Abraham Joshua Heschel said that We are closer to God when we are asking questions than when we have the answers He believed that to be a Christian is not to be a person who knows all the answers but one who lives in the part of the self where the question is constantly being born Most of us don't think very much about our questions In our culture we are accustomed to being able to find out answers to nearly any question just by typing it into Google search or asking Siri But behind any answer there is always a question Sometimes the question isn't clear to us sometimes it is not very well articulated even to ourselves But it is always there In over thirty years as a psychotherapist and spiritual director Peter C Wilcox has seen how the questions people ask themselves have shaped their lives in some very important ways This book is an invitation to see how important it is to learn how to ask the right questions about our lives This is because our choice of questions leads us on a path of discovery towards answers that help us to grow spiritually and psychologically Our questions orient our lives and give direction to us We will see that they enable us to make fifteen choices that have a tremendous impact on the kind of person we become Dancing Mindfulness Jamie Marich, PhD, LPCC-S,2015-12-14 This lively passionate approach to moving meditation offers a fresh way to embrace mindfulness It weaves together personal stories therapeutic insights practical skills and opportunities for reflection and practice to provide a gateway to spiritual growth a path to more balanced living a healing experience and ignition for your creativity *Living Happily Ever After* William Oldfield,2023-04-27 Joseph Campbell's Monomythic Journey is an adventure into the realm of the mind to mitigate the discomfort of an adaptive challenge Psychological barriers must be overcome before creativity can flourish We'll explore the cage of Mythlock that blinds us to new possibilities We'll see how Scapegoatism hijacks the emotional harbingers of the creative process and vents them through anger upon any handy external entity We'll confront the Threshold Guardians of fear that bar the threshold crossing and if confidence is lacking a Magic Amulet can ease the passage Our first trial across the Garden's threshold is the Looking Glass Here we confront the unleashed emotions of guilt regret and anger Our emotions must be groomed because within the Garden of the Goddess the realm of the human mind negative emotions can breed monsters of the mind A negative response can transform the Goddess into a Hag A negative attitude towards our own sensuality can transform the Goddess of promise into a Seducer tempting us into sin and depravity The climax of the Adventure is an encounter with the Goddess in all her splendour Everything becomes clear and an answer is manifest in all its beauty and simplicity But the Goddess always promises more Beyond the Goddess lies the Stairway to the Stars This is Nirvana But the greatest challenge of all is yet to come The exciting and innovative ideas hatched within the realm of the mind are as nothing until they have passed through the Crucible of Reality The real test of our Monomythic Adventure comes with the Return when we take the Boon those powerful insights we discovered within the Garden and put them to actual use in the world of every day **Nama Japa** Sister Vandana,Vandana Mataji,1995-09-01 The author of the book presents us with a study at once practical and theological
