Roadtripping USA Let's Go Inc.,2005-04 All one needs is this book a full tank of gas and the open road to take advantage of these classic American cross country journeys distilled into one volume for the first time The book highlights the best experiences along each route while providing maps lodging and food listings and practical tips *Religions in Movement* Robert Hefner,John Hutchinson,Sara Mels,Christiane Timmerman,2013-10-23 There has long been a debate about implications of globalization for the survival of the world of sovereign nation states and the role of nationalism as both an agent of and a response to globalization In contrast until recently there has been much less debate about the fate of religion Globalization has been viewed as part of the rationalization process which has already relegated religion to the dustbin of history just as it threatens the nation as the world moves toward a cosmopolitan ethics and politics The chapters in this book however make the case for the salience and resilience of religion often in conjunction with nationalism in the contemporary world in several ways This book highlights the diverse ways in which religions first and foremost make use of the traditional power and communication channels available to them like strategies of conversion the preservation of traditional value systems and the intertwining of religious and political power Nevertheless challenged by a more culturally and religiously diversified societies and by the growth of new religious sects contemporary religions are also forced to let go of these well known strategies of preservation and formulate new ways of establishing their position in local contexts This collection of essays by established and emerging scholars brings together theory driven and empirically based research and case studies about the global and bottom up strategies of religions and religious traditions in Europe and beyond to rethink their positions in their local communities and in the world Masculinity, Sexuality and Illegal Migration Ali Nabil Ahmad,2016-05-06 *Masculinity Sexuality and Illegal Migration* makes use of extensive new empirical material to explore the phenomena of migration human smuggling and illegal work in order to develop a compelling account of international migration linking it with irrational risky economic behaviour and male sexual desire Interviews conducted with successive waves of Pakistani

immigrants in the UK and Italy together with ethnographic fieldwork amongst local journalists immigration officials and smugglers in Pakistan serve as the basis for an interdisciplinary comparative analysis of illegal migration across time and space Challenging the received idea that labour migration is driven purely by rational economic forces Masculinity Sexuality and Illegal Migration draws upon psychoanalytic social theory to examine the roles of masculinity and irrationality in the decision to migrate thus stimulating a more complex debate about migration s causes and consequences The arguments it makes raise wider questions about the folly of thinking about economic concerns in isolation from other aspects of human experience As such this book will appeal to those with research interests in economics social theory migration gender and sexuality and race and ethnicity

Ethical Sourcing in the Global Food System Stephanie Barrientos,2012-04-27 Ethical sourcing both through fair trade and ethical trade is increasingly entering the mainstream of food retailing Large supermarkets have come under pressure to improve the returns to small producers and conditions of employment within their supply chains But how effective is ethical sourcing Can it genuinely address the problems facing workers and producers in the global food system Is it a new form of northern protectionism or can southern initiatives be developed to create a more sustainable approach to ethical sourcing How can the rights and participation of workers and small producers be enhanced given the power and dominance of large supermarkets within the global food chain What role can civil society and multistakeholder initiatives play in ensuring the effectiveness of ethical sourcing This book brings together a range of academics and practitioners working on issues of ethical sourcing in the global food system It critically explores the opportunities and challenges in the ethical sourcing of food by combining analysis and case studies that examine a range of approaches It explores whether ethical sourcing is a cosmetic northern initiative or can genuinely help to improve the conditions of small producers and workers in the current global food system
