XLIII

How do I love thee? Let me count the ways.  
I love thee to the depth and breadth and height  
My soul can reach, when feeling out of sight  
For the ends of Being and ideal Grace.  
I love thee to the level of everyday's  
Most quiet need, by sun and candle-light.

I love thee freely, as men strive for Right;  
I love thee purely, as they turn from Praise.  
I love thee with the passion put to use  
In my old griefs, and with my childhood's faith.  
I love thee with a love I seemed to lose  
With my lost saints,—I love thee with the breath,  
Smiles, tears, of all my life!—and, if God choose,  
I shall but love thee better after death.

**Let Me Count the Ways** Peter De Vries, 2014-10-21 The sins of the father are hilariously visited on the son in this witty and profound novel about the meaning of it all Stanley Waltz is a Polish American piano mover and pugnacious atheist married to a born again believer His heroes are H L Mencken and Clarence Darrow and if he confuses illusion with allusion and thinks a certain style of egg is bedeviled that does not mean his reasoning is any less sound Unfortunately his wife is immune to his intellect and insists not just on saving his soul but on taking their son Tom to the local gospel mission every chance she gets It is enough to drive a man into the arms of a mistress funny as a crutch and twice as perceptive and that is exactly where Stan goes This leaves Tom twice as mixed up as the average son In the second section of this side splitting and thought provoking comedy he is a professor of English at the local college his questions about faith doubt and morality as unresolved as they are inescapable As an undergraduate he stumbled from girl to girl breaking up with one because she was a nonbeliever another because she was too pious His marriage to a beautiful professor of comparative religion is no solution In short order he has an affair breaks his leg leads a funeral procession hopelessly astray and suffers a nervous breakdown Only a miracle can save him if he can figure out what one might look like Stanley and Tom Waltz are a father son duo unlike any other and Let Me Count the Ways is Peter De Vries at his insightful brilliant lightning witted best

**Poetry Rx** Norman E. Rosenthal M.D., 2021-05-04 I used to believe that poetry did not speak to me but I now see how wrong I was I lived for 44 years with a husband a lyricist whose beautifully crafted heartfelt lyrics touched my every fiber and continue to uplift and inspire me a decade after his death The special beauty of Dr Rosenthal s book for me is his discussion of what each poem is saying what the poet was likely feeling and often how the poems helped him personally as when he left his birth family in South Africa for a rewarding career in the United States Jane Brody Author love that is fulfilling or addictive when to break up and how to survive when someone breaks up with you Separate sections deal with responses to the natural world and the varieties of human experience such as hope reconciliation leaving home faith self actualization trauma anger and the thrill of discovery Other sections involve finding your way in the world and the search for meaning as well as the final stages of life In describing this multitude of human experiences using vignettes from his work and life Rosenthal serves as a comforting guide to these poetic works of genius Through his writing the workings of the mind as depicted by these gifted writers speak to us as intimately as our closest friends Rosenthal also delves into the science of mind and brain Who would have thought for example that listening to poetry can cause people to have goosebumps by activating the reward centers of the brain Yet research shows that to be true And who were these fascinating poets In a short biosketch that accompanies each poem Rosenthal draws connections between the poets and their poems that help us understand the enigmatic minds that gave birth to these masterworks Altogether a fulfilling and intriguing must read for anyone interested in poetry the mind self help and genius

was all but dead Through an analysis of three politically engaged works of art Rosalyn Deutsche argues against this melancholic attitude confirming the power of contemporary art to criticize subjectivity as well as war Deutsche selects three videos centered on the deployment of the atomic bomb Krzysztof Wodiczko's Hiroshima Projection 1999 made after the first Gulf War Silvia Kolbowski's After Hiroshima mon amour 2005 2008 and Leslie Thornton's Let Me Count the Ways 2004 2008 which followed the U S invasion of Iraq Each of these works confronts the ethical task of addressing historical disaster and each explores the intersection of past and present wars These artworks profoundly contribute to the discourse of war resistance illuminating the complex dynamics of viewing and interpretation Deutsche employs feminist and psychoanalytic approaches in her study questioning both the role of totalizing images in the production of warlike subjects and the fantasies that perpetuate especially among the left traditional notions of political dissent She ultimately reveals the passive collusion between leftist critique and dominant discourse in which personal dimensions of war are denied
