**Realism in the Age of Impressionism** Marnin Young,2015-07-24 The late 1870s and early 1880s were watershed years in the history of French painting As outgoing economic and social structures were being replaced by a capitalist measured time Impressionist artists sought to create works that could be perceived in an instant capturing the sensations of rapidly transforming modern life Yet a generation of artists pushed back against these changes spearheading a short lived revival of the Realist practices that had dominated at mid century and advocating slowness in practice subject matter and beholding In this illuminating book Marnin Young looks closely at five works by Jules Bastien Lepage Gustave Caillebotte Alfred Philippe Roll Jean Fran ois Raffa lli and James Ensor artists who shared a concern with painting and temporality that is all but forgotten today having been eclipsed by the ideals of Impressionism Young s highly original study situates later Realism for the first time within the larger social political and economic framework and argues for its centrality in understanding the development of modern art *Post-Impressionists in England* Barrie

Bullen,2024-03-08 First Published in 1988 Post impressionists in England documents the response of English taste to modern

French art from the first Post Impressionist Exhibition in 1910 to the outbreak of the First World War The notion of Post Impressionism unlike its earlier counterpart Impressionism was an exclusively English contribution to art history Originally used to denote the work of Cezanne Van Gogh Gauguin Matisse and the Fauve painters it rapidly assimilated Futurism Cubism and recent English work like Vorticism By focusing on one aspect of an important and complex period in British cultural history J B Bullen illuminates not only aesthetic questions but also the way in which those aesthetic issues were determined and conditioned by social and political concerns Changes in English attitudes to art in this period were so rapid and were modified with such speed that the author has taken a strictly chronological approach to the subject He sets out clearly the month by month developments in English attitudes and traces in detail the debates about modernism in England To make matters clearer the book is divided into three major parts each complementary to the others The introduction surveys the period as a whole and places attitudes to art in the general context of the culture of the time In the second part the extracts provide selected concrete and particular examples of the huge range of material upon which the findings of the introduction are based the writers represented include Roger Fry Bernard Berenson Desmond McCarthy John Singer Sargent Walter Sickert Clive Bell Virginia Woolf and Wyndham Lewis In the third part a chronology sets out in tabular form month by month events exhibitions and major publications as they occurred in Britain and in France This is a must read for scholars and researchers of British cultural history and art history

**Impressionism and Post-Impressionism** Nathalia Brodskaja, 2018-03-13 Impressionism is the most famous artistic movement But what appears today as a charming and exquisite landscape painting was actually one of the first avant garde movements whose members had decided to fight the values of traditional art The impressionist outdoor paintings shocked the public by the technique used but also by their apparent banality As Monet Sisley Pissarro and many others sought to capture the ephemeral nature of light the next generation would reject naturalism Indeed post impressionists such as Gauguin Van Gogh C zanne and Seurat favored the subjective rather than the objective and the eternal rather than the concrete In doing so they laid the formal foundations of 20th century modern art This book is a visual guide through the crucial moments in the history of art and the progression of the 19th century to modernity

**Neo-Impressionism and Anarchism in Fin-de-Si?e France** Robyn Roslak, 2017-07-05 In Neo Impressionism and Anarchism in Fin de Si e France Robyn Roslak examines for the first time the close relationship between neo impressionist landscapes and cityscapes and the anarchist sympathies of the movement s artists She focuses in particular on paintings produced between 1886 and 1905 by Paul Signac and Maximilien Luce the neo impressionists whose fidelity to anarchism to the art of landscape and to a belief in the social potential of art was strongest Although the neo impressionists are best known for their rational and scientific technique they also heeded the era s call for art surpassing the mundane realities of everyday life By tempering their modern subjects with a decorative style they hoped to lead their viewers toward moral and social improvement Roslak s ground breaking analysis shows how the anarchist theories of Elis Reclus Pierre Kropotkin and Jean Grave both inspired and coincided with these ideals Anarchism attracted the neo impressionists because its standards for social justice were grounded like neo impressionism itself in scientific exactitude and aesthetic idealism Anarchists claimed humanity would reach its highest level of social and moral development only in the presence of a decorative variety of nature and called upon progressive thinkers to help create and maintain such environments The neo impressionists who primarily painted decorative landscapes therefore discovered in anarchism a political theory consistent with their belief that decorative harmony should be the basis for socially responsible art

**Pissarro, Neo-Impressionism, and the Spaces of the Avant-Garde** Martha Ward, 1996-07 Martha Ward tracks the development and reception of neo impressionism revealing how the artists and critics of the French art world of the 1880s and 1890s created painting s first modern vanguard movement Paying particular attention to the participation of Camille Pissarro the only older artist to join the otherwise youthful movement Ward sets the neo impressionists individual achievements in the context of a generational struggle to redefine the purposes of painting She describes the conditions of display distribution and interpretation that the neo impressionists challenged and explains how these artists sought to circulate their own work outside of the prevailing system Paintings Ward argues often anticipate and respond to their own conditions of display and use and in the case of the neo impressionists the artists relations to market forces and exhibition spaces had a decisive impact on their art Ward details the changes in art dealing and chronicles how these and new freedoms for the press made artistic vanguardism possible while at the same time affecting the content of painting She also provides a nuanced account of the neo impressionists engagements with anarchism and traces the gradual undermining of any strong correlation between artistic allegiance and political direction in the art world of the 1890s Throughout there are sensitive discussions of such artists as Georges Seurat and Paul Signac as well as Pissarro Yet the touchstone of the book is Pissarro s intricate relationship to the various factions of the Paris art world

**The Impressionist Murders** William Sargent, 2012-10-22 Two Arab men are found murdered near downtown Houston Texas and detectives Ross Clayton and Leona Stillwell are sent to investigate These arent ordinary murders however the bodies are arranged to mirror a famous Impressionist painting and the exactitude of the killing gives Clayton cause to be concerned He suspects this killer isnt finished His suspicions turn out to be correct as more men end up dead and similarly arranged Every victim is of Arab descent and its hard to deny the killer must have both some kind of racial vendetta and a love for Impressionist art Clayton and his partner have no choice but to seek out an expert Lund Corbel from the Houston Fine Arts Museum He sets them on the right path but their path gets crowded as the serial killer continues the spree Clayton has solved plenty of strange crimes before but hes beginning to feel out of his depth especially following the death of a fellow cop in pursuit of another investigation involving drugs prostitution and murder Soon

two investigations collide and the end wont be as pretty as a painting      **Promenades Of An Impressionist** James Huneker,2025-04-28 Promenades Of An Impressionist captures James Hunekers penetrating observations on the revolutionary art movements of early 20th century Europe Through a series of critical essays Huneker examines the interplay between Impressionist innovations and broader cultural shifts offering readers a front row seat to the Parisian avant gardes emergence The collection dissects luminaries like Manet Degas and Whistler while exploring the philosophical underpinnings of modernism Hunekers prose oscillates between razor sharp analysis and lyrical reverie particularly in passages describing Monets light experiments or Rodins sculptural radicalism Beyond visual arts the work bridges music and literature drawing parallels between Debussys tonal landscapes and Symbolist poetry Its value lies in preserving the zeitgeist of a transformative era when artistic boundaries dissolved making it essential for students of art history and devotees of cultural criticism alike
