people coming from an academic background or by people who have not themselves experienced the challenges of having to do this on a daily basis Growing Start Up and Scale Up Activities into a Successful Business is based on forty three years of experience with the author actively working on a daily basis to face the challenge of growing new businesses into success What also makes Growing Start Up and Scale Up Activities into a Successful Business unique is that the principles put forward are illustrated by more than forty five anonymized real life cases If you would like consulting advice with a hands on approach from an author who has always had both feet planted firmly in everyday management at the international level for growing new business initiatives into successful enterprises then Growing Start Up and Scale Up Activities into a Successful Business is the right choice for you
