The British Television Pilot Episodes Research Guide 1936-2015 Christopher Perry,2015-12 A new idea can become an expensive flop for TV executives. So from the earliest days of television, the concept of a pilot episode seemed like a good idea. Trying out new actors, new situations and new concepts before making a series was good economical sense. It was also tax deductible. Sometimes these pilots were shown on television, sometimes they were so awful they were hidden from sight in archives, and sometimes they were excellent one-offs, but a series seemed elusive and never materialised. Chris Perry has always been fascinated by the pilot episode. So many pilots are made annually but never seen by audiences. Only a handful appear on screen. It's a hidden world of comedy, variety, drama and factual programming. This volume attempts to lift the lid on the world of the TV pilot by revealing the many transmitted and untransmitted episodes made through the decades.

The New Encyclopedia of Stage Hypnotism Ormond McGill,1994-05-25 This phenomenal work by the Dean of American Hypnotists is the most comprehensive text ever to be published on stage hypnotism. It also has widespread therapeutic applications. A masterwork on Stage Hypnosis. Gil Boyne, President American Council of Hypnotist Examiners. *Paranormal Media* Annette Hill,2010-11-05 The paranormal has gone mainstream. Beliefs are on the rise, with almost half of the British population and two thirds of Americans claiming to believe in extra sensory perceptions and hauntings. Psychic magazines like *Spirit* and *Destiny*, television shows such as *Fringe*, *Ghost Whisperer* and *Most Haunted*, ghost cams and e-poltergeists, bestselling books on mind, body and spirit, and magicians like Derren Brown have moved from the outer limits to the centre of popular culture, turning paranormal beliefs and scepticism into revenue streams. *Paranormal Media* offers a unique, timely

exploration of the extraordinary unexplained and supernatural in popular culture looking in unusual places in order to understand this phenomenon Early spirit forms such as magic lantern shows or the spirit photograph are re imagined as a search for extraordinary experiences in reality TV ghost tourism and live shows Through a popular cultural ethnography and critical analysis in social and cultural theory this ground breaking book by Annette Hill presents an original and rigorous examination of people s experiences of spirits and magic In popular culture people are players in an orchestral movement about what happens to us when we die In a very real sense the audience is the show This book is the story of audiences and their participation in a show about matters of life and death Paranormal Media will be a highly interesting read for undergraduate and postgraduate students as well as academics on a wide range of television media cultural studies and sociology courses
