierkegaard's view of the nature of religious communication in modern society

Karl Rahner's Theological Aesthetics Peter Joseph Fritz, 2014 This innovative book

discloses Karl Rahner's foremost achievement discovering and delineating an ethos of Catholicism a multi faceted and comprehensive approach to life in Christ Karl Rahner's Theological Aesthetics does so by placing the German Jesuit and his teacher philosopher Martin Heidegger into a richly detailed dialogue on aesthetics The book treats classic Rahner topics such as anthropology and Christology But it breaks new ground by exploring themes such as angels Mary and the apocalypse juxtaposed with analogous philosophical topics in Heidegger

Theory Into Poetry Eva Müller-Zettelmann, Margarete Rubik, 2005 At the beginning of the 21st century there is still no generally accepted comprehensive definition of the lyric or differentiated modern toolkit for its analysis The reception of poetry is largely characterised either by an empathetic identification of critics with the lyric persona or by exclusive interest in formal patterning The present volume seeks to remedy this deficit All the contributors theorise the lyric to overcome the impasse of an impressionistic and narrowly formalistic critical debate on the genre Their papers focus on a variety of different questions the problem of establishing a framework for definition and classification the search for dynamic and potent critical approaches investigations of poetry's cultural performance and its fundamental relevance for the construction of group cohesion The essays collected in this volume offer a consciously polyphonic range of theories and interpretations suggesting to the reader a variety of theoretical frameworks and practical illustrations of how a discussion of poetry may be firmly grounded in modern literary theory

The Fiction of Postmodernity Stephen Baker, 2000-06-07 The Fiction of Postmodernity is a significant and accessible study of the relation of postmodern fiction to theories of the postmodern Contemporary works of fiction by novelists such as Don DeLillo Toni Morrison Salman Rushdie Thomas Pynchon and Martin Amis are viewed in relation to critiques of the culture industry analyses of the postmodern condition and theories of simulacra The work of influential theorists of the postmodern such as Theodor Adorno Jean Fran ois Lyotard Fredric Jameson and Jean Baudrillard is explained and compared The book offers descriptions of the postmodern from both the Marxist critical tradition and from the perspective of postmarxism Key features in both these definitions are explained in relation to modernist and postmodern works of fiction Issues relating to the postmodern representation of history and the development of a postmodern politics are also addressed in relation to works of contemporary fiction

Pentecostal Aesthetics Steven Felix, 2015-02-04 Pentecostals have not sufficiently worked out a distinctively Pentecostal philosophy of art and aesthetics In Pentecostal Aesthetics Theological Reflections in a Pentecostal Philosophy of Art and Aesthetics with a foreword by Amos Yong Steven F lix J ger corrects this by reflecting theologically on art and aesthetics from a global Pentecostal perspective particularly through a pneumatic Pentecostal lens F lix J ger contends that a Pentecostal philosophy of art and aesthetics must comply with the global experiential and pneumatocentric nature of the Pentecostal movement Such a philosophy can be ontologically grounded in a relativistic theory of art Theological reflections concerning the nature and purpose of art must then be sensitive to the ontological foundations secured thereof In this fashion Pentecostals can gain ample insight about the Spirit's work in today's

contemporary artworld *Kantianism, Postmodernism and Critical Legal Thought* I. Ward, 2013-04-17 Kantianism Postmodernism and Critical Legal Thought presents a challenging alternative theory of legal philosophy The central thesis of the book suggests an accommodation between three of the most influential contemporary theories of law Kantianism postmodernism and critical legal thought In doing so it further suggests that the often perceived distance between these theories of law disguises a common intellectual foundation This foundation lies in the work of Immanuel Kant Kantianism Postmodernism and Critical Legal Thought presents an intellectual history of critical legal thinking beginning with Kant and then proceeding through philosophers and legal theorists as diverse as Heidegger and Arendt Foucault and Derrida Rorty and Rawls and Unger and Dworkin Ultimately it will be suggested that each of these philosophers is writing within a common intellectual tradition and that by concentrating on the commonality of this tradition contemporary legal theory can better appreciate the reconstructive potential of the critical legal project **Kant on Sublimity and Morality** Joshua W Rayman, 2012-07-15 The sublime is the experience of what is great in power size or number Historically from ancient times to the present this aesthetic experience has always been associated with morality but in order to exclude evil fascistic or terroristic uses of the sublime we require a systematic justification of the claim that there are internal moral constraints on the sublime The author argues that Immanuel Kant alone provides this account binding sublimity to moral ideas the exhibition of freedom the production of respect and violence toward inclinations Kant's Critique of Aesthetic Judgment in the 20th Century Stefano Marino, Pietro Terzi, 2020-11-09 Kant's Critique of Judgment represents one of the most important texts in modern philosophy However while its importance for 19th century philosophy has been widely acknowledged scholars have often overlooked its far reaching influence on 20th century thought This book aims to account for the various interpretations of Kant's notion of aesthetic judgment formulated in the last century The book approaches the subject matter from both a historical and a theoretical point of view and in relation to different cultural contexts also exploring in an unprecedented way its influence on some very up to date philosophical developments and trends It represents the first choral and comprehensive study on this missing piece in the history of modern and contemporary philosophy capable of cutting in a unique way across different traditions movements and geographical areas All main themes of Kant's aesthetics are investigated in this book while at the same time showing how they have been interpreted in very different ways in the 20th century With contributions by Alessandro Bertinetto Patrice Canivez Dario Cecchi Diarmuid Costello Nicola Emery Serena Felio Ginter Figal Tom Huhn Hans Peter Krüger Thomas W Leddy Stefano Marino Claudio Paolucci Anne Sauvagnargues Dennis J Schmidt Arno Schubbach Scott R Stroud Thomas Teufel and Pietro Terzi Organizational Theory and Aesthetic Philosophies Antonio Strati, 2018-12-12 Diverse philosophies constitute the theoretical ground of the study of the aesthetic side of organization In fact there is not a single unique philosophy behind the organizational research of the aesthetic dimension of organizational life Organizational Theory and Aesthetic Philosophies will illustrate and discuss this

complex phenomenon and it will be dedicated to highlight the philosophical basis of the study of aesthetics art and design in organization The book distinguishes three principal philosophical sensibilities amongst these philosophies aesthetic hermeneutic and performative philosophical sensibility Each of them is described and critically assessed through the work of philosophers art theorists sociologists and social scientists who represent its main protagonists In this way the reader will be conducted through the variety of philosophies that constitute a reference for aesthetics and design in organization The architecture of the book is articulated in two parts in order to provide student and scholars in philosophical aesthetics in art in design and in organization studies with an informative and agile instrument for academic research and study

Politics of Catastrophe Claudia Aradau, Rens Van Munster, 2011-05-02 This book argues that catastrophe is a particular way of governing future events such as terrorism climate change or pandemics which we cannot predict but which may strike suddenly without warning and cause irreversible damage At a time where catastrophe increasingly functions as a signifier of our future imaginaries of pending doom have fostered new modes of anticipatory knowledge and redeployed existing ones Although it shares many similarities with crises disasters risks and other disruptive incidents this book claims that catastrophes also bring out the very limits of knowledge and management The politics of catastrophe is turned towards an unknown future which must be imagined and inhabited in order to be made palpable knowable and actionable *Politics of Catastrophe* critically assesses the effects of these new practices of knowing and governing catastrophes to come and challenges the reader to think about the possibility of an alternative politics of catastrophe This book will be of interest to students of critical security studies risk theory political theory and International Relations in general

Deities and Divas Peter A. Jackson, Benjamin Baumann, 2022-01-22 In central Thailand a flamboyantly turbaned gay medium for the Hindu god of the underworld posts Facebook selfies of himself hugging and kissing a young man In Myanmar's largest city Yangon a one time member of a gay NGO dons an elaborate wedding dress to be ritually married to a possessing female spirit he believes she will offer more support for his gay lifestyle than the path of LGBTQ activism The only son of a Chinese trading family in Bangkok finds acceptance for his homosexuality and crossdressing when he becomes the medium for a revered female Chinese deity And in northern Thailand female mediums smoke drink flaunt butch masculine poses and flirt with female followers when they are ritually possessed by male warrior deities Across the Buddhist societies of mainland Southeast Asia local queer cultures are at the center of a recent proliferation of professional spirit mediumship Drawing on detailed ethnographies and extensive comparative research *Deities and Divas* captures this variety and ferment The first book to trace commonalities between queer and religious cultures in Southeast Asia and the West it reveals how modern gay trans and spirit medium communities all emerge from a shared formative matrix of capitalism and new media With insights and analysis that transcend the modern opposition of religion vs secularity it provides fascinating new perspectives in transnational cultural religious and queer studies
