*Multilevel Regulation of Military and Security Contractors* Christine Bakker, Mirko Sossai, 2012-02-10 The outsourcing of military and security services is the object of intense legal debate States employ private military and security companies PMSCs to perform functions previously exercised by regular armed forces and increasingly international organisations NGOs and business corporations do the same to provide security particularly in crisis situations Much of the public attention on PMSCs has been in response to incidents in which PMSC employees have been accused of violating international humanitarian law Therefore initiatives have been launched to introduce uniform international standards amidst what is currently very uneven national regulation This book analyses and discusses the interplay between international European and domestic regulatory measures in the field of PMSCs It presents a comprehensive assessment of the existing domestic legislation in EU Member States and relevant Third States and identifies implications for future international regulation The book also addresses the crucial questions whether and how the EU can potentially play a more active future role in the regulation of PMSCs to ensure compliance with human rights and international humanitarian law

Constituting Economic and Social Rights Katharine G. Young, 2012-08-23 Food water health housing and education are as fundamental to human freedom and dignity as privacy religion or speech Yet only recently have legal systems begun to secure these

fundamental individual interests as rights This book looks at the dynamic processes that render economic and social rights in legal form It argues that processes of interpretation enforcement and contestation each reveal how economic and social interests can be protected as human and constitutional rights and how their protection changes public law Drawing on constitutional examples from South Africa Colombia Ghana India the United Kingdom the United States and elsewhere the book examines innovations in the design and role of institutions such as courts legislatures executives and agencies in the organization of social movements and in the links established with market actors This comparative study shows how legal systems protect economic and social rights by shifting the focus from minimum bundles of commodities or entitlements to processes of value based deliberative problem solving Theories of constitutionalism and governance inform the potential of this approach to reconcile economic and social rights with both democratic and market principles while addressing the material inequality poverty and social conflict caused in part by law itself

**The Journal of Industrial and Engineering Chemistry**, 1913 *Business Freedoms and Fundamental Rights in European Union Law* Niall O'Connor, 2024-10-31 Article 16 of the EU Charter of Fundamental Rights recognizing the freedom to conduct a business in accordance with Union law and national laws and practices has been the subject of intense debate over the value of business freedoms within EU law Problematically the Court of Justice of the European Union CJEU relied on this provision in a series of highly deregulatory judgments invoking Article 16 to undermine the effectiveness of employee protective legislation

*Business Freedoms and Fundamental Rights in European Union Law* assesses the value placed on the freedom to conduct a business as a fundamental right within the legal reasoning of the CJEU Arguing that this freedom can only properly be understood in relation to its wider constitutional and social rights functions it uses the employment law context as a case study given the tensions that exist between the economic rights of employers and the social rights of employees Examined

holistically the book demonstrates that granting fundamental rights status to business freedoms is not inherently deregulatory with such freedoms also encapsulating social rights values and interests The freedom to conduct a business therefore emerges as a malleable fundamental rights concept dependent on the underlying constitutional context whether that be within national constitutional law the EU Charter of Fundamental Rights general principles of EU law or in the arrangements governing the United Kingdom s departure from the EU This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations     *The European Union after Lisbon* Hermann-Josef Blanke,Stelio Mangiameli,2011-10-12 The book contains 24 contributions from European law scholars and practitioners analysing the constitutional basis of the European Union and the normative orientation of the Common Foreign and Security Policy CFSP as well as the central economic and monetary provisions TFEU after the Reform Treaty of Lisbon Presenting the findings of a European research team which is composed of authors from eight Member States the publication underlines the aspiration of the editors to thoroughly analyse the constitutional law of the European Union currently in force     Energy Research Abstracts ,1987     **Pesticides Documentation Bulletin** ,1967-10     **Congressional Record** United States. Congress,1974 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873
