**Figuring Korean Futures** Dafna Zur, 2017-10-03 This book is the story of the emergence and development of writing for children in modern Korea Starting in the 1920s a narrator adult voice began to speak directly to a child reader This child audience was perceived as unique because of a new concept the child heart the perception that the child's body and mind were transparent and knowable and that they rested on the threshold of culture This privileged location enabled writers and illustrators educators and psychologists intellectual elite and laypersons to envision the child as a powerful antidote to the present and as an uplifting metaphor of colonial Korea's future Reading children's periodicals against the political educational and psychological discourses of their time Dafna Zur argues that the figure of the child was particularly favorable to the project of modernity and nation building as well as to the colonial and postcolonial projects of socialization and nationalization She demonstrates the ways in which Korean children's literature builds on a trajectory that begins with the child as an organic part of nature and ends in the post colonial era with the child as the primary agent of control of nature Figuring Korean Futures reveals the complex ways in which the figure of the child became a driving force of nostalgia that stood in for future aspirations for the individual family class and nation

**The Politics of Korean Language Textbooks in the Two Koreas** Dong Bae Lee, 2023-12-01 This book investigates the politics embedded in the Korean language textbooks utilised between 1895 and 2019 within the context of one Korea pre colonial and colonial eras the divided Koreas and an ethnic Korean group residing in Japan Chongryon By analysing the inclusions and omissions from Korean language the author successfully highlights the impact of Korean politics making clear how rulers have attempted to

control their citizens and legitimize their rule by using primary school Korean language textbooks as a medium for political education and inculcation. It succinctly displays how different visions of ideal citizenship have been presented in Korea and traces the resulting shift in views towards neighbouring nations as a result, identifying how different rival countries were demonized at different times. This chapter also shows some consistent omissions such as the lower classes and marginalized individuals within their respective nations. Presenting recommendations for potential improvements of the content of future textbooks, this study will be of interest to students of Asian Studies, Post colonial Studies, Critical Curriculum Studies, Critical Discourse Studies and Korean Studies.

The Korean War Cameron Forbes, 2010-11-01. The Korean War was a 20th Century conflict that has never ended. South Korea, a powerhouse economy and dynamic democracy, sits uneasily alongside North Korea, the world's most secretive, belligerent, unpredictable and repressive totalitarian state. Today tensions simmer and occasionally flare into outright violence on a peninsula dense with arms, munitions and nuclear warheads. Cameron Forbes, acclaimed author of *Hellfire*, tells the story of the war and Australia's involvement in it in a riveting narrative. From the letters and diaries of those diggers who fought across Korea's unforgiving hills and mountains to the grand strategies formulated in Washington, Moscow and Beijing, *The Korean War* reveals the conflict on all its levels: human, military and geopolitical.
