A Commentary on the Book of Exodus Umberto Cassuto, 1967 The late Professor U Cassuto had originally planned to write in Hebrew a monumental commentary on the Bible that would comprise a series of

detailed expositions of the Book of Genesis and less elaborate commentaries consisting of one volume for each book devoted to the remaining four books of the Pentateuch. It was also his intention to compose a compendious Introduction to the Torah as a whole and a comprehensive commentary on the Book of Psalms. Unhappily the author died after completing only three of his commentaries: two on Genesis and one on Exodus. The present volume, A commentary on the Book of Exodus, is the last of the commentaries to be rendered into English. Cassuto's comments have a vivid quality seldom found in the exegetical writings of other Biblical expositors who all too often prefer a jejune and lifeless approach to their subject. Cassuto succeeds in injecting a sense of dramatic excitement into his interpretations. Without neglecting the scientific data provided by archeological and philological research, he makes us conscious of the literary attributes of the Bible. Unlike the volumes dealing with the first two pericopes of Genesis, the present work does not separate the annotations from the Biblical text but forms a continuous unified commentary in which the Scriptural citations are interlinked with the exposition. The elements are so closely and artistically interwoven as to form a new literary entity, not a text with notes but a homogeneous expository work which must rank among the finest modern contributions to the treasury of Biblical learning.

Exodus; a Commentary Martin Noth, 1962 Exodus is seen in its relation to the preceding Genesis and to the succeeding three books of the Pentateuch Unlike Genesis which dealt with individuals Exodus is primarily concerned with Israel collectively and with the basic elements of Israel's faith The author shows that the central motifs are the flight from Egypt especially the crossing of the sea and the theophany and covenant at Sinai The exegesis deals with the narrative as it appears in its final form but in order to clarify the story the author makes constant references to the successive stages in its literary development and throughout the commentary he distinguishes the literary strands notably those known as J E and P that are woven into the fabric of the book
