**How to Manage a Repressed Economy** Ronald I. McKinnon, Donald J. Mathieson, 1981 *How to Manage a Repressed Economy* Ronald I. McKinnon, 1981 Escalation Management in International Crises Jonathan Wilkenfeld, Egle E.

Murauskaite, 2023-02-14 Based on cutting edge research by an interdisciplinary team of academics and policy analysts this insightful and timely book considers the role of great power competition in what has come to be known as gray zone conflict Taking the 2022 Russian invasion of Ukraine as a backdrop for some of its critical evaluation it also examines US and NATO approaches to the management of escalation in asymmetric conflicts and proposes innovative tools for managing crises in the future Political Economy Aspects of Trade and Financial Liberalization Ms. Rina Bhattacharya, 1999-11-01 This paper integrates a two period overlapping generations model with a standard two sector Heckscher Ohlin trade model and analyzes the impact of uncertainty on domestic investment in the exportable and importable sectors the political economy linkages between trade and financial liberalization and the implications for sequencing Under certain assumptions financial liberalization leads to a movement of resources in the opposite direction to that implied by trade liberalization thus defeating one of the objectives of tariff reform When political economy linkages are taken into account however the indirect effects of financial liberalization may offset the direct effects and encourage a movement of resources in the desired direction

**Structuralism and Individualism in Economic Analysis** S. Charusheela, 2013-09-13 This book argues that the debates about the appropriate economic policies to follow in the developing world within the field of development economics are at heart debates about the appropriate ontology to ascribe to agents within the developing world **Political Economy of Labor Repression in the United States** Andrew Kolin, 2016-11-16 This book explores the political economy of labor repression and expands the meaning of repression by looking at the relation of politics to economics throughout the course of US history It explains how and why this relation leads to the repression of labor and considers how it develops over time from the social relation of capital and labor **How Expectations Affect Reform Dynamics in Developing Countries**

Francesco Daveri, 1991 Bold moves were effective in trade reform in Chile Turkey and Venezuela But discredited governments in countries with a history of policy failure are probably better off sending no signals of policy reform and approaching it in small cautious steps **Financing Problems of Developing Countries** Armin Gutowski, A. A.

Arnaudo, Hans-Eckart Scharrer, 1985-06-18 **Lessons in Economic Policy for Eastern Europe from Latin America** Gary McMahon, 2016-07-27 In the 1980s a large number of Latin American countries undertook stabilization and structural adjustment programmes similar though smaller in magnitude to the ones that Eastern Europe is now undergoing In this book economists from four different Eastern European countries analyze the relevance of the Latin American experience for their own countries in the areas of fiscal policy privatization monetary policy and the external sector The book also contains two chapters with the perspective of Latin Americans as well as a synthesis of the entire volume **The Order of Economic**

**Liberalization** Ronald I. McKinnon, 1993-10 Can knowledge of financial policies in developing countries over four decades help the socialist economies of Asia and Eastern Europe become open market economies in the 1990s In all these countries the loss of fiscal and monetary control has often resulted in high inflation that undermines the liberalization process itself In the second edition of *The Order of Economic Liberalization* Ronald McKinnon builds on his influential work on the liberalization of financial markets in less developed countries and outlines the progression necessary to move from a repressed to an open economy New to this edition are chapters that contrast the gradual Chinese approach to liberalizing domestic and foreign trade with the big bang approach followed by some Eastern European countries and republics of the former Soviet Union Financial control and macroeconomic stability McKinnon argues are more critical to a successful transition than is any crash program to privatize state owned industrial assets and the banking system      **World Economic Primacy** Charles Poor Kindleberger, 1996 Examines why certain countries have achieved at some periods in their history economic superiority over all other countries      Managing Chineseness Daphnee Lee, 2016-11-24 This book explores the personal experiences of professionals who are a part of the post colonial and late industrializing reality in the global value chain in Singapore Looking at Chinese Singaporean employees at a French multi national firm the author explores the evolving social constructions of Chineseness Sociologist Manuel Castells once hailed Singapore as the only true Leninist project that has survived and Lee revisits the Singapore social laboratory addressing recent dialectics that transpire within the global political economy Currently professional actors need to address the demands of dual hegemony in response to China's rise in the Western dominated capitalist political economy Underlying these constructions are enduring dispositions that mediate interpretations of professionalism The author puts to test the potential for change surveying a large cohort of teachers as makers of future professionals The question is does change occur in the domain of practice or the habitus if it is possible in the first place The book will be of interest to scholars and students with an interest in Sociology Identity and Ethnicity Business Management Globalisation Organizational Sociology and Sociology of Education      Repression and Resistance Robin Cohen, Yvonne G. Muthien, Abebe Zegeye, 2024-02-29 Originally published in 1990 this book provides a unique view of South Africa and when it was published it represented a coming of age of a new and vigorous strand of scholarship The contributors are black social scientists doctors or trade unionists some working inside black universities which subsequently turned against the apartheid planners who created them This book reflects the conviction that the black people of South Africa are not only passive victims of white repression but actors with the capacity for both overt and covert resistance Whether writing about the health service shopfloor struggles or the evasion of pass controls the contributors combine scholarly analysis with an insider's knowledge of the difference between apartheid theory and the social reality of South Africa during the 1990s      **Monetary Control During an Economic Liberalization** Philip Lawton Brock, 1982      **Political Economy of Financial Systems** Jitendra Uttam, 2025-01-17 As the world grapples with financial instability

caused by a massive infusion of pandemic era liquidity and its subsequent withdrawal scholars are raising doubts again regarding the merits behind the unhindered push for liberalization and deregulation In the search for a convincing way out from recurring financial turbulences this book revisits the past experiences of financial stability presided over by long term credit supply largely through bank based intermediation The two Asian countries South Korea and India instituted wide ranging financial repression through an identical Credit based Price administered System but surprisingly they witnessed contrasting outcomes While accounting for the yawning performance gap between India and South Korea this book introduces a political economy approach to better understand the efficiency of financial systems It argues that the Functional Efficiency of finance is not solely dependent on the structures of finance alone but it also lies in the wider political economic context and its relations with the market      **Greek Economic Review** ,1985      **How to Measure the Fiscal Deficit**

Mr.Mario I. Bléjer, MissA. Cheasty, 1991-09-15 Fiscal policy seeks to equilibrate the public sector's financing needs with the private sector's demand for investment and a sustainable balance of payments Correct measurement of the public sector's net use of resources is therefore an important prerequisite for managing the macroeconomy This volume edited by Mario I Blejer and Adrienne Cheasty is organized around four issues the adequacy of summary measures of the fiscal deficit conventional and adjusted deficits coverage size of the public sector and the public sector's intertemporal budget constraint

**Dialogue with the Dictator** Hannah S. Chapman, 2024-02-22 Shows how autocrats structure interaction between citizens and leaders to manage information dilemmas and build regime legitimacy Uses interviews original surveys and text analysis to highlight the tools used by Russian President Vladimir Putin to reinforce his now twenty year rule and how these tools may backfire against the regime      **How China's Silk Road Initiative is Changing the Global Economic**

**Landscape** Yuan Li, Markus Taube, 2019-08-28 China's New Silk Road initiative constitutes one of the most ambitious projects in recent decades designed to change the pattern of the global economic division of labour as well as the geostrategic balance of power It has the potential to create a new fabric of industrial value creation that links China and East Asia via Central and South Asia with Europe and to forge new regional and multilateral institutions that complement or compete with existing regional and global governance systems First proposed in 2013 the new initiative is only now starting to be rolled out with trade relations gradually intensifying and the first investment projects and infrastructure clusters becoming manifest However the full impact of the evolving new regional value chains on global goods flows investment activity supra national institution building as well as their wider international implications remains undetermined This book brings together leading scholars from economics political science and area studies who present the latest cutting edge knowledge and the latest state of the art economic and political analysis on how the new initiative is developing and likely to develop      *The Nigerian Journal of Economic and Social Studies* ,1986
