Hysteria Beyond Freud Sander Lawrence Gilman, Sander L. Gilman, Helen King, Roy Porter, G. S. Rousseau, Elaine Showalter, 1993-01-01 Encyclopedically learned up to date authoritative and altogether the best introduction to the subject that exists in any language Thomas Laqueur author of *Making Sex* *Lacan and the Concept of the 'Real'* T. Evers, 2012-08-07 This is the first book in English to explore in detail the genesis and consequences of Lacan's concept of the Real providing readers with an invaluable key to one of the most influential ideas of modern times Matrix of Hysteria Nitza Yarom, 2005 Nitza Yarom looks at psychoanalysis in many different ways Lacan and the Posthuman Svitlana Matviyenko, Judith Roof, 2018-04-30 When Posthumanism displaces the traditional human subject what does psychoanalysis add to contemporary conversations about subject object relations systems perspectives and values This book discusses whether Posthumanism itself is a cultural indication of a shift in thinking that is moving from language to matter from a politics focused on social relations to one organized according to a broader sense of object in environments Together the authors question what is at stake in this shift and what psychoanalysis can say about it Promoting psychoanalysis focus on the cybernetic relationships among subjects language social organizations desire drive and other human motivations this book demonstrates the continued relevance of Lacan's work not only to continued understandings of the human subject but to the broader cultural impasses we now face Why Posthumanism Why now In what ways is Posthumanist thought linked to the emergence of digital technologies Exploring Posthumanism from the insights of Lacan's psychoanalysis chapters expose and elucidate not only the conditions within which Posthumanist thought arises but also reveal symptoms of its flaws the blindness to anthropomorphization projection and unrecognized shifts in scale and perspective as well as its mode of transcendental thought that enables many Posthumanist declarations This book explains how Lacanian notions of the subject inform current discussions about human complicity with and resistance to algorithmic governing regimes which themselves

more wholly produce a post humanism than any philosophical displacement of human centrality could *From Lesion to Metaphor* Andrew Hodgkiss, 2000 Evidence of a nineteenth century tradition of theoretical discussion about the relationship between chronic pain and pathological lesion trauma mood memory and personality is brought together here for the first time A wide range of medical texts is surveyed including pathology surgery physiology neurology psychiatry and psychoanalysis We see the medical gaze first penetrate the tissues of the body then extend to examine the language and mental state of the pain patient **Reading Foucault Through Lacan** Jessica L. Davis, 2024-12-28 Jacques Lacan and Michel Foucault are often cast as intellectual adversaries their legacies marked by differences in method lineages and analytical priorities Yet beneath their distinct projects lies a shared ambition to decenter the Western conception of the subject while critically engaging with the notion of subjectivity in post Kantian thought This book examines Foucault s critical project through the lens of Lacan s theory of the four discourses introduced in Seminar XVII The Other Side of Psychoanalysis 1969 70 Divided into two parts Reading Foucault through Lacan unfolds as a dialogue between the discourses of the Hysteric and the Analyst Part I The Hysteric reframes Foucault s genealogical critique from the early to mid 1970s as a form of hysterical questioning directed at Kant s transcendental legacy and its aftermath Through an exploration of how violence and embodied resistance interact in a discursive framework Part I uncovers the epistemological fractures that mark the modern subject Part II The Analyst examines Foucault s redefinition of Kantian critique as a historically situated engagement with the present Building on Lacan s claim that analytic experience begins with the hysterization of discourse this section views Foucault s re alignment with Kant as retroactively constituting the transformation from Hysteric to Analyst Addressing themes such as parrhesia transference and the ethics of speaking Part II examines discourse as a social link that transcends fixed identities to inhabit new modes of being Drawing on newly available English translations of Foucault s lectures and Lacan s seminars this book bridges two key trajectories in French thought and offers valuable insights for scholars of psychoanalysis critical theory and social philosophy *The Bloomsbury Handbook of Literary and Cultural Theory* Jeffrey R. Di Leo, 2018-11-15 The Bloomsbury Handbook of Literary and Cultural Theory is the most comprehensive available survey of the state of theory in the 21st century With chapters written by the world s leading scholars in their field this book explores the latest thinking in traditional schools such as feminist Marxist historicist psychoanalytic and postcolonial criticism and new areas of research in ecocriticism biopolitics affect studies posthumanism materialism and many other fields In addition the book includes a substantial A to Z compendium of key words and important thinkers in contemporary theory making this an essential resource for scholars of literary and cultural theory at all levels **From Phenomenology to Thought, Errancy, and Desire** B.E. Babich, 2013-04-17 For both continental and analytic styles of philosophy the thought of Martin Heidegger must be counted as one of the most important influences in contemporary philosophy In this book essays by internationally noted scholars ranging from David B Allison to Slavoj Žižek honour the

interpretive contributions of William J Richardson's pathbreaking *Heidegger Through Phenomenology to Thought* The essays move from traditional phenomenology to the idea of essential another thinking the questions of translation and existential expressions of the turn of Heidegger's thought the intersection of politics and language the philosophic significance of Jacques Lacan and several essays on science and technology All show the influence of Richardson's first study A valuable emphasis appears in Richardson's interpretation of Heidegger's conception of *die Irre* interpreted as Errancy set in its current locus in a discussion of Heidegger's debacle with the political in his involvement with National Socialism

Victorian Jewelry, Identity, and the Novel Jean Arnold, 2016-03-16 In this study of Victorian jewels and their representation Jean Arnold explores the role material objects play in the cultural cohesion of the West Diamonds and other gems Arnold argues symbolized the most closely held beliefs of the Victorians and thus can be considered prisms of culture Mined in the far reaches of the empire they traversed geographical space and cultural boundaries representing monetary value and evoking empire class lineage class membership gender relations and aesthetics Arnold analyzes the many roles material objects fill in Western culture and surveys the cross cultural history of the Victorian diamond uncovering how this object became both preeminent and representative of Victorian values Her close readings of Wilkie Collins's *The Moonstone* George Eliot's *Middlemarch* William Makepeace Thackeray's *The Great Hoggarty Diamond* and Anthony Trollope's *The Eustace Diamonds* show gendered aesthetic economic fetishistic colonial legal and culturally symbolic interpretations of jewelry as they are enacted through narrative Taken together these divergent interpretations offer a holistic view of a material culture's affective attachment to objects As the assigned meanings of jewels turn them into symbols of power personal relationships and valued ideas human interactions with gems elicit emotional responses that bind the materialist culture together

The Reincarnating Mind, or the Ontopoietic Outburst in Creative Virtualities Anna-Teresa Tymieniecka, 2012-12-06 Tymieniecka's phenomenology of life reverses current priorities stressing the primogenital role of aesthetic enjoyment rather than cognition as typifying the Human Condition The present collection offers clues to a crucial breakthrough in the perennial uncertainties about the powers and prerogatives of the human mind It proposes human creativity as the pivot of the mind's genesis and its endowment In the midst of the current defiance of the transcendental certainties of cognition this turn to the creative act of the human being represents a radical reversion to an approach to human powers that is predominated by the aesthetic virtualities of the Human Condition The collection lays down the foundations for a new discovery of the human mind addressing the plumbing of the functional system that originates in the creative potentiality of the Human Condition undercutting the currently prevalent empirical reductionism
