 Parish,2012-12-03 This account of two extinct bird species offers an amazing amount of history references facts maps and  
 illustrations Library Journal The Dodo and the Solitaire is the most comprehensive book to date about these two famously  
 extinct birds It contains all the known contemporary accounts and illustrations of the dodo and solitaire covering their history  
 after extinction and discussing their ecology classification phylogenetic placement and evolution Both birds were large and  
 flightless and lived on inhabited islands some five hundred miles east of Madagascar The first recorded descriptions of the  
 dodo were provided by Dutch sailors who encountered them in 1598 and within a century the dodo was extinct So quickly did  
 the bird disappear that there is insufficient evidence to form an entirely accurate picture of its appearance and ecology and  
 the absence has led to much speculation This extraordinary book pieces together the story of these two lost species from the  
 fragments that have been left behind An up to date and comprehensive review of everything we know about the dodo and
