 Ned Schantz, 2008-09-05 For over two hundred years of narrative culture when female characters try to get together crazy things happen. Indeed, the greater the means at women's disposal, the more severe and twisted is the anxious reaction. Behind this broad anxiety lurks the powerful ideal of sympathetic and strategic female networks, an ideal that takes its intimate shape from the expectations of communications media and that underwrites the very culture that would deny it. Ned Schantz examines novelistic culture from the British novel to Hollywood film as a series of responses to the threat and promise of female networks. Reading texts from *Clarissa*, *Emma*, and *The Portrait of a Lady* to *Sorry Wrong Number*, *Vertigo*, and *You've Got Mail*, Schantz argues that a recurring gothic nightmare haunts plots of courtship, marriage, and female advancement, even as the female networks themselves illuminate the path to clarity. And while this study must of necessity visit an uncanny realm of lost messages and false suitors, telepathy and artificial intelligence, locked rooms, and time-traveling stalkers, these occult concerns only confirm the tangible material power at stake in the most basic modes of female communication: in gossip, letters, and phones.

Vermeer's Family Secrets Benjamin Binstock, 2013-03-07 Johannes Vermeer, one of the greatest Dutch painters and for some the single greatest painter of all, produced a remarkably small corpus of work. In *Vermeer's Family Secrets*, Benjamin Binstock revolutionizes how we think about Vermeer's work and life. Vermeer, *The Sphinx of Delft*, is famously a mystery in art; despite the common claim that little is known of his biography, there is actually an abundance of fascinating information about Vermeer's life that Binstock brings to bear on Vermeer's art. For the first time, he also offers new interpretations of several key documents pertaining to Vermeer that have been misunderstood. Lavishly illustrated with more than 180 black and white images and more than sixty color plates, the book also includes a remarkable color two-page spread that presents the entirety of Vermeer's oeuvre arranged in chronological order in 1:20 scale, demonstrating his gradual formal and conceptual development. No book on Vermeer has ever done this kind of visual comparison of his complete output. Like Poe's purloined letter, Vermeer's secrets are sometimes out in the open where everyone can see them. Benjamin Binstock shows us where to look. Piecing together evidence, the tools of art history, and his own intuitive skills, he gives us for the first time a history of Vermeer's work in light of Vermeer's life. On almost every page of *Vermeer's Family Secrets*, there is a perception or an adjustment that rethinks what we know about Vermeer, his oeuvre, Dutch painting, and Western Art. Perhaps the most arresting revelation of *Vermeer's Family Secrets* is the final one: in response to inconsistencies in technique, materials, and artistic level, Binstock posits that several of the paintings accepted as canonical works by Vermeer are in fact not by Vermeer at all, but by his eldest daughter, Maria. How he argues this is one of the book's many pleasures.

The Life and Letters of St. Teresa Henry James Coleridge, 1893 Body, Self and Melancholy Siglinde Clementi, 2023-09-01 This book addresses early modern concepts of the body and the self, focussing on three self-narratives authored by the nobleman Osvaldo Ercole Trapp, 1634-1710: a body description from head to foot, autobiographical writings

and a brief chronicle of the House of Trapp Caldonazzo Approaching the complex theme of the question of the early modern self and the historical body this book intertwines consistent contextualisation and historicisation of self interpretation and biography This is done in three steps first the content and function of these self narratives are analysed with reference to current research on early modern self narratives In a second step the life and family history of Osvaldo Ercole Trapp are examined from a microhistorical perspective and placed within the context of the early modern history of Tyrol s nobility A third step then goes into detail on individual contexts and discourses that refine one s comprehension of these self narratives noble masculinity family house and line theories of procreation and education body experience and body images It combines textual analysis historical anthropology with a strong gender historical perspective microhistory and the history of the body as a history of experience and discourse With this approach the study makes an innovative contribution to early modern studies on self narratives social history of early modern nobility and the history of the body as the history of experience and discourse This volume will be of interest to students and scholars alike interested in intellectual social and cultural history
