Kissing Frogs No More Lucia Wang, 2013-01-10 From fairytale to reality Lucia Wang will reveal THE SECRET of how to find your Prince Charming in her latest book *Kissing Frogs No More* This groundbreaking book will revolutionize dating forever It is a must read for all single men and women who are searching for their love of a lifetime *Kissing Frogs* Courtney Palm, 2015-03-03 After years of people constantly saying to me Courtney you really should be writing a book with all of these dating stories you have I finally took the plunge and put pen to paper It was time for me to share the utterly amazing and often ridiculous circumstances I always seemed to find myself in when it involved a person of the opposite sex If I was going to be one of the poster children for living the single life I realized I might as well use it as some form of entertainment for others to enjoy *Kissing Frogs* begins with a prologue painting the picture of a single girl looking for love As the book unfolds it delivers funny horrifying sad exciting disappointing and any other word one can and would use to describe the dates we've all gone on and experienced with the mere purpose of bringing a deeper understanding of what dating life was like My journey and self evolution is meant to relate to those also living the single life maybe it will bring them some peace of mind that they are not alone as I had lived the same dating nightmares they are Or maybe it will give them hope and the same determination I had to never give up on what they want for themselves that there is power in discovering that only they get to determine what that looks like for themselves When I initially stepped out in to the single scene in NYC in the early 2000 s it is clear nothing could have prepared me for the treacherous waters of dating and the various experiences I would have over the years I remained single But no matter what frustrations disappointments or heartache I

endured I never gave up on what I was truly out to find Dating for roughly ten years not only provided me with memorable experiences but in some ways it truly made me a dating expert The short stories are in chronological order so there is a flow that occurs I sew the pieces together and show the evolution of my approach to dating by threading in the lessons I learned from every man and situation I found myself in I had my heart broken I broke hearts I left a date after twenty minutes I stayed in a relationship merely for the physical benefits I experienced over seas and cross country relationships I went out with men I met through numerous dating sites I was set up by friends and co workers and I was picked up by and picked up men in a bar When it came to dating I had pretty much done it all Whether you are a twenty thirty or forty something single lady living the same nightmares I had a single guy wanting to know why a girl doesn t accept that second date or a married since nearly puberty gal who can t understand what her single best friend s dating life is like there is something for everyone in **Kissing Frogs**

The Princess's Dating Journal Lisa Adamson,2020-07-21 I ve met someone wow Is he the one I d dearly love him to be But hold on I thought that about the last love prospect Such turmoil Excitement and anxiety rolled into one The above thoughts are all too familiar but unfortunately it s true that a princess may have to kiss a lot of frogs before she meets her prince Use this A4 sized journal to chart your journey Hopefully you won t have to put too many entries in before Your Prince sweeps you off your feet

How Many Frogs Do I Have To Kiss? Starla C Quinn,2019-03-27 This book includes a planner Ahh That good ole feeling of falling in love With that feeling comes fear excitement anxiety and pure honest to goodness joy Out of all this there is that one thing we all hope to achieve and that is getting it right the first time or second maybe third I think it s safe to say that we just want to get it right Eventually That vicious thought of never finding the right love is scary enough to make a person settle into a relationship with the wrong one You know who I m talking about The Frog In other words the one you stayed with because you were confident you could change him into the man you ve always wanted You dealt with his lying cheating deceiving using abusing or anything else unacceptable You just knew you had what it took to turn him into your prince You thought If I just keep on kissing him one day he ll change In the end all you ended up with is warts and a bad case of chapped lips I admire your unwavering persistence but the reality is some frogs are just frogs They ll never change Now you can let these fairytales get you all hyped up and spend your life kissing frogs or you can commit to doing the necessary work that will lead to finding your prince And I ve never met a woman who liked putting her lips to a frog just for the hell of it But hey if that s your kind of party rock on For everyone else see you inside

Kiss Every Frog You Find Kristin Tara McNamara,2011-01 My name is Kristin and I suck at dating This makes me unbelievably popular at parties because the stories of my failure are funny Everyone who hears a few of my war tales tells me I should write a book This is the book Join me as I negotiate the wide world of twenty something dating tell it like it is and learn a few of life s lessons along the way Craigslist text fights blind dates religious awakenings unwanted dry humping It s all in there Here s the pitch basically there are only a few types of dating books out there the how to She s Just Not that Into You the

fictionalized amusement Sex and the City and memoir style The Game Tucker Max This book blends all of those into one they are 100% true stories names changed to protect those involved but rather than just being stories to laugh at they're pedagogical what did I learn and what does my reader learn It's a social commentary on our times more than it is a how to The truth of the matter is that the ladies all wonder what's wrong with them but really it seems to be a case of expectations and interaction problems as we progress socially and technologically The book's broken into easy to read vignettes that can be left on a coffee table or in the bathroom and it's written in a conversational accessible style Readers are forced to compare it to their own lives and that's very different from memoir styles out there At the same time it's got character development and a very strong self-effacing personal voice of the current 20-30 something generation Remember examine your subjects closely
