Perry, 2006 For many the idea of the Last Days brings to mind concerns and fears about the End of the World The Antichrist The Mark of the Beast World War and Armageddon For centuries man has been occupied with the idea that someday the world will come to an end These fears and concerns have been fuelled by natural disasters famines world wars and the writings of people such as Nostradamus Jeane Dixon and Tim LaHaye When we think about the Last Days we have more questions than answers Is the world really going to end Should we be concerned about the future Where are we today in relation to the Last Days Author Richard H Perry urges readers to consider the source when caught up in these questions that don't seem to have answers In *The Complete Idiot's Guide to the Last Days* Perry takes readers to the source of all discussion on the subject the Bible itself **Kingdom through Covenant (Second Edition)** Peter J. Unveiling the Ruse Lynne Fox, 2022-03-16 Two thousand years ago the apostle Peter wrote in his second epistle that in the last days people would scoff at the notion of Christ s second coming He also wrote that the same would be willingly ignorant of the creator God who made the universe and of the Genesis flood that overtook the entire world True to Peter s prophecy Charles Darwin s theory of evolution has replaced the biblical account of man s origins and the global cataclysm to which Noah was witness has been reduced to a fable However the candor of Genesis is beginning to emerge as scientists find evidences in geology paleontology and genetics painting a different picture than naturalism the same substances which are crowned as scientific proofs of deep time and of goo to you evolution showcase the very catastrophe and the account of creation that secular academia aims to censor Following evidence of the supernatural acting upon the natural one discovers both God and his adversary in their conflict over man But the Word of God has revealed its predetermined end and it may come sooner than many would expect Inversely we might have little reason to fear archaic ideas let the Judeo Christian God be a bygone already some say With our knowledge increasing exponentially our future is bright As scientists unlock the secrets of DNA and develop technology beyond our forefathers wildest dreams humankind may even have a shot at achieving immortality one day leaving worries of heaven and hell behind And considering the vastness of the universe in which we hope to expand there could be intelligent life already among the stars that might one day make contact and aid us in our aspirations or this is all just part of the ruse
