Kingston Building On The Past:

Kingston Brian S. Osborne, Donald Swainson, 1988 IN LIBRARY USE ONLY History of Kingston **The Dundurn Group** The Dundurn Group, *The Dundurn Group* Bernd Horn, **The People's Network** Robert MacDougall, 2014-01-08 The Bell System dominated telecommunications in the United States and Canada for most of the twentieth century but its monopoly was not inevitable In the decades around 1900 ordinary citizens farmers doctors small town entrepreneurs established tens of thousands of independent telephone systems stringing their own wires to bring this new technology to the people Managed by opportunists and idealists alike these small businesses were motivated not only by profit but also by the promise of open communication as a weapon against monopoly capital and for protection of regional autonomy As the Bell empire grew independents fought fiercely to retain control of their local networks and companies a struggle with an emerging corporate giant that has been almost entirely forgotten The People s Network reconstructs the story of the telephone s contentious beginnings exploring the interplay of political economy business strategy and social practice in the creation of modern North American telecommunications Drawing from government documents in the United States and Canada independent telephone journals and publications and the archives of regional Bell operating companies and their rivals Robert MacDougall locates the national debates over the meaning use and organization of the telephone industry as a turning point in the history of information networks The competing businesses represented dueling political philosophies regional versus national identity and local versus centralized power Although independent telephone companies did not win their fight with big business they fundamentally changed the way telecommunications were conceived **Wolfe Island** Barbara Wall La Rocque, 2009-08-13 Wolfe Island begins with the emergence of islands at the end of the last ice age and moves through the many centuries of First Nations habitation to the era of French exploration and the fur trading the arrival of the earliest British settlers and the United Empire Loyalists up to current time The development and decline of industry the evolution of facilities land title frustrations and the emergence of a strong sense of identity among the inhabitants are featured along with a wealth of anecdotes based on colourful and eccentric personalities This extensively researched history of Wolfe Island is a treasure trove for history buffs *The Lives of Lake Ontario* Daniel Macfarlane, 2024-09-03 Lake Ontario has profoundly influenced the historical evolution of North America For centuries it has enabled and enriched the societies that crowd ed its edges from fertile agricultural landscapes to energy production systems to sprawling cities In *The Lives of Lake Ontario* Daniel Macfarlane details the lake s relationship with the Indigenous nations settler cultures and modern countries that have occupied its shores He examines the myriad ways Canada and the United States have used and abused this resource through dams and canals drinking water and sewage trash and pollution fish and foreign species industry and manufacturing urbanization and infrastructure population growth and biodiversity loss Serving as both bridge and buffer between the two countries Lake Ontario came to host Canada s largest megalopolis Yet its

transborder exploitation exacted a tremendous ecological cost leading people to abandon the lake Innovative regulations in the later twentieth century such as the Great Lakes Water Quality Agreements have partially improved Lake Ontario s health Despite signs that communities are reengaging with Lake Ontario it remains the most degraded of the Great Lakes with new and old problems alike exacerbated by climate change The Lives of Lake Ontario demonstrates that this lake is both

remarkably resilient and uniquely vulnerable **The Backbone of History** Richard H. Steckel,Jerome C. Rose,2002-08-26 For the same reasons that explorers of the early twentieth century strove to reach the poles and their modern counterparts journey to outer space most people want to visualize the contours of the human experience the peaks of adaptive success that led to the expansion of civilization and the troughs in which human presence ebbed The Backbone of History defines the emerging field of macrobioarchaeology by gathering skeletal evidence on seven basic indicators of health to assess chronic conditions that affected individuals who lived in the Western Hemisphere from 5000 BC to the late nineteenth century Signs of biological stress in childhood and of degeneration in joints and in teeth increased in the several millennia before the arrival of Columbus as populations moved into less healthy ecological environments Thus pre Colombian Native Americans were among the healthiest and the least healthy groups to live in the Western Hemisphere before the twentieth century

Old Vlster Benjamin Myer Brink,1913 Fort Henry Stephen Mecredy,2020-03-20 With its massive limestone walls elegant Martello towers and strategic location Fort Henry was once central to the defence of Canada Today the Fort is a living museum where visitors can watch the Fort Henry Guard perform precision drill and battle re enactments from 1867 a time when British redcoats garrisoned the fort against the risk of American attack Visitors to this National Historic Site can also experience what life was life for soldiers their families and the civilian population during this period in Canadian history Fort Henry An Illustrated Guide provides readers with a room by room tour of the Fort as it is today including the advanced battery ramparts and reverse fire chamber living quarters for soldiers officers and their families a schoolroom a bakery and even privies and prisoner cells Researched and written by former Fort Henry curator Stephen Mecredy this book also offers a short history of the Fort from its importance as the Citadel of Upper Canada to the elaborate and costly restoration of the Fort in 1930s and its uses as an internment camp and Prisoner of War camp during both World Wars This revised edition is handsomely illustrated with up to date photography as well as rare nineteenth century prints and paintings and includes a glossary of military terms a list of British and Canadian units stationed at the Fort and excerpts from historical documents

Plunder, Profit, and Paroles George Sheppard,1994 Reviewing the claims submitted for damages attributed to the fighting he argues that British forces as well as enemy troops were responsible for widespread destruction of private property and concludes that this explains why there was little increase in anti American feeling after the war **Beyond the Global City** Gordon Nelson,2012-05-08 Policies promoting Toronto as a global city and provincial economic engine have been seen as beneficial to the development of all of Ontario yet much of the province has borne significant environmental

social economic and political costs as a result of one city's growth Contributors to this volume call for a radical re-imagining of public policy at local provincial and federal levels that accounts for Ontario's overlooked regions Beyond the Global City presents a kaleidoscopic view of the province the rich fields and small towns of the southwest the productive agricultural lands of rural Huron County historic Kingston and the Upper St Lawrence the social and cultural diversity of the Ottawa valley the near mythical woodlands and waters of Muskoka and Georgian Bay and the heavily exploited coasts and waters of the Great Lakes to provide a deeper understanding of its various communities In a series of regional studies contributors describe each area's distinctive qualities and challenges and offer recommendations about what is needed to move them forward in a more equitable and sustainable way Two initial historical chapters lay the framework for the regional discussions while cross-cutting and integrated chapters analyze the state of natural and cultural heritage and current development theory provincially offering guidance for the future

Warriors and Warships Robert D. Banks, 2023-01-24
Winner Keith Matthews Best Book Award presented by Canadian Nautical Research Society The untold story of Point Frederick where early nineteenth century Canadians built warships that stopped invasion and brought peace Warriors and Warships brings to life a much neglected part of Canada's military history covering the warships and the people who built them at Point Frederick from the late eighteenth century to the mid nineteenth century Opposite Kingston Point Frederick was the 1789 dockyard home of the Provincial Marine on Lake Ontario and the headquarters of Britain's Royal Navy from 1813 to 1853 Today it is the home of the Royal Military College of Canada In this detailed narrative with over one hundred colour archival maps aerial views photographs and 3D reconstructions Banks recounts Point Frederick's building of great sail and steam warships and the roles these vessels played in conflict on Lake Ontario the St Lawrence River and Niagara Among the conflicts is the War of 1812 when French Canadian and British shipwrights made warships that forced the U.S. Navy into port and led to the American withdrawal from Canada Banks also covers the role of the ships in the settlement of Upper Canada the rebellion of 1837 the early planning of the Rideau Canal and the beginning of the undefended border Along the way Banks introduces an array of people from Upper Canada such as Lieutenant Governor John Graves Simcoe and his wife Elizabeth Posthuma Governor General Lord Dorchester General Isaac Brock Sir James Yeo and even Charles Dickens He also describes the day to day activities at Point Frederick beyond shipbuilding and military campaigns such as skating parties sleigh rides theatricals disease and death and crime and punishment Banks shares the moments of hardship triumph and tragedy of both the warriors and the warships in this important contribution to Canadian history

Urban Archaeology, Municipal Government and Local Planning Sherene Baugher, Douglas R. Appler, William Moss, 2017-07-28 Improving the relationship between archaeology and local government represents one of the next great challenges facing archaeology specifically archaeology done in urban settings Not only does

local government have access to powerful legal tools and policy mechanisms that can offer protection for privately owned archaeological sites but because local government exists at the grassroots level it is also often closer to people who have deep knowledge about the community itself about its values and about the local meaning of the sites most in need of protection This partnership between archaeology and local government can also provide visibility and public programming for heritage sites This book will explore the experiences both positive and negative of small and large cities globally We have examined programs in the Commonwealth of Nations formerly known as the British Commonwealth and in the United States These countries share similar perspectives on preservation and heritage although the approaches these cities have taken to address municipal archaeology reveals considerable diversity The case studies highlight how these innovative partnerships have developed and explain how they function within local government Engaging with the political sphere to advocate for and conduct archaeology requires creativity flexibility and the ability to develop collaborative partnerships How these archaeological partnerships benefit the community is a vital part of the equation Heritage and tourist benefits are discussed Economic challenges during downturns in the economy are analyzed The book also examines public outreach programs and the grassroots efforts to protect and preserve a community s archaeological heritage *History of Tennessee* Goodspeed Publishing Company Staff,1887 This volume contains biographical sketches of some 1 200 and genealogical data of some 30 000 other families individuals for the following counties Anderson Blount Bradley Campbell Clairborne Cocke Grainger Greene Hamblen Hamilton Hancock Hawkins James Jefferson Johnson Knox Loudon McMinn Meigs Monroe Morgan Polk Rhea Roane Sevier Sullivan Unicoi Union and Washington Canadian History: Beginnings to Confederation Martin Brook Taylor,Doug Owrarn,1994-01-01 In these two volumes which replace the Reader s Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover Street-lore of Bath Robert Edward Myhill Peach,1893 History of Ulster County, New York Nathaniel Bartlett Sylvester,1880 *Buildings of Empire* Ashley Jackson,2013-11-28 Buildings of Empire takes the reader on an exciting journey through thirteen territories of the British Empire From Dublin Castle to the glass and steel of Sir Norman Foster s Hong Kong and Shanghai Bank skyscraper these buildings capture the essence of the imperial experience painting an intimate portrait of the biggest empire the world has ever seen the people who made it and the people who resisted it as well as the legacy of the imperial project throughout the world Ashley Jackson visits classic examples of the buildings that the British governed from the forts they often brutally imposed their rule from the railway stations they travelled from the banks they traded from the educational establishments they spread their values from as well as the grand colonial hotels they stayed in the sporting clubs and botanical gardens where they took their leisure and the monumental exhibition spaces in which they celebrated the achievements of settlement and imperial endeavour The history of these buildings does not end with the empire that built them Their story in the aftermath of empire highlights the continuing legacy

of many of the structures and institutions the British left behind as well as the sometimes unexpected role that these former symbols of alien rule have played in the establishment of new national identities in the years since independence
