A Companion to Political Geography John A. Agnew, Katharyne Mitchell, Gerard Toal, 2008-04-15 A Companion to Political Geography presents students and researchers with a substantial survey of this active and vibrant field Introduces the best thinking in contemporary political geography Contributions written by scholars whose work has helped to shape the discipline Includes work at the cutting edge of the field Covers the latest theoretical developments The Making of Global International Relations Amitav Acharya, Barry Buzan, 2019-02-14 Presents a challenge to international relations scholars to think globally understanding the field's development in the Global South alongside the traditionally dominant Western approach Space and Time in Thai-Lao Relations Thanachate Wisaijorn, 2022-06-07 Wisaijorn explores how the concepts of space and temporality in traditional geopolitics have influenced the understanding of the Thai Lao border since Laos became independent in 1954 Arquing that a state centric conceptualisation of the Thailand Laos border falls into both a territorial and temporal trap Wisaijorn contests that privileging a theoretical border silences the voices of people on the ground In doing so he expands the concept of a temporal trap with the addition of a temporal dimension analysing how the state claims a monopoly not only on a geography but also a history Rooted in orientalism colonialism and the expediencies of the Cold War the border operates in the interest of elites and ignores the lived reality of peoples on the ground By bringing these voices back into the discussion Wisaijorn presents a more complex framework which reveals a human dimension missing not only from this particular case but more broadly from the conceptions of borders within International Relations theory A fascinating case study for scholars with an interest in mainland Southeast Asia which also makes a valuable theoretical contribution to International relations discourse
