Department of State, 1888 **Shifts of Power** Zhitian Luo, 2017-10-17 In *Shifts of Power* Modern Chinese Thought and Society Luo Zhitian brings together nine essays to explore the causes and consequences of various shifts of power in modern Chinese society including the shift from scholars to intellectuals from the traditional state to the modern state and from the people to society Adopting a microhistorical approach Luo situates these shifts at the intersection of social change and intellectual evolution in the midst of modern China's culture wars with the West Those culture wars produced new problems for China but also provided some new intellectual resources as Chinese scholars and intellectuals grappled with the collisions and convergences of old and new in late Qing and early Republican China **Hai Guan Zhi Yuan Ti Ming Lu** China. Hai guan zong shui wu si shu, 1892 *Translation of the Peking Gazette*, 1888 **Landlord and Labor in Late Imperial China** Jing Su, Luo Lun, 2020-03-17 This well documented study discusses the social and economic changes in Shandong province before the influence of the West was felt at the end of the nineteenth century The authors show that by the sixteenth century commercial and handicraft towns linked to national and local markets had already begun to emerge Urban growth was made possible by increased agricultural production which in turn stimulated specialization and increased commercialization in the agricultural sector Another important change in rural society at this time was the emergence of a new stratum of wealthy landlords who managed their estates with wage labor Case studies of managerial landlords who form the main focus of this study are included as well as generalizations drawn from questionnaire materials Luo Lun and Jing Su wrote this book while they were young researchers at Shandong University in the late 1950s using data they had gathered in

the culturally relaxed period of the Hundred Flowers In his introduction Endymion Wilkinson analyzes the authors thesis and concludes that their Leninist model is inapplicable to premodern Chinese history The value of this study lies not so much in its conclusion that even without the impact of Western imperialism China would of itself have developed a capitalist society but rather in the wealth of data the authors present in this first in depth study of a relatively advanced region in north China
