Hunting and the Ivory Tower Douglas Higbee,David Bruzina,2018-05-11 Seventeen hunter scholars explore the hunting experience and question common negative stereotypes Despite the academy having a reputation for supporting broad and open inquiry in scholarship some academics have not extended this open minded support to colleagues personal pursuits A variety of scholars enjoy hunting which has been stereotyped by some as an activity of the unsophisticated In *Hunting and the Ivory Tower* Douglas Higbee and David Bruzina present essays by seventeen hunter scholars who explore the hunting experience and question negative assumptions about hunting made by intellectuals and academics who do not hunt Higbee and Bruzina suspect most academics understanding of hunting is based on brief television news reports of hunter politicians and commercials for reality TV shows such as *Duck Dynasty* The editors contend that few scholars appreciate the complexities of hunting or give much thought to its ethical ecological and cultural ramifications Through this anthology they hope to start a conversation about both hunting and academia and how they relate The contributors to this anthology are academics from a variety of disciplines each with firsthand hunting experience Their essays vary in style and tone from the scholarly to the personal and represent the different ways in which scholars engage with their avocation The essays are grouped into three sections the first focuses on the often fraught relation between hunters and academic culture the second section offers personal accounts of hunting by academics and the third portrays hunting from an explicitly academic point of view whether in terms of value theory metaphysics or history Combined these essays render hunting as a culturally rich deeply personal and intellectually satisfying experience worthy of further discussion A foreword is provided by Robert DeMott the Edwin and Ruth Kennedy Distinguished Professor at Ohio University in Athens Ohio He is a teacher writer critic

and internationally respected expert on novelist John Steinbeck **Rene Girard, Law, Literature, and Cinema** Eric M. Wilson, 2024-04-05 This book is the first monograph to critically evaluate the work of the literary scholar Ren Girard from the perspectives of Law and Literature and Law and Film Studies two of the most multidisciplinary branches of critical legal theory The central thesis is that Girard s theory of the scapegoat mechanism provides a wholly new and original means of re conceptualizing the nature of judicial modernity which is the belief that modern Law constitutes an internally coherent and exclusively secular form of rationality The book argues that it is the archaic scapegoat mechanism the reconciliation of the community through the direction of unified violence against a single victim that actually works best in explaining all of the outstanding issues of Law and Literature in both of its sub forms law as literature the analysis of legal language and practice exemplified by literacy texts and law in literature the exploration of issues in legal theory through the fictitious form of the novel The book will provide readers with i a useful introduction to the most important elements of the work of Ren Girard ii a greater awareness of the hidden nature of legal culture and reasoning within a post secular age and iii a new understanding of the subversive or enlightening nature of some of the most iconic works on Law in both Literature and Cinema media which by their nature allow for the expression of truths repressed by formal legal discourse **Humans and Animals** Julie Urbanik, Connie L. Johnston, 2017-01-26 An engaging and at times sobering look at the coexistence of humans and animals in the 21st century and how their sometimes disparate needs affect environments politics economies and culture worldwide There is an urgent need to understand human animal interactions and relations as we become increasingly aware of our devastating impact on the natural resources needed for the survival of all animal species This timely reference explores such topics as climate change and biodiversity the impact of animal domestication and industrial farming on local and global ecosystems and the impact of human consumption of wild species for food entertainment medicine and social status This volume also explores the role of pets in our lives advocacy movements on behalf of animals and the role of animals in art and media culture Authors Julie Urbanik and Connie L Johnston introduce the concept of animal geography present different aspects of human animal relationships worldwide and highlight the importance of examining these interconnections Alphabetical entries illustrate key relationships concepts practices and animal species The book concludes with a comprehensive appendix of select excerpts from key primary source documents relating to animals and a glossary Sport, Animals, and Society James Gillett, Michelle Gilbert, 2013-12-17 This book advances current literature on the role and place of animals in sport and society It explores different forms of sporting spaces examines how figures of animals have been used to racialize the human athlete and encourages the reader to think critically about animal ethics animals in space time and place and the human animal relationship The chapters highlight persistent dichotomies in the use of and collaboration with animals for sport and present strategies for moving forward in the study of interspecies relations Dominion Matthew Scully, 2003-10-08 And God said Let us make man in our image after our likeness and let them have dominion over the fish of

the sea and over the fowl of the air and over the cattle and over all the earth and over every creeping thing that creepeth upon the earth Genesis 1 24 26 In this crucial passage from the Old Testament God grants mankind power over animals But with this privilege comes the grave responsibility to respect life to treat animals with simple dignity and compassion Somewhere along the way something has gone wrong In Dominion we witness the annual convention of Safari Club International an organization whose wealthier members will pay up to 20 000 to hunt an elephant a lion or another animal either abroad or in American safari ranches where the animals are fenced in pens We attend the annual International Whaling Commission conference where the skewed politics of the whaling industry come to light and the focus is on developing more lethal but not more merciful methods of harvesting living marine resources And we visit a gargantuan American factory farm where animals are treated as mere product and raised in conditions of mass confinement bred for passivity and bulk inseminated and fed with machines kept in tightly confined stalls for the entirety of their lives and slaughtered in a way that maximizes profits and minimizes decency Throughout Dominion Scully counters the hypocritical arguments that attempt to excuse animal abuse from those who argue that the Bible's message permits mankind to use animals as it pleases to the hunter's argument that through hunting animal populations are controlled to the popular and scientifically proven notions that animals cannot feel pain experience no emotions and are not conscious of their own lives The result is eye opening painful and infuriating insightful and rewarding Dominion is a plea for human benevolence and mercy a scathing attack on those who would dismiss animal activists as mere sentimentalists and a demand for reform from the government down to the individual Matthew Scully has created a groundbreaking work a book of lasting power and importance for all of us

Cahalan, 2022-08-09 The best biography ever about Ed Cahalan's meticulous research and thoughtful interviews have made this book the authoritative source for Abbey scholars and fans alike Doug Peacock author environmentalist activist and explorer and the inspiration for Hayduke in The Monkey Wrench Gang He was a hero to environmentalists and the patron saint of monkeywrenchers a man in love with desert solitude A supposed misogynist ornery and contentious he nevertheless counted women among his closest friends and admirers He attracted a cult following but he was often uncomfortable with it He was a writer who wandered far from Home without really starting out there James Cahalan has written a definitive biography of a contemporary literary icon whose life was a web of contradictions Edward

Abbey A Life sets the record straight on Cactus Ed giving readers a fuller more human Abbey than most have ever known It separates fact from fiction showing that much of the myth surrounding Abbey such as his birth in Home Pennsylvania and later residence in Oracle Arizona was self created and self perpetuated It also shows that Abbey cultivated a persona both in his books and as a public speaker that contradicted his true nature publicly racy and sardonic he was privately reserved and somber Cahalan studied all of Abbey s works and private papers and interviewed many people who knew him including the models for characters in The Brave Cowboy and The Monkey Wrench Gang to create the most complete picture to date of the writer s life He examines Abbey s childhood roots in the East and his love affair with the West his personal relationships and tempestuous marriages and his myriad jobs in continually shifting locations including sixteen national parks and forests He also explores Abbey s writing process his broad intellectual interests and the philosophical roots of his politics For Abbey fans who assume that his honest novel The Fool s Progress was factual or that his public statements were entirely off the cuff Cahalan s evenhanded treatment will be an eye opener More than a biography Edward Abbey A Life is a corrective that shows that he was neither simply a countercultural cowboy hero nor an unprincipled troublemaker but instead a complex and multifaceted person whose legacy has only begun to be appreciated The book contains 30 photographs capturing scenes ranging from Abbey s childhood to his burial site

Wild Games Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of Wild Games a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don t perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don t see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket
