Mullins, 2018-01-26 Ice Bear Michael Engelhard, 2016-11-01 Prime Arctic predator and nomad of the sea ice and tundra the polar bear endures as a source of wonder terror and fascination Humans have seen it as spirit guide and fanged enemy as trade good and moral metaphor as food source and symbol of ecological crisis Eight thousand years of artifacts attest to its charisma and to the fraught relationships between our two species In the White Bear we acknowledge the magic of wildness it is both genuinely itself and a screen for our imagination Ice Bear traces and illuminates this intertwined history From Inuit shamans to Jean Harlow lounging on a bearskin rug from the cubs trained to pull sleds toward the North Pole to cuddly superstar Knut it all comes to life in these pages With meticulous research and more than 160 illustrations the author brings into focus this powerful and elusive animal Doing so he delves into the stories we tell about Nature and about ourselves hoping for a future in which such tales still matter **The Great White Bear** Kieran Mulvaney, 2011-01-12 This up close and graceful account of the polar bear combines historical accounts research and the author's own encounters in the Arctic Kirkus Reviews Polar bears are creatures of paradox They are white bears whose skin is black massive predators who can walk almost silently Arctic residents whose major problem is not staying warm but keeping cool Fully grown they can measure ten feet and weigh close to two thousand pounds but at birth they are just twenty ounces Human encounters with these legendary creatures can be both exhilarating and terrifying Tales throughout history describe the ferocity of polar bear attacks on humans But human hunters have exacted a far larger toll obliging Arctic nations to try to protect their region's iconic species before it's too late Now another threat to the polar bears survival has emerged one that is steadily destroying sea ice and the life it supports Without this habitat polar bears cannot exist The Great White Bear celebrates the story of this unique species Through a blend of history myth personal observations and scientific accounts Kieran Mulvaney tells the story of the polar bear its history its life and its uncertain fate The Polar Bear Caroline Brett, 1990 Part of a series on animals and animal behaviour produced in collaboration with the makers of the award winning television programme Survival and aiming to introduce children to the animal kingdom This book covers the natural history of the polar bear **Ice Bear** Steven Kazlowski, 2010-01-01 This title presents a collection of photographs by acclaimed polar bear photographer Steven Kazlowski Featuring mostly never before published images this simple yet evocative book explores the polar bear's Arctic home and life cycle [EN]ANGEL&STORM S01E01 CRAMER, 2014-11-13 ANGEL it is an actual situation where everything is well controlled again by the emergence of New World Order NWO 29 year ago anything related to Japanese yen had defaulted
