**Regional Economic Integration and the Global Financial System** Sorhun, Engin, Haċȯlu, Ümit, Dinçer, Hasan, 2014-11-30 In theory regionalism and globalization are intended to be viewed as two separate concepts However as long as the approaches complement each other considering these paradigms in tandem can have significantly positive effects on the overall status of the world economy Regional Economy Integration and the Global Financial System addresses recent trends in regional integration projects and the strides that such projects are making on the road toward globalization Focusing on a range of economic projects emerging supranational units and possible implications for future trends this book is an essential reference source for professionals scholars and institutions interested in the dynamic effects of regionalism and globalization

**The Oxford Handbook of Urban Economics and Planning** Nancy Brooks, Kieran Donaghy, Gerrit-Jan Knaap, 2012-01-12 This volume embodies a problem driven and theoretically informed approach to bridging frontier research in urban economics and urban regional planning The authors focus on the interface between these two subdisciplines that have historically had an uneasy relationship Although economists were among the early contributors to the literature on urban planning many economists have been dismissive of a discipline whose leading scholars frequently favor regulations over market institutions equity over efficiency and normative prescriptions over positive analysis Planners meanwhile even as they draw upon economic principles often view the work of economists as abstract not sensitive to institutional contexts and communicated in a formal language spoken by few with decision making authority Not surprisingly papers in the leading economic journals rarely cite clearly pertinent papers in planning journals and vice versa Despite the historical divergence in perspectives and methods urban economics and urban planning share an intense interest in many topic areas the nature of cities the prosperity of urban economies the efficient provision of urban services efficient systems of transportation and the proper allocation of land between urban and environmental uses In bridging this gap the book highlights the best scholarship in planning and economics that address the most pressing urban problems of our day and stimulates further dialog between scholars in urban planning and urban economics

**Shaping the Sierra** Timothy P. Duane, 1999-06-30 The rural west is at a crossroads and the Sierra Nevada is at the center of this social and economic change The Sierra Nevada landscape has always been valued for its bounty of natural resource commodities but new residents and an ever growing flood of tourists to the area have transformed the relationship between the region's nature and its culture In an engaging narrative that melds the personal with the

professional Timothy P Duane who grew up in the area documents the impact of rapid population growth on the culture economy and ecology of the Sierra Nevada since the late 1960s He also recommends innovative policies for mitigating the negative effects of future population growth in this spectacular but threatened region as well as throughout the rural west Today the primary social and economic values of the Sierra Nevada landscape are in the amenities and ecological services provided by its wildlands and functioning ecosystems Duane shows how further unfettered population growth threatens the very values which have made the Sierra Nevada a desirable place to live and work A new approach to land use planning resource management and local economic development one that recognizes the emerging values of the landscape is necessary in order to achieve sustainable development Duane claims Weaving personal experience with outstanding scholarship he shows how such an approach must explicitly recognize the importance of values and the application of an environmental land ethic to future development in the area *Environment & Planning* ,1998 *Green Economy*

*Implementation in the Agriculture Sector* Constansia Musvoto,Karen Nortje,Anton Nahman,William Stafford,2019-01-01 This book focusing on the agriculture sector provides useful analysis of the green economy implementation context and a practical framework for implementing vegetable crop production green economy projects The book addresses a distinct gap as there are currently no guidelines available for planning and implementing green economy projects in the agriculture sector The book combines information from desktop reviews and field research on vegetable production in a green economy context in South Africa in order to bridge the gap between the theoretical green economy concept and practical implementation issues that would be encountered at the project level It includes a step by step process for translating abstract green economy principles into tangible projects on the ground so that the potential benefits of a green economy are realizable
