Kinship Contemporary Perspective:

Kinship S. M. Channa, 1998 **Chinese Kinship** Susanne Brandtstädter, Gonçalo D Santos, 2008-09-25 This volume presents contemporary anthropological perspectives on Chinese kinship and documents in rich ethnographic detail its historical complexity and regional diversity The collection's analytical emphasis is on the modern metamorphoses of kinship in the People's Republic of China and Taiwan but the essays also offer ample historical documentation and comparison

Fat Kinship Cindy Baker, 2025-06-16 *Fat Kinship* examines the transformative power of self-selected relationships among fat people exploring how fatness intersects with identity intimacy and community to challenge societal stigma and foster belonging Through diverse pieces the book highlights the resilience and solidarity found in fat positive connections across personal cultural and political landscapes The chapters in this volume examine how fatness intersects with race gender sexuality and disability to shape experiences of intimacy community and selfhood Through essays spanning topics such as fat forward sexuality fat representation in media and the unique dynamics of fat therapist client relationships contributors illuminate the complexities and possibilities of self-selected kinship as a form of resistance and resilience Drawing on critical race theory queer theory and fat studies *Fat Kinship* underscores the importance of relationships that nurture and affirm fat identities in the face of societal stigma From romantic fiction to digital spaces the book reveals how fat communities reimagine intimacy and belonging fostering solidarity and healing This book is an essential read for anyone seeking to understand the radical potential of human connection in defiance of a world that often devalues fat bodies It was originally published as a special issue of *Fat Studies*

Kinship in Action Andrew Strathern, Pamela J Stewart, 2015-07-02 For courses in Social Organization Kinship and Cultural Ecology Kinship has made a come back in Anthropology Not only is there a line of noted general introductory works and readers in the topic but theoretical discussions have been stimulated both by technological changes in mechanisms of reproduction and by reconsiderations of how to define kinship in the most productive ways for cross cultural comparisons In addition kinship studies have moved away from the minutiae of kin terminological systems and the kinship algebra often associated with these to the broader analysis of processes historical changes and fundamental cultural meanings in which kin relationships are implicated In this changed and changing context both Andrew Strathern and Pamela J Stewart both of the University of Pittsburgh bring together a number of interests and concerns in order to provide pointers for students as well as scholars in this field of study Taking an explicitly processual approach the authors examine definitions of terms such as kinship itself approach the topic in a way that is invariably ethnographic and deploy materials from field areas where they themselves have worked

Focality and Extension in Kinship Warren Shapiro, 2018-04-20 When we think of kinship we usually think of ties between people based upon blood or marriage But we also have other ways nowadays called performative of establishing kinship or hinting at kinship many Christians have in addition to parents godparents members of a trade union may refer to each other as brother or sister

Similar performative ties are even more common among the so called tribal peoples that anthropologists have studied and especially in recent years they have received considerable attention from scholars in this field However these scholars tend to argue that performative kinship in the Tribal World is semantically on a par with kinship established through procreation and marriage Harold Scheffler long time Professor of Anthropology at Yale University has argued by contrast that procreative ties are everywhere semantically central i e focal that they provide bases from which other kinship ties are extended Most of the essays in this volume illustrate the validity of Scheffler s position though two contest it and one exemplifies the soundness of a similarly universalistic stance in gender behaviour This book will be of interest to everyone concerned with current controversy in kinship and gender studies as well as those who would know what anthropologists have to say about human nature The study of kinship once ruled the discipline of anthropology and Hal Scheffler was one of its magisterial figures This volumes reminds us why Scheffler s powerful analyses of kinship systems often conflicted with the views of his more relativist contemporaries He cut through the fog of theory to emphasise the human essentials namely the importance of the social bonds rooted in motherhood and fatherhood Anthropology in its decades long retreat from the serious study of kinship has lost a great deal This volume points the way to a restoration Peter Wood National Association of Scholars

Kinship Matters Fatemeh Ebtehaj, Bridget Lindley, Martin Richards, 2006-09-15 This book is the fifth in the Cambridge Socio Legal Group series and it concerns the evolving notions and practices of kinship in contemporary Britain and the interrelationship of kinship law and social policy Assembling contributions from scholars in a range of disciplines it examines social legal cultural and psychological questions related to kinship Rising rates of divorce and of alternative modes of partnership have raised questions about the care and well being of children while increasing longevity and mobility together with lower birth rates and changes in our economic circumstances have led to a reconsideration of duties and responsibilities towards the care of elderly people In addition globalisation trends and international flows of migrants and refugees have confronted us with alternative constructions of kinship and with the challenges of maintaining kinship ties transnationally Finally new developments in genetics research and the growing use of assisted reproductive technologies may raise questions about our notions of kinship and of kin rights and responsibilities The book explores these changes from various perspectives and draws on theoretical and empirical data to describe practices of kinship in contemporary Britain

The Ways of Friendship Amit Desai, Evan Killick, 2010 Originally presented at a workshop entitled The anthropology of friendship held at the London School of Economics in June 2006 Acknowledgments **Family and Kinship in Modern**

Britain Christopher Turner, 2023-08-09 In the 1960s the family had been described as by far the most important primary group in society The primary concern of the sociologist was to understand the functioning of family life in any given society and to set his observations in the wider framework of the relation of kinship systems to social structures In this study originally published in 1969 Dr Turner s aim was to present a conceptual scheme for the analysis of family and kinship in

modern Britain at the time However in doing so he was able to use the particular example to illustrate general principles of the analysis of kinship But the family is not a static entity and the author s approach to his subject is processual He views the family both as an entity passing through a cycle of development and decline and also as an element in an ever changing social structure This study is necessarily inexorably linked with other aspects of sociology with class education socialization occupation and many other topics The Anthropology of Sibling Relations E. Alber,C. Coe,T. Thelen,2013-07-17 Drawing on international case studies the contributors extrapolate a systematization of the ways in which siblingship is conceived on the basis of shared parentage shared childhoods and reciprocal care They explore what makes these relations worth maintaining and how they contribute to community processes and to material and emotional survival The Not Very Patrilocal European Neolithic Bradley E. Ensor,2021-09-30 Two decades of strontium isotope research on Neolithic European burials reinforced by high profile ancient DNA studies has led to widespread interpretations that these were patrilocal societies implying significant residential mobility for women This volume questions that narrative from a social anthropological perspective on kinship Contemporary Introduction to Sociology Jeffrey C. Alexander,Kenneth Thompson,Laura Desfor Edles,2016-01-08 The first edition of A Contemporary Introduction to Sociology was the first truly new introductory sociology textbook in decades Written by two leading sociologists at the cutting edge of theory and research the text reflected the idioms and interests of contemporary American life and global social issues The second edition continues to invite students to reflect upon their lives within the context of the combustible leap from modern to postmodern life The authors show how culture is central to understanding many world problems as they challenge readers to confront the risks and potentialities of a postmodern era in which the futures of both the physical and social environment seem uncertain As culture rapidly changes in the 21st century the authors have broadened their analysis to cover developments in social media and new data on gender and transgender issues Narrating the City Wladimir Fischer-Nebmaier,Matthew P. Berg,Anastasia Christou,2015-09-01 In recent decades the insight that narration shapes our perception of reality has inspired and influenced the most innovative historical accounts Focusing on new research this volume explores the history of non elite populations in cities from Caracas to Vienna and Paris to Belgrade Narration is central to the theme of each contribution whether as a means of description a methodological approach or basic story telling This book brings together research that both asks classical socio historical questions and takes narration seriously engaging with novels films local history accounts petitions to municipal authorities and interviews with alternative cinema activists **An Introduction to Classical and Contemporary Social Theory** Berch Berberoglu,2005-07-14 This book provides a much needed critical perspective for an analysis of the works of some of the major classical and contemporary social theorists of the late nineteenth and twentieth centuries Designed to stimulate interest in the beginning sociology student to examine the critical issues raised by these theorists the book is intended as a text in introductory sociology and social theory courses to further familiarize students with

the perspectives of some of the most prominent social theorists of our time The twenty one chapters that make up this book were designed to be brief concise and to the point expressed whenever possible in the words of the theorists themselves so that the central ideas can be presented in their original form In this sense this brief introductory theory book serves as an initial stepping stone to more in depth analysis of theorists usually covered in more advanced social theory texts *Essays in Sociological Theory* Talcott Parsons,2010-05-11 Talcott Parsons needs little introduction to anyone acquainted with the literature of sociology Few men have dominated their fields so much as Dr Parsons does his In this collection of nineteen essays Dr Parsons focuses his attention on subjects ranging from the social structure of Japan to propaganda and social control from sociological aspects of Fascist movements to the place of psychoanalysis in society Also dealt with are such topics as The role of ideas in social action the motivation of economic activities American social structure social classes and class conflict and the prospects for contemporary sociological theory The whole body of essays presented here belongs in the broad field of application of sociological theory It stands in the line of scientific development of the most advanced techniques for sociological investigation and evaluation of data Transnational Aging and Reconfigurations of Kin Work Parin Dossa,Cati Coe,2017-03-10 Transnational Aging and Reconfigurations of Kin Work documents the social and material contributions of older persons to their families in settings shaped by migration their everyday lives in domestic and community spaces and in the context of intergenerational relationships and diasporas Much of this work is oriented toward supporting connecting and maintaining kin members and kin relationships the work that enables a family to reproduce and regenerate itself across generations and across the globe **Anthropology Of China, The: China As Ethnographic And Theoretical Critique** Stephan Feuchtwang,Charlotte Bruckermann,2016-07-13 Putting China into the context of general anthropology offers novel insights into its history culture and society Studies in the anthropology of China need to look outwards to other anthropological areas while at the same time anthropologists specialised elsewhere cannot afford to ignore contributions from China This book introduces a number of key themes and in each case describes how the anthropology and ethnography of China relates to the surrounding theories and issues The themes chosen include the anthropology of intimacy of morality of food and of feasting as well as the anthropology of civilisation modernity and the state The Anthropology of China covers both long historical perspectives and ethnographies of the twenty first century For the first time ethnographic perspectives on China are contextualised in comparison with general anthropological debates Readers are invited to engage in and rethink China s place within the wider world making it perfect for professional researchers and teachers of anthropology and Chinese history and society and for advanced undergraduate and graduate study **Changing Genders in Intercultural Perspectives** Barbara Saunders,Marie-Claire Foblets,2002 Drawing on extensive fieldwork the essays in this book develop contextual and strategic analyses of the way sex gender constellations can be configured as political identities as a resource or in response to unforeseen contingencies **Kinship, Status and Gender in South Celebes**

H.Th. Chabot,2024-09-16 H Th Chabot s Ph D thesis *Verwantschap stand en sexe in Zuid Celebes 1950* is an important source for the anthropology of South Celebes Chabot s study based on fieldwork in the 1940s provides insights into social relationships in a South Celebes village focusing on demographic and spatial data systems of marriage and the position of women His observations are of great value for historical comparative work This English translation makes Chabot s study accessible to a new generation of researchers Added to the translation are a biography of H Th Chabot 1910 1970 and a biography of his scholarly work as well as an extensive introduction by Martin R ssler and Birgit R ttger R ssler placing Chabot s contribution in the context of other work on Macassarese and Buginese society Negotiating Well-being in Central Asia

David W. Montgomery,2016-02-05 Much scholarship of any region focuses on the perceived problems that hold back a population Central Asia is no exception as it is a region with political economic and environmental problems that seem to keep Central Asians from a better future Alongside all the struggles of life however are relationships of meaning and wellness that contribute to a life worth living Recognizing the struggles of everyday life contributors to this book explore how people navigate relationships to find meaning how elders attempt to re establish morality and how development workers pursue new futures Such futures centre around the role of family friends and meaningful employment in yielding contentment and the influence of Islam ethnicity and hospitality on community The first regional collection to take well being as a frame of analysis the contributors show how visions spaces and cosmologies of well being inform everyday life in Central Asia This volume will appeal not only to those interested in Central Asia but more broadly to anyone concerned with how taking well being into account better captures the complex realities of life in any region This book was published as a special issue of *Central Asian Survey* **Experiencing Cities**

Mark Hutter,2015-12-22 This extraordinary text for undergraduate urban students is a reflection of Mark Hutter s academic interests in urban sociology and his life long passion for experiencing city life His deep academic roots in the Chicago School of Sociology help inform and appreciate the variety of urban structures and processes and their effect on the everyday lives of people living in cities This text however extends the Chicago School perspective by combining its traditions with a social psychological perspective derived from symbolic interaction and also with a macro level examination of social organization social change stratification and power in the urban context informed by political economy This entirely new 3rd Edition has a global outlook on city life and a visual presentation unmatched among books in this genre
