Arreola,1994-02-01 From Matamoros to Tijuana Mexican border cities have long evoked for their neighbors to the north images of cheap tourist playgrounds and more recently industrial satellites of American industry These sensationalized and simplified perceptions fail to convey the complexity and diversity of urban form and function and of cultural personality that characterize these places The Mexican Border Cities draws on extensive field research to examine eighteen settlements along the 2 000 mile border ranging from towns of less than 10 000 people to dynamic metropolises of nearly a million The authors chronicle the cities growth and compare their urban structure analyzing them in terms of tourist districts commercial landscapes residential areas and industrial and transportation quarters Arreola and Curtis contend that despite their proximity to the United States the border cities are fundamentally Mexican places as distinguished by their cultural landscapes including town plan land use pattern and building fabric Their study richly illustrated with over 75 maps and photographs offers a provocative and insightful interpretation of the geographic anatomy and personality of these fascinating and rapidly changing communities      *Let's Go* ,1995      **Sugarcane and Rum** John Robert Gust,Jennifer P. Mathews,2020-04-21 While the Yucatán Peninsula of Mexico may conjure up images of vacation getaways and cocktails by the sea these easy stereotypes hide a story filled with sweat and toil The story of sugarcane and rum production in the Caribbean has been told many times But few know the bittersweet story of sugar and rum in the jungles of the Yucatán Peninsula during the nineteenth century This is much more than a history of coveted commodities The unique story that unfolds in John R Gust and Jennifer P Mathews's new history *Sugarcane and Rum* is told through the lens of Maya laborers who worked under brutal conditions on small haciendas to harvest sugarcane and produce rum Gust and Mathews weave together ethnographic interviews and historical archives with archaeological evidence to bring the daily lives of Maya workers into focus They lived in a cycle of debt forced to buy all of their supplies from the company store and take loans from the hacienda owners And yet they had a certain autonomy because the owners were so dependent on their labor at harvest time We also see how the rise of cantinas and distilled alcohol in the nineteenth century affected traditional Maya culture and that the economies of Cancún and the Mérida area are predicated on the rum influenced local social systems of the past *Sugarcane and Rum* brings this bittersweet story to the present and explains how rum continues to impact the Yucatán and the people who have lived there for millennia      **Serials in the British Library** British Library.
