Hunters And Collectors:

Hunters and Collectors Tom Griffiths, 1996-04 Hunters and Collectors is about historical consciousness and environmental sensibilities in European Australia from the mid nineteenth century to the present It is in part a collective biography of amateur antiquarians archaeologists naturalists journalists and historians people who shaped the Australian historical imagination Dr Griffiths illuminates the way these avid collectors and investigators of the Australian land and of its indigenous inhabitants contributed a sense of identity at colony wide and eventually nationwide level He also considers the rise of professional history anthropology and archaeology in the universities which ignored the efforts of the amateurs Griffiths shows how the seemingly trivial activities of these hunters and collectors feed into the political and environmental debates of the 1990s This book is outstanding in its originality interpretative insight and literary flair Everybody's Magazine, 1910 Hunters And Collectors, **Wildlife between Empire and Nation in Twentieth-Century Africa** Jeff Schauer, 2018-12-04 This book traces the emergence of wildlife policy in colonial eastern and central Africa over the course of a century Spanning from imperial conquest through the consolidation of colonial rule the rise of nationalism and the emergence of neocolonial and neoliberal institutions this book shows how these fundamental themes of the twentieth century shaped the relationships between humans and animals in what are today Kenya Tanzania Uganda Zambia and Malawi A set of key themes emerges changing administrative forms militarization nationalism science and a relentlessly broadening constituency for wildlife Jeff Schauer illuminates how each of these developments were contingent upon the colonial experience and how they fashioned a web of structures for understanding and governing wildlife in Africa one which has lasted into the twenty first century **The Emu**, 1913 Law, Culture and Visual Studies Anne Wagner, Richard K. Sherwin, 2013-07-11 The proposed volumes are aimed at a multidisciplinary audience and seek to fill the gap between law semiotics and visuality providing a comprehensive theoretical and analytical overview of legal visual semiotics They seek to promote an interdisciplinary debate from law semiotics and visuality bringing together the cumulative research traditions of these related areas as a prelude to identifying fertile avenues for research going forward Advance Praise for Law Culture and Visual Studies This diverse and exhilarating collection of essays explores the many facets both historical and contemporary of visual culture in the law It opens a window onto the substantive jurisdictional disciplinary and methodological diversity of current research It is a cornucopia of materials that will enliven legal studies for those new to the field as well as for established scholars It is a must read that will leave you wondering about the validity of the long held obsession that reduces the law and legal studies to little more than a preoccupation with the word Leslie J Moran Professor of Law Birkbeck College University of London Law Culture Visual Studies is a treasure trove of insights on the entwined roles of legality and visuality From multiple interdisciplinary perspectives by scholars from around the world these pieces reflect the fullness and complexities of our visual encounters with law and culture From pictures to places to postage stamps from forensics to film

to folklore this anthology is an exciting journey through the fertile field of law and visual culture as well as a testament that the field has come of age Naomi Mezey Professor of Law Georgetown University Law Center Washington D C USA This highly interdisciplinary reference work brings together diverse fields including cultural studies communication theory rhetoric law and film studies legal and social history visual and legal theory in order to document the various historical cultural representational and theoretical links that bind together law and the visual This book offers a breath taking range of resources from both well established and newer scholars who together cover the field of law s representation in interrogation of and dialogue with forms of visual rhetoric practice and discourse Taken together this scholarship presents state of the art research into an important and developing dimension of contemporary legal and cultural inquiry Above all Law Culture and Visual Studies lays the groundwork for rethinking the nature of law in our densely visual culture How are legal meanings produced encoded distributed and decoded What critical and hermeneutic skills new or old familiar or unfamiliar will be needed Topical diverse and enlivening Law Culture and Visual Studies is a vital research tool and an urgent invitation to further critical thinking in the areas so well laid out in this collection Desmond Manderson Future Fellow ANU College of Law Research School of Humanities the Arts Australian National University Australia **Stones** Cally

Murphy,2023-10-12 Cashews from Africa s Gold Coast butterflies from Sierra Leone jalap root from Veracruz shells from Jamaica in the eighteenth century these specimens from faraway corners of the Atlantic were tucked away onboard inhumane British slaving vessels Kathleen S Murphy argues that the era s explosion of new natural knowledge was deeply connected to the circulation of individuals objects and ideas through the networks of the British transatlantic slave trade Plants seeds preserved animals and insects and other specimens were gathered by British slave ship surgeons mariners and traders at slaving factories in West Africa in ports where captive Africans disembarked and near the British South Sea Company s trading factories in Spanish America The specimens were displayed in British museums and herbaria depicted in published natural histories and discussed in the halls of scientific societies Grounded in extensive archival research on both sides of the Atlantic Captivity s Collections mines scientific treatises slaving companies records naturalists correspondence and museum

catalogs to recover in rich detail the scope of the slave trade's collecting operations. The book reveals the scientific and natural historical profit derived from these activities and the crucial role of specimens gathered along the routes of the slave trade on emerging ideas in natural history. **In Time of Want and Plenty** Rowe Villaseca Cadeliña, 1985 **Archaeology of Households, Kinship, and Social Change** Lacey B. Carpenter, Anna Marie Prentiss, 2021-11-24 Archaeology of Households Kinship and Social Change offers new perspectives on the processes of social change from the standpoint of household archaeology. This volume develops new theoretical and methodological approaches to the archaeology of households pursuing three critical themes: household diversity in human residential communities with and without archaeologically identifiable houses; interactions within and between households that explicitly considers impacts of kin and non-kin relationships; and lastly, change as a process that involves the choices made by members of households in the context of larger societal constraints. Encompassing these themes, authors explore the role of social ties and their material manifestations within the house, dwelling, or other constructed space; how the household relates to other social units; how households consolidate power and control over resources; and how these changes manifest at multiple scales. The case studies presented in this volume have broader implications for understanding the drivers of change, the ways households create the contexts for change, and how households serve as spaces for invention, reaction, and/or resistance. Understanding the nature of relationships within households is necessary for a more complete understanding of communities and regions, as these ties are vital to explaining how and why societies change. Taking a comparative outlook with case studies from around the world, this volume will inform students and professionals researching household archaeology and be of interest to other disciplines concerned with the relationship between social networks and societal change. Option, 1988 **Hunters and collectors** David Axmann, 1993 System, 1915 *A Passion for Birds* Mark V. Barrow, Jr., 2021-08-10 In the decades following the Civil War, as industrialization, urbanization, and economic expansion increasingly reshaped the landscape, many Americans began seeking adventure and aesthetic gratification through avian pursuits. By the turn of the century, hundreds of thousands of middle and upper class devotees were rushing to join Audubon societies, purchase field guides, and keep records of the species they encountered in the wild. Mark Barrow vividly reconstructs this story not only through the experiences of birdwatchers, collectors, conservationists, and taxidermists but also through those of a relatively new breed of bird enthusiast: the technically oriented ornithologist. In exploring how ornithologists struggled to forge a discipline and profession amidst an explosion of popular interest in natural history, *A Passion for Birds* provides the first book-length history of American ornithology from the death of John James Audubon to the Second World War. Barrow shows how efforts to form a scientific community distinct from popular birders met with only partial success. The founding of the American Ornithologists Union in 1883 and the subsequent expansion of formal educational and employment opportunities in ornithology marked important milestones in this campaign. Yet by the middle of the twentieth century, when ornithology had finally achieved the status of a

modern profession its practitioners remained dependent on the services of birdwatchers and other amateur enthusiasts Environmental issues also loom large in Barrow's account as he traces areas of both cooperation and conflict between ornithologists and wildlife conservationists Recounting a colorful story based on the interactions among a wide variety of bird lovers this book will interest historians of science environmental historians ornithologists birdwatchers and anyone curious about the historical roots of today's birding boom William Hunter's World Nick Pearce, 2017-07-05 Despite William Hunter's stature as one of the most important collectors and men of science of the eighteenth century and the fact that his collection is the foundation of Scotland's oldest public museum The Hunterian until now there has been no comprehensive examination in a single volume of all his collections in their diversity This volume restores Hunter to a rightful position of prominence among the medical men whose research and amassing of specimens transformed our understanding of the natural world and man's position within it This volume comprises essays by international specialists and are as diverse as Hunter's collections themselves dealing as they do with material that ranges from medical and scientific specimens to painting prints books and manuscripts The first sections focus upon Hunter's own collection and his response to it while the final section contextualises Hunter within the wider sphere A special feature of the volume is the inclusion of references to the Hunterian's web pages and on line databases These enable searches for items from Hunter's collections both from his museum and library Locating Hunter's collecting within the broader context of his age and environment this book provides an original approach to a man and collection whose importance has yet to be comprehensively assessed **Building Bottom-up Health and Disaster Risk Reduction Programmes** Emily Ying Yang Chan, 2018 Introductory to intermediate level textbook and reference book for healthcare professionals fieldworkers volunteers and students who are interested in promoting health and emergency and disaster risk reduction in Asia **Hunters & Collectors** M.
