Foundations of Medieval Scholarship Paul A. Brand,Sean Cunningham,2008 **Disunited Kingdoms** Michael Brown,2014-07-10 In the last decades of the thirteenth century the British Isles appeared to be on the point of unified rule dominated by the lordship law and language of the English However by 1400 Britain and Ireland were divided between the warring kings of England and Scotland and peoples still starkly defined by race and nation Why did the apparent trends towards a single royal ruler a single elite and a common Anglicised world stop so abruptly after 1300 And what did the resulting pattern of distinct nations and extensive borderlands contribute to the longer term history of the British Isles In this innovative analysis of a critical period in the history of the British Isles Michael Brown addresses these fundamental questions and shows how the national identities underlying the British state today are a continuous legacy of these years Using a chronological structure to guide the reader through the key periods of the era this book also identifies and analyses the following dominant themes throughout the changing nature of kingship and sovereignty and their links to wars of conquest developing ideas of

community and identity key shifts in the nature of aristocratic societies across the isles the European context particularly the roots and course of the Hundred Years War This is essential reading for undergraduates studying the history of late Medieval Britain or Europe but will also be of great interest for anyone who wishes to understand the continuing legacy of the late medieval period in Britain **Body/State** Angus Cameron, Jen Dickinson, Nicola Smith, 2016-04-08 Body State brings together original essays addressing various aspects of the evolving interaction between bodies and states While each essay has different empirical and or theoretical focus authors consider a number of overlapping themes to appreciate the state s engagement with and concern about bodies Divided into five parts the first part Bodies Modified and Divided considers how the production regulation policing and maintenance of borders physical social sexual political religious etc are used to enable or constrain the physical re shaping of the body Part two Capital Bodies extends the state s concern with the flows of bodies that make up the nation to consider how they are enrolled in the complex structures of capitalist exchange that form the basis for maintaining and contesting a set of relationships between states and markets Part three Deviance and Resistance examines both how states seek to discipline non normal bodies and appreciates the capacity of changes in the socio cultural meaning and nature of bodies to resist and or escape states Part four Sovereignty and Surveillance develops themes of deviancy and resistance by considering the impact of new technologies both on the intimate regulatory reach of states into and across bodies and on the nature of embodiment itself Finally Part five The Body Virtual examines the impact of new technologies and online spaces both on the intimate regulatory reach of states into and across bodies and on the nature of embodiment itself A varied collection of essays that address important and complex topics in a readable and creative way

The Sea and Medieval English Literature Sebastian I. Sobecki, 2008 A fresh and invigorating survey of the sea as it appears in medieval English literature from romance to chronicle hagiography to autobiography As the first cultural history of the sea in medieval English literature this book traces premodern myths of insularity from their Old English beginnings to Shakespeare s Tempest Beginning with a discussion of biblical classical and pre Conquest treatments of the sea it investigates how such works as the Anglo Norman Voyage of St Brendan the Tristan romances the chronicles of Matthew Paris King Horn Patience The Book of Margery Kempe and The Libelle of Englyshe Polycye shape insular ideologies of Englishness Whether it is Britain s privileged place in the geography of salvation or the political fiction of the idyllic island fortress medieval English writers myths of the sea betray their anxieties about their own insular identity their texts call on maritime motifs to define England geographically and culturally against the presence of the sea New insights from a range of fields including jurisprudence theology the history of cartography and anthropology are used to provide fresh readings of a wide range of both insular and continental writings Photography, Anthropology and History Elizabeth Edwards, 2016-04-22 Photography Anthropology and History examines the complex historical relationship between photography and anthropology and in particular the strong emergence of the contemporary relevance of historical images

Thematically organized and focusing on the visual practices developed within anthropology as a discipline this book brings together a range of contemporary and methodologically innovative approaches to the historical image within anthropology. Importantly it also demonstrates the ongoing relevance of both the historical image and the notion of the archive to recent anthropological thought. As current research rethinks the relationship between photography and anthropology this volume will serve as a stimulus to this new phase of research as an essential text and methodological reference point in any course that addresses the relationship between anthropology and visuality.

Non-Native Sources for the Scandinavian Kings' Sagas Paul

A. White, 2023-04-14. Traditional scholarship on the kings sagas has tended to focus on the textual histories and interrelationships between the various twelfth and thirteenth century Scandinavian manuscripts. Thus previous scholars have striven to ascertain chronology, dating and potential literary borrowings between the various native medieval manuscripts without considering the possibility of foreign textual influences on native literary traditions. *Non-Native Sources for the Scandinavian Kings' Sagas* prompts scholars to look beyond the borders of medieval Scandinavia in the attempt to account for seemingly inexplicable literary motifs and historical accounts.

"She, this in Blak" Thomas Edward Hill, 2006. Publisher

description. *She, this in Blak* Thomas Hill, 2013-10-18. *She, this in Blak* takes a fresh look at Chaucer's great Trojan romance *Troilus and Criseyde* in light of recent scholarship on late scholastic discourses on representation and causality as they pertain to human perception and judgment. This study also contributes to a growing literature on the impact of scholastic psychological theory upon contemporary cultural forms by examining the way in which late medieval accounts of perception and cognition can illuminate the construction of the poem's subjects, including one of the most compelling and controversial figures in medieval literature, Chaucer's *Criseyde*. By examining Chaucer's depiction of *Troilus*, *Pandarus* and *Criseyde* within this contemporary cultural context, *She, this in Blak* offers a better grounded and more historically illuminating view of the poem than is provided by psychological readings based on modern constructions of intentionality.

Rome's World Richard J. A. Talbert, 2010-08-16. A long overdue reinterpretation and appreciation of the *Peutinger Map* as a masterpiece both of mapmaking and imperial Roman ideology.

Rome and the Colonial City Sofia Greaves, Andrew

Wallace-Hadrill,2022-05-05 According to one narrative that received almost canonical status a century ago with Francis Haverfield the orthogonal grid was the most important development of ancient town planning embodying values of civilization in contrast to barbarism diffused in particular by hundreds of Roman colonial foundations and its main legacy to subsequent urban development was the model of the grid city spread across the New World in new colonial cities This book explores the shortcomings of that all too colonialist narrative and offers new perspectives It explores the ideals articulated both by ancient city founders and their modern successors it looks at new evidence for Roman colonial foundations to reassess their aims and it looks at the many ways post Roman urbanism looked back to the Roman model with a constant re appropriation of the idea of the Roman *Envisioning Landscapes, Making Worlds* Stephen Daniels,Dydia DeLyser,J.

Nicholas Entrikin,Doug Richardson,2012-03-15 There has been a remarkable resurgence in the past decade of intellectual interplay between geography and the humanities in both academic and public circles Terminology and concepts such as space place landscape mapping and geography are becoming pervasive as conceptual frameworks and core metaphors in recent publications by humanities scholars and well known writers *Envisioning Landscapes Making Worlds* examines the depth and complexity of human meaning invested in maps attached to landscapes and embedded in the spaces and places of modern life The clashing and blending of cultures caused by globalization and the new technologies that profoundly alter human environmental experience suggest new geographical narratives and representations that are explored here by a multidisciplinary group of authors With contributions from leading scholars this text is essential reading for scholars and students seeking to understand the new synergies and interconnectedness of geography and the humanities *Mapping Medieval Geographies* Keith D. Lilley,2014-01-09 *Mapping Medieval Geographies* explores the ways in which geographical knowledge ideas and traditions were formed in Europe during the Middle Ages Leading scholars reveal the connections between Islamic Christian Biblical and Classical geographical traditions from Antiquity to the later Middle Ages and Renaissance The book is divided into two parts Part I focuses on the notion of geographical tradition and charts the evolution of celestial and earthly geography in terms of its intellectual visual and textual representations whilst Part II explores geographical imaginations that is to say those imagined geographies that came into being as a result of everyday spatial and spiritual experience Bringing together approaches from art literary studies intellectual history and historical geography this pioneering volume will be essential reading for scholars concerned with visual and textual modes of geographical representation and transmission as well as the spaces and places of knowledge creation and consumption
